Magistrates of the Sacred William B. Taylor, 1996 This book is an extraordinarily rich account of the social, political, cultural, and religious relationships between parish priests and their parishioners in colonial Mexico. It thus explores a wide range of issues from competing interpretations of religious dogma and beliefs to questions of practical ethics and daily behavior to the texture of social and authority relations in rural communities to how all these things changed over time and over place and in relation to reforms instigated by the state.

New Pathways in Pilgrimage Studies Dionigi Albera, John Eade, 2016-11-18 Although there has been a massive increase in the volume of pilgrimage research and publications, traditional Anglophone scholarship has been dominated by research in Western Europe and North America. In their previous edited volume *International Perspectives on Pilgrimage Studies* (Routledge, 2015) Albera and Eade sought to expand the theoretical, disciplinary, and geographical perspectives of Anglophone pilgrimage studies. This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non-Christian pilgrimages abound. Individual chapters examine the practice of ziyarat in the Maghreb and South Asia, Hindu pilgrimage in India, and different pilgrimage traditions across Malaysia and China, before turning towards the Pacific islands, Australia, South Africa, and Latin America, where Christian pilgrimages co-exist and sometimes interweave with indigenous traditions. This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where
