Gunships No 2 Fire Force:

SHADOW AND STINGER: Developing the AC119G/K Gunships in the Vietnam War William P. Head, 2007

Nicknamed the truck killer the AC 119K gunship and its counterpart the AC 119G were developed in the late 1960s in response to the needs of the US military in Vietnam. This book examines the evolution of these aircraft and their role within Vietnam military policy and geopolitical realities. Night Hunters William Pace Head, 2014-03-18 In Night Hunters air power historian William P. Head provides the first detailed study of the development and deployment of the AC 130 gunship. While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC 130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far. During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context. One of the most important was the development of the AC 130. Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century. In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems of the 1970s or of any era. By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror Night Hunters offers a clear view of the role of gunships and of close air support in US wars. In today's never ending brushfire wars the AC 130s continue to uphold their reputation for excellence. *Development and Employment of Fixed-wing Gunships, 1962-1972* Jack S. Ballard, 1982 **Field Artillery**, 1997-05 A professional bulletin for redlegs **AF Press Clips** United States Department of State. Bureau of African Affairs, 1979 *UH-1 Huey Gunship vs NVA/VC Forces* Peter E. Davies, 2021-08-19 Often described as the US Army's aerial jeep the UH 1 Iroquois Huey was the general purpose vehicle that provided mobility in a hostile jungle environment which made rapid troop movement extremely challenging by any other means. Hueys airlifted troops evacuated casualties rescued downed pilots transported cargo externally and enabled rapid transit of commanders in the field. Although vertical aviation had only become a practical reality during the Korean War helicopters evolved rapidly in the decade before Vietnam and by 1965 the US Army and US Marines relied on them as primary combat tools. This was principally because North Vietnam's armed forces had long experience of jungle operations camouflage and evasion. Generally avoiding set piece pitched battles they relied on rapid frequent strikes and withdrew using routes that were generally inaccessible to US vehicles. They commonly relied on darkness and bad weather to make their moves often rendering them immune to conventional air attack. Gunship helicopters sometimes equipped with Firefly searchlights and early night vision light intensifiers were more able to track and attack the enemy. Innovative tactics were required for this unfamiliar combat scenario and for a US Army that was more prepared for conventional operations in a European type setting. One of the most valuable new initiatives was the UH

1C Huey Hog or Frog gunship conceived in 1960 and offering more power and agility than the UH 1B that pioneered gunship use in combat Heavily armed with guns and rockets and easily transportable by air these helicopters became available in large numbers and they became a major problem for the insurgent forces throughout the war Covering fascinating details of the innovations in tactics and combat introduced by gunship helicopters this book offers an analysis of their adaptability and usefulness in a variety of operations while exploring the insurgent forces responses to the advent of vertical aviation *Air University Library Index to Military Periodicals* ,1999 [Development and employment of fixed-wing gunships 1962-1972](#) , *AF Press Clips* ,1979 **United States Army Aviation Digest** ,1975 *Blackhorse Tales* Don Snedeker,2021-08-16

The war stories and combat narratives of the 11th Armored Cavalry Regiment during five and a half years of combat in Vietnam When the U S Army went to war in South Vietnam in 1965 the general consensus was that counterinsurgency was an infantryman s war if there were any role at all for armored forces it would be strictly to support the infantry However from the time the 11th Armored Cavalry Regiment arrived in the country in September 1966 troopers of the Blackhorse Regiment demonstrated the fallacy of this assumption By the time of Tet 68 the Army s leadership began to understand that the Regiment s mobility firepower flexibility and leadership made a difference on the battlefield well beyond its numbers Over the course of the 11th Cavalry s five and a half years in combat in South Vietnam and Cambodia over 25 000 young men served in the Regiment Their stories and those of their families represent the Vietnam generation in graphic sometimes humorous often heart wrenching detail Collected by the author through hundreds of in person telephone and electronic interviews over a period of twenty five plus years these war stories provide context for the companion volume *The Blackhorse in Vietnam* Amongst the stories of the Blackhorse troopers and their families are the tales of the wide variety of animals they encountered during their time in combat as well as the variable landscape from jungle to rice paddies and weather *Blackhorse Tales* concludes with a look at how the troopers dealt with their combat experiences since returning from Vietnam Without question Donald Snedeker has paid a fitting tribute to this superb unit its soldiers and their families *Military Review* **Call of Honor** David Bannerman,D Bannerman,1985-05 **Army** ,1973 *Valor in the Sky* Lawrence Cortesi,1985 **The Navy in the War of 1739-48: Volume 2** Sir Herbert William Richmond,1920 Part two of Richmond s 1920 three volume series on the role of the Navy during the War of Jenkins Ear [Air Force Magazine](#) ,2015 [Books in Print](#) ,1977 **Airman** ,1969 [Fighting for Time](#) Charles D. Melson,2021-02-05 This military study examines the evolution of the Rhodesian armed services during the complex conflicts of the Cold War era Through the 1960s and 1970s Africa endured a series of conflicts involving Rhodesia South Africa and Portugal in conflict with the Frontline States The Cold War brought outside influences including American interest at the diplomatic economic and social level In *Fighting for Time* military historian Charles D Melson sheds new light on this complex and consequential period through analysis of the Rhodesian military Drawing on a wealth of primary sources Melson examines the Rhodesian military s evolution into a special

operations force conducting intelligence driven operations Along the way he identifies key lessons to be learned from this low intensity conflict at the level of tactics techniques and procedures Melson looks closely at the military response to the emerging revolutionary threat and the development of general and special purpose units He addresses the critical use of airpower as a force multiplier supporting civil police and army efforts ranging from internal security and border control to internal and external combat operations the necessity of full time joint command structures and the escalation of cross border attacks and unconventional responses as the conflict evolved

Secret Green Beret Commandos in Cambodia

LTC Fred S. Lindsey, 2012-11-12 We could call this book Special Operations Recon Mission Impossible A small group of highly trained resourceful US Special Forces SF men is asked to go in teams behind the enemy lines to gather intelligence on the North Vietnamese Army units that had infiltrated through Laos and Cambodia down the Ho Chi Minh trails to their secret bases inside the Cambodian border west of South Vietnam The covert reconnaissance teams of only two or three SF men with four or five experienced indigenous mercenaries each were tasked to go into enemy target areas by foot or helicopter insertion They could be 15 kilometers beyond any other friendly forces with no artillery support In sterile uniforms with no insignia or identification if they were killed or captured their government would deny their military connection The enemy had placed a price on their heads and had spies in their Top Secret headquarters known as SOG SOG had three identical recon ground units along the border areas This book tells the history of Command and Control Detachment South CCS The CCS volunteer warriors and its Air Partners the Army and Air Force helicopter transport and gunship crews who lived and fought together and sometimes died together This is the first published history of CCS as compiled by its last living commander some forty years after they were disbanded It tells of the struggles and intrigue involved in SOGs development as the modern day legacy of our modern Special Operations Commands Forbidden to tell of their experiences for over twenty years their After Action Reports destroyed even before they were declassified surviving veterans team together to tell how Recon men wounded averaged 100 percent and SOG became the most highly decorated unit in Vietnam and all were awarded the Presidential Unit Citation
