Summers, Allan Michael Hoffman, 2006 Product Description Addresses key issues facing older people and our entire society Topics include care pathway model guidelines for health care professionals understanding elder abuse in minority populations moral and ethical implications of elder abuse sexual violence against elderly women helping victims and more For public health personnel

Elder Mistreatment National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on National Statistics, Panel to Review Risk and Prevalence of Elder Abuse and Neglect, 2003-01-06 Since the late 1970s when Congressman Claude Pepper held widely publicized hearings on the mistreatment of the elderly policy makers and practitioners have sought ways to protect older Americans from physical psychological and financial abuse Yet during the last 20 years fewer than 50 articles have addressed the shameful problem that abusers and sometimes the abused themselves want to conceal Elder Mistreatment in an Aging America takes a giant step toward broadening our understanding of the mistreatment of the elderly and recommends specific research and funding strategies that can be used to deepen it

The book includes a discussion of the conceptual methodological and logistical issues needed to create a solid research base as well as the ethical concerns that must be considered when working with older subjects. It also looks at problems in determination of a report's reliability and the role of physicians, EMTs and others who are among the first to recognize situations of mistreatment. Elder Mistreatment in an Aging America will be of interest to anyone concerned about the elderly and ways to intervene when abuse is suspected including family members, caregivers and advocates for the elderly. It will also be of interest to researchers, research sponsors and policy makers who need to know how to advance our knowledge of this problem.

The Oxford Handbook of Clinical Geropsychology Nancy A. Pachana, Ken Laidlaw, 2014-11-07

Throughout the world the population of older adults continues to grow. The rise in geriatric populations has seen an increase in research on clinical diagnostic assessment and treatment issues aimed at this population. Clinical geropsychologists have increased their interest both in providing mental health services as well as developing approaches to improve quality of life for all older adults. *The Oxford Handbook of Clinical Geropsychology* is a landmark publication in this field providing broad and authoritative coverage of the research and practice issues in clinical geropsychology today as well as innovations expanding the field's horizons. Comprising chapters from the foremost scholars in clinical geropsychology from around the world, the handbook captures the global proliferation of activity in this field. In addition to core sections on topics such as sources of psychological distress, assessment, diagnosis and intervention, the handbook includes valuable chapters devoted to methodological issues such as longitudinal studies and meta-analyses in the field as well as new and emerging issues such as technological innovations and social media use in older populations. Each chapter offers a review of the most pertinent international literature, outlining current issues as well as important cultural implications and key practice issues where relevant and identifying possibilities for future research and policy applications. The book is essential to all psychology researchers, practitioners, educators and students with an interest in the mental health of older adults. In addition, health professionals including psychiatrists, social workers, mental health nurses and trainee geriatric mental health workers will find this an invaluable resource. Older adults comprise a growing percentage of the population worldwide. Clinical psychologists with an interest in older populations have increased the amount of research and applied knowledge about effectively improving mental health later in life and this book captures that information on an international level. The book addresses how to diagnose, assess and treat mental illness in older persons as well as ways to improve quality of life in all older persons. It has a great breadth of coverage of the area including chapters spanning how research is conducted to how new technologies such as virtual reality and social media are used with older people to improve mental health. The book would appeal to all psychology researchers, practitioners, educators and students with an interest in the mental health of older adults. It would also appeal to other health professionals including psychiatrists, social workers and mental health nurses who work with older people. It is a valuable resource for trainee geriatric mental health workers because it highlights
