## Hour Of Nightfall:

Empires of Speed Robert Hassan,2009-06-02 The beginning of the 21st century is witnessing the emergence of a social political and technological revolution in networked computing We now live in a networked society but it functions and develops at such an accelerating rate that it becomes increasingly difficult to adequately understand the nature of this radical society Empires of Speed is the first book to analyse the far reaching transformations of speed filled everyday life In a compelling study Hassan shows that we are leaving behind a modern world based upon the time of the clock and are entering a new and volatile phase where an accelerating network time poses fundamental economic and political challenges in our postmodern world challenges we barely comprehend and are thus woefully unprepared for **The Myrtle** ,1875 Frank Leslie's Pleasant Hours ,1872 Meoros Hadaf Hayomi Bet ha-midrash di-Haside Sokhatshov (Bene Berak, Israel),2005 Meoros HaDaf HaYomi Institute s weekly Torah leaflets in Hebrew and English have become one of the most avidly followed Torah periodicals in Eretz Yisrael and abroad Now for the first time the Torah insights from the leaflets on Maseches Berachos hav **Calendar and Chronology, Jewish and Christian** Roger T. Beckwith,2018-11-26 Judaism and Christianity are both religions of history and remembrance and rely on calendars and accurate chronologies to recall and reenact the signal events in their histories The import of dividing the day and night of knowing the moment of Sabbath and Lord s Day of properly timing Passover and Easter cannot be overstated Throughout the history of both religions these issues were central to worship and practice of religion and had far reaching effects from messianism to prophecy But their very centrality meant they were issues of controversy and debate Roger Beckwith looks carefully at the Jewish and Christian records concerning calendar and chronology compares contrasts and challenges rival solutions to these complex questions His breath of research from the ancient Near East to Qumran from Josephus and Philo to the Maccabean writings and from the points of view of Paul and Jesus to the Fathers of the church and his focus on the more controversial issues of dating make Calendar and Chronology an essential book for any serious scholar of history liturgy worship and interpretation This publication has also been published in paperback please click here for details **Works** Johann Wolfgang von Goethe,1883
