SOVEREIGN Radkris, In

a world where new technologies rise and fall by the hour humanity is still plagued by the wanton inertia of its most fundamental institution money A messiah is born out of the zeitgeist and evangelizes an answer cryptocurrencies This is vehemently persecuted by the status quo and their blind zealots SOVEREIGN however is one crypto that is rising above the smoke and noise promising to lead the enlightened into a brave new world But the incumbent power mongers refuse to go gentle into the night Alexander Hamish a bereft agent from FRONTIER a covert distributed network of spies operating at the intersection of technology spy craft and international interest is tasked with SOVEREIGN s destruction before its insidious promise of Utopian liberation becomes manifesto Prejudiced Hamish better known in his world as Agent 27 embarks on the mission with a monomaniacal focus 27 stumbles through a maze of double edged technologies With every step his understanding of cryptocurrencies deepens while his grasp on society crumbles He begins to question the very construct of the world around him are governments a requisite for civilization or is Man responsible for his own awakening And just when the labyrinth s exit is in sight he confronts the daunting choice between saving the world and saving humanity s one chance at salvation

Eden's Endemics Elizabeth Callaway,2020-08-04 In the past thirty years biodiversity has become one of the central organizing principles through which we understand the nonhuman environment Its deceptively simple definition as the variation among living organisms masks its status as a hotly contested term both within the sciences and more broadly In Eden s Endemics Elizabeth Callaway looks to cultural objects novels memoirs databases visualizations and poetry that depict many species at once to consider the question of how we narrate organisms in their multiplicity Touching on topics ranging from seed banks to science fiction to bird watching Callaway argues that there is no set generally accepted way to measure biodiversity Westerners tend to conceptualize it according to one or more of an array of tropes rooted in colonial history such as the Lost Eden Noah s Ark and Tree of Life imagery These conceptualizations affect what kinds of biodiversities are prioritized for protection While using biodiversity as a way to talk about the world aims to highlight what is most valued in nature it can produce narratives that reinforce certain power differentials with real life consequences for conservation projects Thus the choices made when portraying biodiversity impact what is visible what is visceral and what is unquestioned common sense about the patterns of life on Earth

Diary of an Evil Genius Gary Patella,2011-10-21 When does a character fall under the evil genius category Victor Steingardt is the prototypical evil genius although admittedly not much who is bent on ruling the world At the start of the year he picks up a journal and begins writing Gary Patellas fiction Diary of an Evil Genius invites readers to follow this antiheros thoughts taking a glimpse of how his mind works as his plans come to a close Through his journal entries readers are able to follow Victors plans Some entries deal with global domination while others go off on a tangent Seasoned with witty and conceited remarks Diary of an Evil Genius contains reflections of past events and reflections on events of the day Henchmen are also given some depth as they step into the spotlight Each reader will have his or her own feelings about Victor the calculating misogynistic egotistical mastermind with the sole aim of global

domination who tries to show that he is different from all of the others that have tried to rule the world But whether he is loved or hated his writings are sure to be enjoyed by many *Cycle World Magazine* ,2003-01 **The Director's Cut** Erik L. Strandness, MD, MATH,2014-03 Believer and unbeliever alike are subtly evangelized every day of their lives by the ambient glow of God's cinematic masterpiece They sense something grand but are confused by the incoherent cultural edits scattered throughout the film The Good News is that the deleted scenes are not lost but can be found in our shared human experiences and once spliced back together reveal an epic of Biblical proportions The Director's Cut of the Greatest Story Ever Told Dr Erik Strandness takes a unique bottom up approach to apologetics by investigating experiences common to all people and concluding that they can only be adequately understood through a Biblical filter The goal is to empower lay Christians to confidently share their faith in a concrete friendly real world context that effectively engages the day to day realities of their audience Dr Strandness writes in a clear engaging and witty style combining the thoughts of many great Christian thinkers with culturally relevant illustrations in order to make a solid real world case for the Christian worldview Once in a while someone manages to put ageless truth in such a fresh package that it cries out Read on That's the way I felt when reviewing Erik Strandness's book What a pleasure it is to read But it's not just Erik's engaging word images that make it such a great read It's the profound and timely message he is communicating in such an intelligent and winsome way This is a book you will be telling others about Dr Christian Overman Director Worldview Matters biblicalworldview.com **How to Make a Big Bang** Victor Flambaum,Andrew Flambaum,2012-02-07 Sent on a mission of good will to represent Earth on an alien world Alice isn't quite sure what she'll find With her pet cat Meowhugs an obnoxious parrot named Mara and a ship named Joe as her only companions Alice finds herself trapped on the time dilating rim of a black hole escaping just in time to watch the sun devour our solar system Meanwhile or perhaps at some other time entirely Amunet and Keku are students in a special school in a 10 Dimensional world In their classes they are expected to create Universes out of chaos divinity and just a dash of dark energy But Universe creation is not an exact science with every attempt requiring its own roll of the dice When a creator makes a mistake it rains stars and planets Is there something they can do to help Alice in her quest for a new home A blend of literary storytelling and unexpected humor How to Make a Big Bang is filled with enough science fact that readers might just learn something along the way **Alien Invasion from Planet Theara** Robert L. Weaver,2022-10-07 Shawn Wainwright's parents had lots of money and a well kept secret But Shawn didn't want to live off his parents money because his parents were controlling parents To prove he can make it without their help Shawn sets out on his own Like many young adults after being away for several years he longed to enjoy the comforts his parents offered But once he arrived at his parents home he finds they are out of town on work Thinking he has the house to himself with no worries he relaxes next to his parents large in ground swimming pool in their backyard What happened next changed his life Strange looking flying vehicles appeared out of nowhere above the treetops These vehicles must be a military exercise But no The military

would never assemble in such a formation and the flashing lights were too bright If these were not some new US military aircraft they must be from a foreign country A foreign government has somehow invaded the airspace of the greatest nation on the planet But Shawn is wrong in his estimation This military comes from another world *Ghost of the Navigator*
