Total programs may include other state-specific program data not collected or reported by the PLS. Data on young adults' programs were not collected until FY 2009, and therefore, 10-year trends are not available. Conserving America's Neighborhoods Robert Yin, 2013-03-09 Over the years I have conducted numerous neighborhood studies alternately focusing on specific geographic areas public programs and types of citizen actions Because most of these efforts were done on a project by project basis it did not readily occur to me that these separate investigations also represented an aggregate statement about American neighborhoods the continuing and complex relationship between public policy and neighborhood life A suggestion by Lloyd Rodwin the senior editor for this series provided the opportunity to reexamine the various manuscripts and to select and in some cases considerably edit those bearing most on this overall theme Thus each of the chapters in this book is a commentary on the potential uses of public policy for preserving the most cherished aspect of contemporary neighborhoods the social life within them In some cases the policy actions may have only an indirect effect on neighborhoods For instance a whole portion of the book is devoted to the role of research in understanding neighborhood conditions public policy is relevant because research these days has itself become a public policy enterprise In other cases the policy effects are direct and pervasive the support of citizen organizations the delivery of neighborhood services and the provision of timely and relevant information to residents I do not know whether the relationship between public policy and neighborhoods is the same or as intimate outside the United States
