Strange Electromagnetic Dimensions Louis Proud, 2014-11-24 The author of The Secret Influence of the Moon explores the many strange and unexplained phenomena surrounding electromagnetism Today the use of electricity is so pervasive that our environment is permeated by both natural and artificial sources of electromagnetic energy while we ourselves are electromagnetic beings As we continue to pollute and thereby alter our electromagnetic environment we are also altering ourselves In particular these changes infringe on the psychic side of our being In Strange Electromagnetic Dimensions author Louis Proud demonstrates how all things are connected by a vast electromagnetic web a natural phenomenon that appears to have supernatural consequences He examines ESP poltergeist disturbances psychokinesis electric people UFOs and other paranormal phenomena from an electromagnetic perspective He also reveals how the artificial alien energies we've been introducing into our environment shape the way we experience the paranormal Strange Electromagnetic Dimensions explores such questions as Do human beings possess a magnetic sixth sense similar to that of homing pigeons Are artificial electromagnetic fields such as those emitted by power lines gradually destroying our health Can being struck by lightning or suffering a severe electric shock result in the development of psychic abilities What do scientists make of the fact that ball lightning can pass through walls enter rooms by squeezing through keyholes and display seemingly intelligent behavior

Dirty Electricity Samuel Milham MD Mph, Samuel Milham, 2012 When Thomas Edison began wiring New York City with a direct current electricity distribution system in the 1880s he gave humankind the magic of electric light heat and power in the process though he inadvertently opened a Pandora's Box of unimaginable illness and death Dirty Electricity tells the story of Dr Samuel Milham the scientist who first alerted the world about the frightening link between occupational exposure to electromagnetic fields and human disease Milham takes readers through his early years and education following the twisting path that led to his discovery that most of the twentieth century diseases of civilization including cancer cardiovascular disease diabetes and suicide are caused by electromagnetic field exposure In the second edition he explains how electrical exposure does its damage and how electricity is causing our current epidemics of asthma diabetes and obesity Dr Milham warns that because of the recent proliferation of radio frequency radiation from cell

phones and towers terrestrial antennas Wi Fi and Wi max systems broadband internet over power lines and personal electronic equipment we may be facing a looming epidemic of morbidity and mortality In *Dirty Electricity* he reveals the steps we must take personally and as a society to coexist with this marvelous but dangerous technology *The Electronic Silent Spring* Katie Singer,2014-03-01 Over millions of years living creatures have evolved in relation to the Earth s electromagnetic energy Now we re surrounded by human made frequencies that challenge our health and survival An Electric Silent Spring reports the effects of electrification and wireless devices on people plants bee colonies and frogs around the globe It presents solutions for people who want to reduce their exposure to electromagnetic radiation This pioneering book is for anyone concerned about the health of the environment and the people and other creatures that inhabit it

A Confucian-Daoist Millennium? Reg Little,2006 **The Pure Cure** Sharyn Wynters,2012-04-12 The human race has invented nearly every toxin imaginable In our food there are chemicals that kill pests make foods ripen faster and grow bigger and lengthen shelf life In our clothing chemicals make fabrics soft keep them from wrinkling make them fire retardant and resistant to stains and keep them from collecting static In our kitchens and bathrooms chemicals create suds remove grease stiffen our hair make our skin feel smooth stop us from perspiring change our hair color lengthen our lashes and make us smell good Unfortunately many of these chemicals designed to improve and simplify our lives cause birth defects hyperactivity learning disabilities attention deficit early puberty and developmental problems to name a few The Pure Cure takes readers to a new level of awareness regarding the dangers of the toxins in everyday products and services Taking a thorough and comprehensive approach the book guides readers through every room in the house and beyond identifying problematic toxins and a course of action for eliminating them The author also points to surprising new areas of concern makes suggestions for healthy solutions and provides a lists of products and companies that can offer safer alternatives

Radiation Protection Jacob Shapiro,2002 This highly successful manual has served for nearly three decades as the definitive guide to the safe use of radioactive materials Completely revised and updated the fourth edition presents a new dimension by adding coverage of nonionizing radiation and is thus concerned with the entire field of radiation protection The author takes the novel approach of introducing the whole range of energies possessed by particles and electromagnetic waves at the beginning of the text thus integrating coverage of ionizing and nonionizing radiation rather than considering them as two separate disciplines He goes on to cover the entire spectrum of radiation sources including radionuclides x ray machines accelerators nuclear reactors power lines microwave towers and cellular phones With its expanded coverage including a broader focus on public health issues this new volume will serve as an important training and reference resource not only for research scientists physicians and engineers but for regulatory officials attorneys engineers and environmental health and safety professionals The breadth of citations alone makes this resource invaluable Sustainable Residential Interiors Annette Stelmack,Associates III,Kari Foster,Debbie Hindman,2014-09-03 The Second Edition of Sustainable

Residential Interiors addresses cutting edge processes strategies and principles as well as details for in depth product vetting criteria Award winning leading interior designer Annette Stelmack shares her expertise from the perspective of LEED Building Design reduce Co2 emissions and waste improve indoor air quality free of toxins and are responsive to environmental impacts Encourages forward thinking by featuring inspirational statements from mentors peers and industry leaders Urges interior designers to commit to designing safe healthy environments that are integral to a professional code of ethics which ensure the delivery of positive outcomes for the client and any building s future occupants

Disconnect Devra Davis,2010-09-23 As Disconnect shows cell phones may actually be doing damage to far more than our attention spans and could in fact be killing us Salon com Since the invention of radar cell phone radiation was assumed to be harmless because it wasn t like X rays But a sea change is now occurring in the way scientists think about it The latest research ties this kind of radiation to lowered sperm counts an increased risk of Alzheimer s and even cancer In Disconnect National Book Award finalist Devra Davis tells the story of the dangers that the cell phone industry is knowingly exposing us and our children to in the pursuit of profit More than five billion cell phones are currently in use and that number increases every day Synthesizing the findings and cautionary advice of leading experts in bioelectricalmagnetics and neuroscience Davis explains simple safety measures that no one can afford to ignore

Rhetoric and Incommensurability Randy Allen Harris,2005-09-19 Rhetoric and Incommensurability examines the complex relationships among rhetoric philosophy and science as they converge on the question of incommensurability the notion jointly though not collaboratively introduced to science studies in 1962 by Thomas Kuhn and Paul Feyerabend The incommensurability thesis represents the most profound problem facing argumentation and dialogue in science surely but in any symbolic encounter any attempt to cooperate find common ground get along make better knowledge and build better societies This volume brings rhetoric the chief discipline that studies argumentation and dialogue to bear on that problem finding it much more tractable than have most philosophical accounts

Worldonfire Michael Brownstein,2002 Michael Brownstein has written an epic visionary kaleidoscopic treatise poem that amazingly attempts to make sense of and show a way through the rich madness of our time The work is entirely unique for the scope and audacity of the effort and the beauty of it delivery Partly wail of pain partly an ode to nature and the human spirit partly a last ditch effort to consciously click back to a sustainable pathway this book will leave the reader simultaneously enlightened depresses and exhilarated I strongly recommend it Jerry Mander
