**Renewable Energy for Microenterprise** , *No Small Hope* Kenneth A. Reinert,2018-06-01 With headlines focused on human suffering civil wars refugee flows the spread of disease due to hunger and poor sanitation population growth climate change it is easy to dive into despair What is needed instead is a radical rethinking of global policy to realize the potential for improving the human condition This book provides hope by examining the basic needs for a fundamental shift in thinking about development and human security for both practical and ethical reasons Kenneth A Reinert calls for a basic goods approach that focuses on the provision of nutritious food clean water sanitation health services education services housing electricity and human security services This approach bridges two perspectives that of standard growth which emphasizes increasing GDP per capita and that of capabilities human development which puts priority on the realization of human potential Reinert argues that only when growth leads to an increase in the broad based provision of basic goods and services will the hoped for expansion of human capabilities and development be achieved No Small Hope places the basic goods approach on the firm foundation of objective human needs and subsistence rights It offers a practical agenda for making progress towards human development by focusing on the real determinants of human well being in an ethical system of moral minimalism In a world of climate change increased risk of natural disasters and increased refugee flows the basic goods approach promises to help alleviate ongoing suffering and address vast deprivations in basic needs fulfillment

Electricity in Household and Micro-enterprises Joy Clancy,Lucy Redebay,2000 This book aims to provide help in gaining accessibility to electricity for those living in rural communities The book begins with a brief introduction to the national grid and then focuses on some of the possibilities for independent production of electricity in quantities used by households micro enterprises and small communities

**The Welfare Impact of Rural Electrification** ,2008-01-01 Rural electrification can have many benefits not only bringing lighting but improving the quality of health care spreading information and supporting productive enterprises The extent of these benefits has been questioned arguing that they may be insufficient to justify the investment costs This book quantifies these benefits It finds that the benefits can indeed be high substantially outweighing the costs and that consumer willingness to pay is generally sufficient to achieve financial sustainability However benefits could be increased further by providing smart subsidies to assist connections for poorer households promote productive uses and further consumer education

**Competition Market Study of Ukraine's Electricity Sector** OECD,2023-06-30 This market study analyses Ukraine s electricity sector from a competition perspective It provides a detailed description and assessment of the regulatory framework within which the Ukrainian electricity markets operate as well as an analysis of the obstacles to competition in the wholesale and retail markets

How Do Households Consume Energy?: Evidence from Latin American and Caribbean Countries Raul Jimenez Mori,Ariel Yépez-Garcia,2020-11-22 How do households consume and spend on energy What are the drivers of their spending and consumption patterns How does energy consumption has evolved What

is to be expected as the region climbs the development ladder What are the distributive implications of different energy pricing approaches This book looks at these questions and examines which policies work in reducing energy poverty and increasing energy savings The authors unveil the growing household demand of better quality of energy and show that to achieve more cost effective and progressive public policies it is necessary to strengthen the transparency and sustainability of energy pricing while having into account the consumer behavioral responses This volume is a resource for designing energy policies based on an empirical understanding of the household s energy needs      *Impact Evaluation of Energy Interventions* David A. Raitzer,Nina Blöndal,Jasmin Sibal,2019-04-01 This report aims to support impact evaluation in the energy sector by assessing what has been produced against what might be possible It reviews 85 impact evaluations of energy interventions in developing countries summarizes findings on outcomes identifies evidence gaps and proposes ways forward A majority of studies has so far focused on rural electrification and improved cookstoves while most investments are in power generation and transmission After considering the body of evidence available directions and approaches are proposed for future impact evaluations to best contribute new evidence regarding the sector      **Asia Small and Medium-Sized Enterprise Monitor 2021 Volume III** Asian Development Bank,2022-04-01 This thematic third volume of the Asia Small and Medium Sized Enterprise Monitor 2021 focuses on the digitalization of microfinance in Bangladesh The MSME sector provides much of the income in rural Bangladesh but its growth is constrained by limited access to affordable finance This volume reports on a 2021 baseline study carried out in Bangladesh to pilot a randomized controlled trial to determine whether a digitalized group based credit scheme could be introduced at an affordable price The findings provide justification for further study on the digitalization of microfinance      *Financing Clean Energy in Developing Asia—Volume 1* Asian Development Bank,2021-09-01 This book is the first of two volumes that review various approaches and instruments that have been tried tested and utilized to scale up clean energy development in Asia and the Pacific This volume examines clean energy investment needs and financing gaps in the region and reviews existing financing options and approaches including examples of how these have been applied Innovative solutions for mobilizing private finance and managing risks associated with clean energy investments are also discussed      *Energy Poverty* Antoine Halff,Benjamin K. Sovacool,Jon Rozhon,2014 An edited volume on energy poverty Nearly one quarter of humanity still lacks access to electricity Close to one third rely on traditional fuels like firewood and cow dung for cooking at great cost to their health and welfare The chapters explain the scope of the problem and suggest practical ways to fix it      **The Chinese Economy** Barry Naughton,2007 The most comprehensive English language overview of the modern Chinese economy covering China s economic development since 1949 and post 1978 reforms from industrial change and agricultural organization to science and technology      *Power and People* Sudeshna Ghosh Banerjee,Avjeet Singh,Hussain A. Samad,2011-07-29 This report is an output of the technical assistance activity carried out over 2008 2010 to Alternative Energy Promotion Center AEPC which is the nodal renewable

energy agency of Nepal This study has been designed to establish a monitoring system for AEPC to continually measure the results of the renewable energy programs against the targets and to organize an evaluation system that measures the impact of micro hydro installations on rural livelihoods Given AEPC s highly visible role the need to develop a system that provides information on a wide range of technical operational and financial parameters is similarly high This study developed a robust yet simple M and E framework for all the programs of AEPC that is focused on the needs of the decision makers as well as the interests of the relevant stakeholders The integrated M and E system encompasses all of AEPC s programs in micro hydro solar biomass improved water mills and biogas and builds its capacity to execute it The focus has been to develop performance indicators across the entire causal chain from project intervention to on the ground impacts The M and E framework incorporates not only the activities undertaken and the outputs but also the impact on the beneficiaries which is critical to gain a better perspective of the impact of the interventions and to support future planning processes and decision making The final impacts of electrification on households and businesses are evaluated using a primary household and enterprise survey A wide range of outcomes including quality of lighting income generation health education fertility women s empowerment and greenhouse gas emissions reduction are considered AEPC is now equipped with not only the state of the art monitoring system but also with a trained staff to sustainably manage and add to the system as required

**Global Energy Assessment** Thomas B. Johansson, Anand Prabhakar Patwardhan, Nebojša Nakićenović, Luis

S. Munoz, 2010-01-01 While there have been numerous books and articles written on the popular topic of microfinance few books have been written on the business model behind it the microenterprise Due to its diversity of thought and high quality of chapter contributions this book is poised to be the book on microenterprises *Contemporary Microenterprise* is a collage of the latest research and viewpoints on the subject by recognized academics and experts from around the globe Through the confluence of diverse and profound voices from around the world very small micro businesses have proven to be the most prevalent and fastest growing business form and a suitable model for enterprise survival and success in a challenging global economy Joseph Mark Munoz has brought together an international cast of contributors and draws insights from concepts and cases from locations such as Vietnam the United States Latin America and Africa The chapters include conceptual frameworks and research that yield valuable lessons and practical business solutions The broad scope of this compendium coupled with its careful attention to detail will be of critical value to business students and their professors industry executives government officials policymakers consultants and entrepreneurs

**There's Nothing Micro about a Billion Women** Mary Ellen Iskenderian, 2023-09-05 Why it takes more than microloans to empower women and promote sustainable

inclusive economic growth Nearly one billion women have been completely excluded from the formal financial system Without even a bank account in their own names they lack the basic services that most of us take for granted secure ways to save money pay bills and get credit Exclusion from the formal financial system means they are economic outsiders unable to benefit from or contribute to economic growth Microfinance has been hailed as an economic lifeline for women in developing countries but as Mary Ellen Iskenderian shows in this book it takes more than microloans to empower women and promote sustainable inclusive economic growth Iskenderian who leads a nonprofit that works to give women access to the financial system argues that the banking industry should view these one billion unbanked women not as charity cases but as a business opportunity a lucrative new market of small business owners heads of households and purchasers of financial products and services Iskenderian shows how financial inclusion can be transformative for the lives of women in developing countries describing among other things the informal moneylenders and savings clubs that women have relied on the need for both financial and digital literacy and access as mobile phones become a means of banking and the importance of women s property rights She goes on to make the business case for financial inclusion exploring the ways that financial institutions are adapting to help women build wealth access capital and manage risks Banks can do the right thing and make money while doing so and all of us can benefit *Rural Microfinance and Microenterprise* Amitabh Bhatnagar,2008 Contributed articles on microfinance and small business in India **South Africa Pushed to the Limit** Hein Marais,2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people s skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa s vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma s rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country s continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens *South Africa Pushed to the Limit* presents a riveting benchmark analysis of the incomplete journey beyond apartheid *Alleviating Global Poverty* Lewis D. Solomon,2014-12-05 In the book Lewis D Solomon develops the theme that the profit motive can serve as a powerful force for social good in developing nations making a difference in the lives of those trapped in misery and helping millions out of poverty After focusing on three US based venture capital like firms the book presents evidence that for profit corporations many indigenous funded in part by these capital providers have alleviated global poverty These investee firms which seek both financial and social returns serve the impoverished by delivering critically needed but affordable goods and services including quality education preventive healthcare light and power and enhanced agricultural productivity **Restoring**

**Balance** M. Asaduzzaman, Douglas F. Barnes, Shahidur R. Khandker, 2010-03-29 Rural energy's importance to the Bangladesh economy cannot be underestimated. The problems rural people face in obtaining safe, clean, and reliable energy supplies are not minor inconveniences. People are cooking with biomass fuels including large amounts of leaves and grass that expose them to harmful indoor air pollution. They light with kerosene or sometimes candles which give off a dim light that hampers studying and reading in the evening. Finally, rural productivity suffers because of lack of access to modern energy. However, the picture is not all bleak. This study underscores how improved access to rural energy services can create multiple benefits for rural life, from income and labor productivity to education and women's health. Recommended or enhancement of programs for improved stoves, rural electrification, renewable energy, and greater access to commercial liquid fuels can significantly improve both the rural productivity and enhance the quality of life in rural Bangladesh.
