## House Officers Guide:

**House Officer's Guide** Miles Witham, Paramjit Jeetley, 2004 Crash Course House Officer's Guide contains the practical information that house officers refer to on a daily basis. Written by two doctors who have had recent and varied experience of being new house officers, the book contains all the information that a PRHO or an undergraduate in their clinical years will need to know for their first experience of the wards. At 256 pages it really is short enough to be practical and light enough to be carried in a white coat pocket every day.

**House Officer's Guide to ICU Care: Fundamentals of Management of the Heart and Lungs** John A. Eleftheriades, Curtis Tribble, Alexander S. Geha, 2012-12 A practical book on cardiothoracic critical care in the ICU with fundamentals of management of the heart and lungs and guidelines for management of medical and surgical patients in the ICU.

The Hands-on Guide for House Officers Anna Donald, Mike Stein, Vivek Muthu, 2002-06-18 The second edition of The Hands On Guide for House Officers is a practical book for junior doctors and medical students making the transition from Medical School to life on the Wards. This book tells you how to prepare for the actual daily rigours of hospital life and is an essential guide for surviving your first year as a doctor. The Hands On Guide for House Officers covers both the personal aspects of being a doctor and the day to day reality of responding to acute emergencies, dealing with common calls and carrying out practical procedures. It tells you what to expect in the first week, how to prescribe and give drugs, how to run your own night rounds, tone down your bleep and get more sleep, how to organize paperwork and work through the mass of hospital forms, how to arrange your finances, understand tax and maximize your pension, how to practise evidence based medicine, how to discharge patients, talk to fraught relatives, how to select a computer, start your own medical database and organize your next job, how to insert central lines, perform chest drains and read ECGs, how to manage GI bleeds, overdoses and oliguria, how to prepare diabetic patients for surgery. The first edition of this best selling book helped thousands of anxious doctors through their first year. Why not see for yourself how it can help you.
