Jon Pertwee:

The Doctors Who's Who - The Story Behind Every Face of the Iconic Time Lord: Celebrating its 50th Year Craig Cabell, 2011-11-27 Doctor Who is the world's longest running science fiction television series and has had children hiding behind sofa's since it was first broadcast in 1963. Eleven actors have played the famous Time Lord starting with William Hartnell and it has been a career landmark for all of them. Indeed no other role in television history is as iconic, demanding or as anticipated by its legions of fans as that of the famous time traveller with two hearts. Find out Who was a bouncer for The Rolling Stones before taking control of the Tardis Who was nearly blown up in the Second World War aboard HMS Hood Who had a fondness for woolly hats and had a grandson who would become Harry Potter's nemesis Who played a transvestite barmaid before becoming a Doctor Who heart throb. Go back in time and read the human story behind a TV legend. **When Two Are In Love or As I Came To Behind Frank's Transporter** Philip Terry, James Davies, 2019 With purity of playfulness and razor edge wit this novel tells a story of true romance and also the quest to find a decent place to get a drink. Anarchic, ridiculous, considered and capricious. When Two Are In Love or As I Came to Behind Frank's Transporter is an unique vision of the peculiarity of attachment of young sweethearts, passionate lovers and sticking it out until the very end. And just as love dissolves all in its path here as you read the story starts to fall apart in your hands and turn into something else altogether. A kind of 21st century Metamorphoses. I Am the Doctor Jon Pertwee, David J. Howe, 1996 In this book completed just days before his death the late actor, comedian, entertainer and raconteur John Pertwee presents for the first time ever in print stories of his time playing television's favourite Time Lord. *A Critical History of Doctor Who on Television* John Kenneth Muir, 2015-09-15 Since its inception in November 1963 the British science fiction television series Doctor Who has exerted an enormous impact on the world of science fiction. Over 1 500 books have been written about the show. The series follows the adventures of a mysterious Time Lord from the distant planet Gallifrey who travels through time and space to fight evil and injustice. Along the way he has visited Rome under the rule of Nero, played backgammon with Kublai Khan and participated in the mythic gunfight at the O.K. Corral. Predating the Star Trek phenomenon by three years Doctor Who seriously dealt with continuing characters, adult genre principles and futuristic philosophies. Critical and historical examinations of the ideas, philosophies, conceits and morals put forth in the Doctor Who series which ran for 26 seasons and 159 episodes are provided here. Also analyzed are thematic concepts, genre antecedents, the overall cinematography and the special effects of the long running cult favorite. The various incarnations of Doctor Who including television, stage, film, radio and spin offs are discussed. In addition the book provides an extensive listing of print, Internet and fan club resources for Doctor Who. Despite being set in the late 1980s, the book becomes just like a TARDIS as time switches back and forth through various points in Jamie's life.
