Ordinary Paradise Richard Teleky, 2018-04-09 While representing the best of human endeavor works of art have become ordinary features of our lives familiar and reliably present writes Richard Teleky They are however extraordinary So extraordinary in fact that in themselves they are a kind of paradise In *Ordinary Paradise* acclaimed author critic and editor Richard Teleky considers a variety of artistic forms from novels and poems to paintings and sculptures to movies and musical compositions in celebration of the creative achievements that surround us and affect our daily lives He examines as well some of the challenges and tensions in any artist's life The essays in *Ordinary Paradise* challenge conventional wisdom and exemplify a dynamic and lively critical approach pointing out troubling trends in contemporary appreciation of art and culture They reveal the rewarding complexities of the demanding art of translation the nostalgic power of re-reading in provoking self assessment and the fraught connection between language silence and identity as they relate to marginalized voices Teleky immerses himself into ideas of truth beauty and humanity and in so doing provides a compelling exemplar for engaging with contemporary culture and learning the innumerable lessons that artistic accomplishments have to teach us

Research on Adulthood and Aging L. Eugene Thomas, 1989-07-21 By borrowing from a wide range of disciplines such as psychology sociology anthropology psychiatry and the humanities this book gives a more human personal voice to the many experiences of aging The result is a new sort of social science research one which often reads more like literature than social science Indeed the author uses a wide variety of techniques borrowed from the humanities from hermeneutics to oral histories in addition to the more traditional social science methods

Chimes of Change and Hours Audrey Borenstein, 1983 Encompassing a variety of perspectives on the lives of older women in modern America this book is a rich mosaic drawing on demographic social psychological social historical economic and gerontological data and incorporating transcripts of oral histories interviews with women artists fiction and essays by and about women in the second half of their lives autobiographies diaries journals letters and other sources

Women's Life-writing Linda S. Coleman, 1997 The essays in this collection offer readers vivid and varied

evidence of the female response to recurring attempts by culture to artificially limit identity along the gendered lines of private and public experience Calling on voices both familiar and little known British and American black and white young and old poor and rich heterosexual and lesbian the essayists explore how women within unique personal and historical conditions used life writing as a means of both self understanding and connection to a community of sympathetic others real or imagined The life writings within this anthology span the modern history of the genre itself with writers drawn from as early as the seventeenth century and as late as the 1990s Translation of Journal of a Solitude Guo Hau Yang,1994

Dancing with the Unconscious Danielle Knafo,2012-04-23 In writing and lecturing over the past two decades on the relationship between psychoanalysis and art Danielle Knafo has demonstrated the many ways in which these two disciplines inform and illuminate each other This book continues that discussion emphasizing how the creative process in psychoanalysis and art utilizes the unconscious in a quest for transformation and healing Part one of the book presents case studies to show how free association transference dream work regression altered states of consciousness trauma and solitude function as creative tools for analyst patient and artist Knafo uses the metaphor of dance to describe therapeutic action the back and forth movement between therapist and patient past and present containment and release and conscious and unconscious thought The analytic couple is both artist and medium and the dance they do together is a dynamic representation of the boundless creativity of the unconscious mind Part two of the book offers in depth studies of several artists to illustrate how they employ various media for self expression and self creation Knafo shows how artists though mostly creating in solitude are frequently engaged in significant relational processes that attempt rapprochement with internalized objects and repair of psychic injury Dancing with the Unconscious expands the theoretical dimension of psychoanalysis while offering the clinician ways to realize greater creativity in work with patients A Biography of Loneliness Fay Bound Alberti,2019-09-12 A compassionate wide ranging study Terry Eagleton The Guardian Despite 21st century fears of a modern epidemic of loneliness its history has been sorely neglected A Biography of Loneliness is the first history of its kind to be published in English offering a radically new interpretation of loneliness as an emotional language and experience Using letters and diaries philosophical tracts political discussions and medical literature from the eighteenth century to the present historian of the emotions Fay Bound Alberti argues that loneliness is not an ahistorical universal phenomenon It is in fact a modern emotion before 1800 its language did not exist As Alberti shows the birth of loneliness is linked to the development of modernity the all encompassing ideology of the individual that has emerged in the mind and physical sciences in economic structures in philosophy and politics While it has a biography of its own loneliness impacts on people differently according to their gender ethnicity religion outlook and socio economic position It is Alberti argues not a single state but an emotion cluster composed of a wide variety of responses that include fear anger resentment and sorrow In spite of this loneliness is not always negative And it is physical as well as psychological loneliness is a product of the body as much as the mind

From Loneliness to Solitude in

Person-centred Health Care Stephen Buetow, 2022-08-26 This innovative book provides a new conceptual analysis of loneliness a condition associated with severe health consequences including increased morbidity and early death Arguing that social connection is not the only answer it explores pathways for transforming loneliness to healthy solitude The first part of the book draws on the humanities and arts including psychology philosophy and literature to analyse the common and potentially serious problem of loneliness It makes the case that the condition is less a deficiency than a state of self disconnection that modernity feeds through social forces The second part of the book looks at how person centred health care can help educate persons to transform loneliness into healthy solitude It provides an analysis of self connection and spiritual connection discussing how these forms of contact can mitigate risks associated with both lack of social connection and social connection itself such as self disconnection and rejection by others It goes on to demonstrate that connection to the self and spirit can make aloneness a resource and facilitate access to benefits of connecting with others This thought

provoking book provides students scholars and practitioners from a range of health and social care backgrounds with a new way of thinking about researching and practising with lonely people **That Great Sanity** Susan Swartzlander, Marilyn R. Mumford, 1992 This collection of original essays represents the first book length consideration of May Sarton s contributions to American literature and culture In the course of her long and prolific career Sarton has published nearly fifty books yet has largely been ignored by book reviewers and others in the critical establishment Although she is primarily known as a novelist and poet it is probably her journals including *At Seventy* *House by the Sea* *Journal of a Solitude* *Recovering* that have received the most praise and are responsible for Sarton s position as an increasingly important cultural figure especially among women readers of the last two decades As Carolyn Heilbrun observed in her book *Writing a Woman s Life* May Sarton s fame at age seventy five was greater than it had ever been The twelve essays in *That Great Sanity* work together to provide theoretical and critical contexts that make possible a more judicious assessment of Sarton s achievement than has been available previously Maureen McCarthy s introduction traces the history of Sarton criticism over the past fifty years including the recent surge of interest in her work Also included in the volume is a selection of letters representing the remarkable correspondence between the young May Sarton and the woman she considered her mentor poet Louise Bogan Nancy Weyant s bibliography of Sarton criticism brings previous bibliographies up to date The remaining essays provide a variety of perspectives including feminist literary historical reader response lesbian and archetypal that reveal Sarton s very significant contributions to contemporary literature and culture
