Legitimacy, the Chinese Communist Party and Confucius Wai Kong Ng, 2023-11-21 This book explores the use of Confucianism by the Chinese Communist Party in its assertion of political legitimacy Confucian thought offers an enduring framework for political legitimacy in East Asian societies including China All states strive to acquire legitimacy and despite once denouncing Confucianism as the remnants of feudal poison the Party is turning towards Confucianism as part of its legitimisation efforts This suggests that the Party is suffering from an ideological void in terms of legitimacy and legitimisation due to the diminishing relevance of Marxism in Chinese societal practices The book will devise a non liberal legitimacy framework drawing on the ideas of Habermas and Bernard Williams to examine the legitimacy of the Party and use an analysis of the elite discourse to determine the nature of the Confucian turn in a sharp polemic that will interest scholars of Chinese politics of the role of traditional beliefs in Asian modernity and in China's future Philippine Politics and Society in the Twentieth Century Eva-Lotta Hedman, John Sidel, 2005-11-29 The only book length study to cover the Philippines after Marco's downfall this key title thematically explores issues affecting this fascinating country throughout the last century Appealing to both the academic and non academic reader topics covered include national level electoral politics economic growth the Philippine Chinese law and order opposition the Left local and ethnic politics **Cult of Progress** David Olusoga, 2018-03-29 Companion to the major new BBC documentary series CIVILISATIONS presented by Mary Beard David Olusoga and Simon Schama Oscar Wilde said Life imitates Art far more than Art imitates Life Was he right In Civilisations David Olusoga travels the world to piece together the shared histories that link nations In Part One First Contact we discover what happened to art in the great Age of Discovery when civilisations encountered each other for the first time Although undoubtedly a period of conquest and destruction it was also one of mutual curiosity global trade and the exchange of ideas In Part Two The Cult of Progress we see how the Industrial Revolution transformed the world impacting every corner and every civilisation from the cotton mills of the Midlands through Napoleon's conquest of Egypt to the decimation of both Native American and Maori populations and the advent of photography in Paris in 1839 Incredible art both looted and created relays the key events and their outcomes throughout the world Henry Prinsep's Empire Malcolm Allbrook, 2014-09-01 Henry Prinsep is known as Western Australia's first Chief Protector of Aborigines in the colonial government of Sir John Forrest a period which saw the introduction of oppressive laws that dominated the lives of Aboriginal people for most of the twentieth century But he was also an artist horse trader member of a prominent East India Company family and everyday citizen whose identity was formed during his colonial upbringing in India and England As a creator of Imperial culture he supported the great men and women of history while he painted wrote about and photographed the scenes around him In terms of naked power he was a middle man perhaps even a small man His empire is an intensely personal place a vast network of family and friends from every quarter of the British imperial world engaged in the common

Religion and Conflict in Modern South Asia William Gould,2011-12-05 This is one of the first single author comparisons of different South Asian states around the theme of religious conflict Based on new research and syntheses of the literature on communalism it argues that religious conflict in this region in the modern period was never simply based on sectarian or theological differences or the clash of civilizations Instead the book proposes that the connection between religious radicalism and everyday violence relates to the actual and perceived weaknesses of political and state structures For some religious and ethnic mobilisation has provided a means of protest where representative institutions failed For others it became a method of dealing with an uncertain political and economic future For many it has no concrete or deliberate function but has effectively upheld social stability paternalism and local power in the face of globalisation and the growing aspirations of the region s most underprivileged citizens

anything else was transacted including conversations about Christianity It remains an unsurpassed method of engagement with a rich and ancient people But the second arrival from the 1840 s was very different It was made possible by the arrival of European governments and traders many of whom came not just for financial gain but to spread their superior religion This work by David Strong in two volumes is the first major treatment of the period from the arrival of the European and eventually American Jesuit missionaries under the protection of the so called Unequal Treaties through to their expulsion after the Communist victory in the long running civil war in 1949 Volume II The Wider European Adventure covers the commitments places and activities of missions undertaken by the Spaniards Austrians Hungarians Italians French Canadians and lastly in the 1930s the Americans from California

Empires between Islam and Christianity, 1500-1800 Sanjay Subrahmanyam, 2018-12-27 Empires Between Islam and Christianity 1500 1800 uses the innovative approach of connected histories to address a series of questions regarding the early modern world in the Indian Ocean the Mediterranean and the Atlantic The period between 1500 and 1800 was one of intense inter imperial competition involving the Iberians the Ottomans the Mughals the British and other actors Rather than understand these imperial entities separately Sanjay Subrahmanyam reads their archives and texts together to show unexpected connections and refractions He further proposes in this set of closely argued studies that these empires often borrowed from each other or built their projects with knowledge of other competing visions of empire The emphasis on connections is also crucial for an understanding of how a variety of genres of imperial and global history writing developed in the early modern world The book moves creatively between political economic intellectual and cultural themes to suggest a fresh geographical conception for the epoch
