George Washington and the Half-King Chief Tanacharison Paul R. Misencik, 2014-05-16 George Washington and the Half King Chief Tanacharison details the events in western Pennsylvania that precipitated the French and Indian War It describes the interpersonal relationship between 22 year old inexperienced but self assured George Washington and the 54 year old wily Iroquois Chief Tanacharison which led to as Horace Walpole quipped Washington firing a volley in the backwoods of America that set the world on fire The book explores the history of the French and English rivalry for the trans Allegheny territory and its impact on the Indians in the area It shows how Washington and Tanacharison each sought to influence the other to gain support for their respective agendas Washington wanted the Indians to endorse Virginia s claim to the Ohio territory while Tanacharison wanted a war between England and France so that the Iroquois could maintain their dominance over the Ohio Indians The book describes in detail the sequence of events through which the crafty half king manipulated Washington into starting the war he wanted and by his actions implicated Washington in nothing less than a cold blooded murder

Journal of Colonel George Washington : Commanding a Detachment of Virginia Troops, Sent by Robert Dinwiddie George Washington, 1893 Journal of Colonel George Washington George Washington, 1982 *Journal of Colonel George Washington* George Washington, 1893 *The Many Faces of George Washington* Carla Killough McClafferty, 2013-11-01 A look into the life of America's first president and the efforts to recreate what he may have actually looked like at different points of that life George Washington's face has been painted printed and engraved more than a billion times since his birth in 1732 And yet even in his lifetime no picture seemed to capture the likeness of the man who is now the most iconic of all our presidents Worse still people today often see this founding father as the old and grumpy Washington on the dollar bill In 2005 a team of historians scientists and artisans at Mount Vernon set out to change the image of our first president They studied paintings and sculptures pored over Washington's letters to his tailors and noted other people's comments about his appearance even closely examined the many sets of dentures that had been created for Washington Researchers tapped into skills as diverse as 18th century leatherworking and cutting edge computer programming to assemble truer likenesses Their painstaking research and exacting processes helped create three full body

representations of Washington as he was at key moments in his life And all along the way the team gained new insight into a man who was anything but old and grumpy Join award winning author Carla Killough McClafferty as she unveils the statues of the three Georges and rediscovers the man who became the face of a new nation
