*Pacific* John R. Bruning, **Pacific Air** David Sears, 2011-05-31 An excellent volume on the navy s air war in the Pacific during WWII the author has almost certainly created the best one volume study of the subject Booklist In a grand sweeping narrative Pacific Air tells the inspiring story of how despite initial disastrous defeats a generation of young naval aviators ultimately vanquished a superior Japanese air force and fleet in the Pacific The instruments of the United States aviators triumphs were the elegantly designed F4F Wildcat F6F Hellcat and the lethal TBF Avenger torpedo bomber With superbly trained U S Navy and Marine Corps aviators at their controls these planes became the most successful aerial weapons in naval history A majestic portrait of a proud era from dual perspectives the inventive minds of young aeronautical engineers and the deadly skills of even younger combat pilots Pacific Air brings this important yet underappreciated chapter of World War II vividly to life **Pacific Thunder** Thomas McKelvey Cleaver, 2017-10-19 On 27 October 1942 four Long Lance

torpedoes fired by the Japanese destroyers Makigumo and Akigumo exploded in the hull of the aircraft carrier USS Hornet CV 8 Minutes later the ship that had launched the Doolittle Raid six months earlier slipped beneath the waves of the Coral Sea Of the pre war carrier fleet the Navy had struggled to build over 15 years only three were left Enterprise that had been badly damaged in the battle of Santa Cruz USS Saratoga CV 3 which lay in dry dock victim of a Japanese submarine torpedo and the USS Ranger CV 4 which was in mid Atlantic on her way to support Operation Torch For the American naval aviators licking their wounds in the aftermath of this defeat it would be difficult to imagine that within 24 months of this event Zuikaku the last survivor of the carriers that had attacked Pearl Harbor would lie at the bottom of the sea Alongside it lay the other surviving Japanese carriers sacrificed as lures in a failed attempt to block the American invasion of the Philippines leaving the United States to reign supreme on the world s largest ocean This is the fascinating account of the Central Pacific campaign one of the most stunning comebacks in naval history as in 14 months the US Navy went from the jaws of defeat to the brink of victory in the Pacific **Very Long Range P-51 Mustang Units of the Pacific War** Carl

Molesworth, 2012-10-20 These pilots called themselves the Tokyo Club It was a simple task to become a member All you had to do was strap yourself into a heavily loaded P 51 Mustang take off from Iwo Jima fly 650 miles north over the sea often through monsoon storms in your single engined aircraft to Japan attack a heavily defended target and then turn around and

fly home despite a shrinking fuel supply and perhaps battle damage as well Do it once and you earned membership in the club Do it 15 times and you earned a trip home But make one mistake or have one touch of bad luck and you had a very good chance of ending up dead Featuring photographs throughout and detailed aircraft profiles this book tells the little known story of these brave men and their efforts to defeat the aerial forces defending Japan *Pacific Skies* Jerome

Klinkowitz,2009-09-18 From 1941 to 1945 the skies over the Pacific Ocean afforded the broadest arena for battle and the fiercest action of air combat during World War II It was in the air above the Pacific that America s involvement in the war began It was in these skies that air power launched from carriers became a new form of engagement and where the war ultimately ended with kamikaze attacks and with atomic bombs dropped over Japan Throughout the conflict American flyers felt a compelling call to supplement the official news and military reports In vivid accounts written soon after combat and in reflective memoirs recorded in the years after peace came both pilots and crew members detailed their stories of the action that occurred in the embattled skies Their first person testimonies describe a style of warfare invented at the moment of need and at a time when the outcome was anything but certain Gathering more than a hundred personal narratives from Americans and from Japanese *Pacific Skies* recounts a history of air combat in the Pacific theater Included are the words of such famous aces and bomber pilots as Joe Foss Pappy Boyington Dick Bong and Curtis Lemay as well as the words of many rank and file airmen Together their stories express fierce individualism and resourcefulness and convey the vast panorama of war that included the skies over Pearl Harbor Wake and Guadalcanal and missions from Saipan and Tinian As *Pacific Skies* recounts the perilous lives of pilots in their own words Jerome Klinkowitz weaves the individual stories into a gripping historical narrative that exposes the shades of truth and fiction that can become blurred over time A book about experiencing and remembering *Pacific Skies* also is a story of unique perspectives on the war **On the Warpath in the Pacific**

*The Pacific War Uncensored* Harold Guard, John Tring, 2011-10-20 A WWII reporter's dangerous adventures in Singapore Malaya Java and more Harold Guard became a war correspondent by chance after he'd been invalided out of the navy following a submarine accident Thereafter working for United Press he gained a front row seat to many of the most dramatic battles and events of the century In March 1942 Guard arrived in Australia having narrowly escaped from Japanese forces invading Singapore and Java His dispatches from that disastrous front prompted one observer to comment on the crisis days when everybody except Harold Guard was trying to hush up the real situation At the time he was acclaimed by the Australian press as one of the top four newspapermen covering the war in the Pacific Over the next three years Guard was to have many more adventures reporting on the Pacific War including firsthand experience flying with the US Air Force on twenty two bombing missions camping with Allied forces in the deadly jungles of New Guinea and taking part in attacks from

amphibious landing craft on enemy occupied territory He also traveled into the undeveloped areas of Australia s northern territories to report on the construction of air bases being built in preparation for defending the country against the advancing Japanese What made Harold Guard s achievements even more remarkable was that he was disabled and had to walk with a stiff right leg due to his navy injury Despite this he often reported from perilous situations at the front line which gained him considerable notoriety within the newspaper world Guard endeavored to give honest accounts and this often brought him into conflict with the military censors In this book the full story of Guard s experiences and observations during the Pacific War have been reconstructed with the help of his dispatches private correspondence telegrams and audio accounts No longer subject to censorship the starkly honest perceptions of how the Allies nearly failed and at last finally won the war can now be told

*The British Pacific Fleet* David Hobbs,2012-03-07 In August 1944 the British Pacific Fleet did not exist Six months later it was strong enough to launch air attacks on Japanese territory and by the end of the war it constituted the most powerful force in the history of the Royal Navy fighting as professional equals alongside the US Navy in the thick of the action How this was achieved by a nation nearing exhaustion after five years of conflict is a story of epic proportions in which ingenuity diplomacy and dogged persistence all played a part As much a political as a technical triumph the BPF was uniquely complex in its make up its C in C was responsible to the Admiralty for the general direction of his Fleet took operational orders from the American Admiral Nimitz answered to the Government of Australia for the construction and maintenance of a vast base infrastructure and to other Commonwealth Governments for the ships and men that formed his fully integrated multi national fleet This ground breaking new work by David Hobbs describes the background creation and expansion of the BPF from its first tentative strikes through operations off the coast of Japan to its impact on the immediate post war period including the opinions of USN liaison officers attached to the British flagships The book is the first to demonstrate the real scope and scale of the BPF s impressive achievement
