McNally,2020-12-08 Since the earliest days of the movie industry Hollywood has mythologized itself through stories of stardom A female protagonist escapes the confines of rural America in search of freedom in a western dream factory an ambitious conceited movie idol falls from grace and discovers what it means to embody true stardom or a fading star confronts Hollywood's obsession with youth by embarking on a determined mission to reclaim her lost fame In its various forms the stardom film is crucial to understanding how Hollywood has shaped its own identity as well as its claim on America's collective imagination In the first book to focus exclusively on these modern fairy tales Karen McNally traces the history of this genre from silent cinema to contemporary film and television to show its significance to both Hollywood and broader American culture Drawing on extensive archival research she provides close readings of a wide range of films from *Souls for Sale* 1923 to *A Star is Born* 1937 and 1954 and *Judy* 2019 moving between fictional narratives biopics and those that occupy a space in between McNally considers the genre's core set of tropes its construction of stardom around idealized white femininity and its reflections on the blurred boundaries between myth image and reality *The Stardom Film* offers an original understanding of one of Hollywood's most enduring genres and why the allure of fame continues to fascinate us Susan Hayward

Kim R. Holston,2015-07-11 This biography of Susan Hayward one of Hollywood's leading ladies of the 1940s and 1950s covers her childhood school years early modeling career and development as an actress It also documents her personal life including her marriages and attempted suicide and her illness and death at the age of 56 It provides an analysis of each of her feature films with comments from contemporary reviewers and places Hayward and her films in the context of Hollywood and motion picture history The filmography gives cast and production credits for both motion pictures and television movies

Empire Films and the Crisis of Colonialism, 1946-1959 Jon Cowans,2015-05-15 The first transnational history of cinema's role in decolonization Using popular cinema from the United States Britain and France *Empire Films and the Crisis of Colonialism* 1946-1959 examines postwar Western attitudes toward colonialism and race relations Historians have written much about the high politics of decolonization but little about what ordinary citizens thought about losing their empires Popular cinema provided the main source of images of the colonies and according to Jon Cowans in this far reaching book films depicting the excesses of empire helped Westerners come to terms with decolonization and even promoted the dismantling of colonialism around the globe Examining more than one hundred British French and American films from the post World War II era Cowans concentrates on movies that depict interactions between white colonizers and nonwhite colonial subjects including sexual and romantic relations Although certain conservative films eagerly supported colonialism Cowans argues that the more numerous liberal colonialist productions undermined support for key aspects of colonial rule while a few more provocative films openly favored anticolonial movements and urged internal decolonization for people of color in Britain France and the United States Combining new archival research on the films production with sharp analysis of their imagery and political messages the book also assesses their reception through box

office figures and newspaper reviews It examines both high profile and lesser known films on overseas colonialism including *The King and I* *Bhowani Junction* and *Island in the Sun* and tackles treatments of miscegenation and internal colonialism that appeared in Westerns and American films like *Pinky* and *Giant* The first truly transnational history of cinema's role in decolonization this powerful book weaves a unified historical narrative out of the experiences of three colonial powers in diverse geographic settings *Joseph L. Mankiewicz*, 1960 **Classical Hollywood, American Modernism** Jordan Brower, 2024-01-18 This book charts the Hollywood studio system's genesis international dominance and self understood demise by way of its influences on modernist literature in the United States It shows how the American film industry's business practices and social conditions inflected the form of some of the greatest works of prose fiction and non fiction

The History of British Literature on Film, 1895-2015 Greg M. Colón Semenza, Bob Hasenfratz, Robert J. Hasenfratz, 2017-01-26 From *The Death of Nancy Sykes* 1897 to *The Hobbit The Battle of the Five Armies* 2014 and beyond cinematic adaptations of British literature participate in a complex and fascinating history *The History of British Literature on Film 1895 2015* is the only comprehensive narration of cinema's 100 year old love affair with British literature Unlike previous studies of literature and film which tend to privilege particular authors such as Shakespeare and Jane Austen or particular texts such as *Frankenstein* or particular literary periods such as Medieval this volume considers the multiple functions of filmed British literature as a cinematic subject in its own right one reflecting the specific political and aesthetic priorities of different national and historical cinemas In what ways has the British literary canon authorized and influenced the history and aesthetics of film and in what ways has filmed British literature both affirmed and challenged the very idea of literary canonicity Seeking to answer these and other key questions this indispensable study shows how these adaptations emerged from and continue to shape the social artistic and commercial aspects of film history **Reinventing Hollywood** David Bordwell, 2017-10-02 In the 1940s American movies changed Flashbacks began to be used in outrageous unpredictable ways Soundtracks flaunted voice over commentary and characters might pivot from a scene to address the viewer Incidents were replayed from different characters viewpoints and sometimes those versions proved to be false Films now plunged viewers into characters memories dreams and hallucinations Some films didn't have protagonists while others centered on anti heroes or psychopaths Women might be on the verge of madness and neurotic heroes lurched into violent confrontations Combining many of these ingredients a new genre emerged the psychological thriller populated by women in peril and innocent bystanders targeted for death If this sounds like today's cinema that's because it is In *Reinventing Hollywood* David Bordwell examines the full range and depth of trends that crystallized into traditions He shows how the Christopher Nolans and Quentin Tarantinos of today owe an immense debt to the dynamic occasionally delirious narrative experiments of the Forties Through in depth analyses of films both famous and virtually unknown from *Our Town* and *All About Eve* to *Swell Guy* and *The Guilt of Janet Ames* Bordwell assesses the era's unique achievements and its legacy for future filmmakers

Reinventing Hollywood is a groundbreaking study of how Hollywood storytelling became a more complex art and essential reading for lovers of popular cinema **The Cinematic Voyage of THE PIRATE** Earl J. Hess, Pratibha A.

Dabholkar, 2014-07-21 During Metro Goldwyn Mayer's glory days the studio's famous Arthur Freed Unit made an extraordinary string of dazzling musicals. One of its very best was *The Pirate*. Based on a successful 1942 Broadway production, the film was directed by Vincente Minnelli and starred Gene Kelly and Judy Garland. It showcased some of the brightest work of these three gifted moviemakers and entranced many critics and viewers with exotic set design and costumes, brilliant Technicolor application, stunning dance routines, and a clever plot about an actor who pretends to be a famous pirate to win the love of a fanciful island girl. *The Cinematic Voyage of The Pirate: Kelly, Garland, and Minnelli at Work* follows the model of Hess and Dabholkar's previous study of *Singin' in the Rain*. Drawing on exhaustive research in archives, memoirs, interviews, and newspaper coverage, it takes the reader from the original conception of the story in the mind of a German playwright named Ludwig Fulda through S. N. Behrman's Broadway production starring Alfred Lunt and Lynn Fontanne to the arduous task of crafting a suitable screenplay at MGM. Behind the scenes, issues such as Garland's personal problems during the making of the film and the shaping of the film by Minnelli and Kelly are among the many subjects detailed here. While the initial reception of *The Pirate* reinforced hopes for its success, many audiences did not understand the film's tongue-in-cheek aspect, and some critical reviews were mixed. This shaded the perception of the film and its significance. As this careful study shows, *The Pirate* was a commercial and critical success despite some early misperceptions. The movie made a small profit for MGM, and the film grew in public appeal over time. *The Pirate* has been studied by film historians, gender studies scholars, and film studies professionals since it was released in 1948. *The Cinematic Voyage of The Pirate* contributes to a growing literature asserting the importance of single film production history and the significance of the film musical in the golden age of Hollywood.

In Secrecy's Shadow Simon Willmetts, 2016-04-26 During the Second World War, hundreds of Hollywood filmmakers, under the command of the legendary director John Ford, enlisted in the OSS to produce training, reconnaissance, and propaganda films. This wartime bond continued into the post-war period when a number of studios produced films advocating the creation of a permanent peacetime successor to the OSS, what became the Central Intelligence Agency. By the 1960s, however, Hollywood's increasingly irreverent attitude towards the CIA reflected a growing public anxiety about excessive US government secrecy. *In Secrecy's Shadow* provides the first comprehensive history of the birth and development of Hollywood's relationship with American intelligence. It takes an interdisciplinary approach, synthesizing literatures and methodologies from diplomatic history, film studies, and cultural theory, and it presents new perspectives on a number of major filmmakers, including Darryl F. Zanuck, Alfred Hitchcock, and John Ford. Based on research conducted in over 20 archival repositories across the United States and UK, *In Secrecy's Shadow* explores the revolution in the relationship between Hollywood and the secret state, from unwavering trust and cooperation to extreme scepticism and paranoia, and

demonstrates the debilitating effects of secrecy upon public trust in government and the stability of national memory
