Financial Statistics of Selected Electric Utilities ,1986 **Electric Sales and Revenue** ,2000 Provides information on electricity sales associated revenue average revenue per kilowatthour sold and number of consumers throughout the United States Data are presented at the national Census division State and electric utility levels Information is based on annual data reported by electric utilities Directory of energy data collection forms United States. Energy Information Administration. Office of the National Energy Information System,1981 *Energy Data Report* Patricia McEwan,Office of Interfuel, International and Emerging Energy Statistics,1980 This publication issued annually since 1946 presents financial and operating information about publicly owned electric utilities in the United States The statistics presented in this publication are compiled by data taken from the annual reports filed by the utilities with the Energy Information Administration EIA Publicly owned refers to electric utilities operated by municipalities and Federal power agencies The Department of Energy Organization Act defines the term municipality as a city county irrigation district drainage district or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing transmitting or distributing power Part 141 7 of the regulation under The Federal Power Act CFR 18 p 550 incorporated into the Department of Energy Organization Act states that the form of annual report for municipal electric utilities having electric operating revenues of 250 000 or more shall be FPC Form No 1 M It should be noted that the Act does not require the municipal electric utilities to use the Uniform System of Accounts prescribed by the Federal Energy Regulatory Commission FERC Beginning with 1961 publicly owned utilities filed a simplified version of the previously filed annual report form This change led to a large increase in the number of municipal utilities filing reports with the FERC The substantial increase in coverage from 272 utilities in 1960 to 511utilities in 1974 disrupted the year to year comparability of summary data The lack of consistency and completeness in reporting by some of the municipals as well as the nonuse of the prescribed Uniform System

of Accounts necessitated functional adjustments to reported data
formatted data presented in the statistical publications of the EIA
