Years of Upheaval Henry Kissinger, 2011-09-01 In *Years of Upheaval* Henry Kissinger recalls the turbulent years of the second administration of Richard Nixon which began in January 1973 Two momentous events and their consequences dominate this account the Watergate scandal and the 1973 October war in the Middle East The book opens at the Western White House in August 1973 when Dr Kissinger is told by the president during a poolside conversation that he is to become Secretary of State The memories that follow are a rich compendium of his experiences in the months before and after the appointment including an eerie trip to Hanoi shortly after the Vietnam cease fire efforts to settle the war in Cambodia the tempestuous Year of Europe two Nixon Brezhnev summits and the controversy over d tente Dr Kissinger s dramatic day by day account of how the Middle East war was transformed into the beginning of peacemaking shapes the climactic chapters of the book in counterpoint to the worsening crisis at home which culminated with Nixon s resignation His frank portrait of Nixon s last days in the White House is perhaps the most perceptive to date *Foreign Relations of the United States* United States. Department of State, 1993 **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency, 1964 **Crossing the Border** Alan E. D. Smith, 2021-08-30 The West Papuan claim to the right of self determination was denied by a series of political acts by the United States the Netherlands Indonesia and the United Nations in the 1960s The result was the spasmodic flight of thousands of refugees over the next two decades Today the task of containment of West Papuan discontent continues In a thesis divided into four distinct sections Dr Alan Smith presents enlightening insight into the 1984 85 refugee crisis details Papua New Guinea s responses to the crisis focuses on the underlying causes of the refugee influx and the limited prospects for achieving a solution and argues that solutions to problems stemming from the crisis require the development of an authoritative international procedure for treating frustrated self determination claims Finally Dr Smith shares his views on the UN s involvement with the claims of indigenous peoples for self determination and how it represents a unique opportunity for achievement *Crossing the Border* is a thesis that utilizes thorough research to examine both the West Papuans self determination rights as well as their rights as refugees

**Beyond Groupthink** Paul 't Hart, 2010-03-25 Strategic issues and crises in foreign policy are usually managed by relatively small groups of elite policymakers and their closest advisors Since the pioneering work of Irving Janis in the early 1970s we have known that the interplay between the members of these groups can have a profound and indeed at times a pernicious influence on the content and quality of foreign policy decisions Janis argued that groupthink a term he used to describe a tendency for extreme concurrence seeking in decision making groups was a major cause of a number of U S foreign policy fiascoes And yet not all small groups suffer from groupthink in fact many high level bodies are handicapped by an inability to achieve consensus at all *Beyond Groupthink* builds upon and extends Janis s legacy The contributors develop a richer understanding of group dynamics by drawing on alternate views of small group dynamics The relevant literature is

reviewed and the different perspectives are explored in detailed case studies. The contributors link the group process to the broader organizational and political context of the policy process and stress the need to develop a multi level understanding of the collegial policy making process combining the insights drawn from micro level theories with those derived from study of broader political phenomena. The contributors include Alexander George, Sally Riggs, Fuller Paul, D Hoyt, Ramon J Aldag, Max V Metselaar, Bertjan Verbeek, J Thomas Preston, Jean A Garrison and Yaacov Y I Vertzberger. This book should appeal to political scientists and international relations specialists as well as researchers in social psychology, public administration and management interested in group decision making processes. Paul t Hart is Associate Professor, Department of Public Administration, Leiden University and Scientific Director of the Leiden Rotterdam Crisis Research Center. Eric Stern is Professor of Political Science at Stockholm University. Bengt Sundelius is Professor of Political Science at Stockholm University.

Religion and the Struggle for European Union Brent F. Nelsen, James L. Guth, 2015-03-31. Nelsen and Guth contend that religion or confessional culture plays a powerful role in shaping European ideas about politics, attitudes toward European integration and national and continental identities. In its leaders and citizens, Catholicism has for centuries promoted the unity of Christendom while Protestantism has valued particularity and feared Catholic dominance. These confessional cultures, the authors argue, have resulted in two very different visions of Europe that have deeply influenced the process of postwar integration. Catholics have seen Europe as a single cultural entity that is best governed by a single polity. Protestants have never felt part of continental culture and have valued national borders as protectors of liberties historically threatened by Catholic powers. Catholics have pressed for a politically united Europe. Protestants have resisted sacrificing sovereignty to federal institutions favoring pragmatic cooperation. Despite growing secularization of the continent, not to mention the impact of Islam, confessional culture still exerts enormous influence. And the authors conclude European elites must recognize the enduring significance of this Catholic Protestant cultural divide as the EU attempts to solve its social and economic and political crises.

Exile in London Vít Smetana, Kathleen Geaney, 2018-02-01. During World War II London experienced not just the Blitz and the arrival of continental refugees but also an influx of displaced foreign governments. Drawing together renowned historians from nine countries, the United Kingdom, Germany, the Netherlands, Belgium, Poland, Slovenia, the Czech Republic and Slovakia, this book explores life in exile as experienced by the governments of Czechoslovakia and other occupied nations who found refuge in the British capital. Through new archival research and fresh historical interpretations, chapters delve into common characteristics and differences in the origin and structure of the individual governments in exile in an attempt to explain how they dealt with pressing social and economic problems at home while abroad, how they were able to influence crucial allied diplomatic negotiations, the relative importance of armies, strategic commodities and equipment that particular governments in exile were able to offer to the Allied war effort, important wartime propaganda and

Caroline Studdert,2022-05-17 At a time when women were finding their voices comes Hell Cat of the Hague The Nel Slis Story the remarkable tale of a female journalist who became the Associated Press first correspondent in The Hague after WWII This story delves into the origins and follows the adventures of a larger than life character fighting her way to make her mark in the world as a lone woman journalist and forming enduring friendships across the world From a lonely childhood on an island at the bottom of Holland a love of languages launches Nel on her travels in the 1930s From the Sorbonne and White Russians in Paris to a top class nursing diploma in Switzerland from the U K and Germany to Mussolini watching in Rome as World War II breaks out Nel sees it all With her experience in nursing and the BBC wartime intelligence monitoring service Nel falls like a hair in the soup into journalism when the mighty Associated Press AP sets up shop in the UK Postwar Nel becomes the AP s first correspondent in The Hague and meets the love of her life young American journalist Daniel Schorr Together with Schorr her direct and challenging American style of reporting transforms a profession suffering from the legacy of wartime occupation The book also follows her reporting on the Dutch Royal Family Nel and the Queen of Libya her travels and work in the U S and much more She becomes a legend in her own time the exciting woman journalist every other journalist wants to interview and emulate Also famed for her warmth her wide circle of friends including cultural icons like Isaac Stern and Leo Bernstein and her support for new journalists especially women this is a figure history should celebrate as this book surely does      **Four Centuries of Dutch-American Relations** Hans Krabbendam,Cornelis A. van Minnen,Giles Scott-Smith,2009-09-09 Since Henry Hudson landed on Manhattan in 1609 the peoples of the Netherlands and North America have been inextricably linked Four Centuries of Dutch American Relations written by a team of nearly one hundred Dutch and American scholars is the first book to offer a comprehensive history of this bilateral relationship This volume covers the main paths of contacts conflicts and common plans from the first exploratory contacts in the early seventeenth century to the intense and multifaceted exchanges in the early twenty first Based on the most up to date research Four Centuries of Dutch American Relations will be for years to come a valuable and much used reference work for anyone interested in the history and culture of the United States and the Netherlands and the larger transatlantic interdependent framework in which they are embedded      In Pursuit of Influence Anjo G. Harryvan,2009 As one of the six founding member states of the European Union the Netherlands has been at the heart of the European integration project from its inception Looking back on the Netherlands role in European cooperation and integration during the 1950s and 1960s Joseph Luns the country s long standing Foreign Minister depicted himself as an exponent of a Dutch vision This vision Luns suggested enabled the country to act as a leading force in Europe thus demonstrating that in specific constellations in

international affairs a middle sized or even a small country can play an important role What was this Dutch vision of Europe and was Luns right in ascribing so much importance to it In this book the author sets out to investigate whether under which conditions and by what means the Netherlands has exerted an engineering influence on the economic and institutional architecture of the European Union It sheds fresh light on the policies of the Netherlands and its Benelux partners in the process of making Europe as we know it today Achieving the Common Market may well be considered the ultimate success of contemporary Dutch diplomacy Bricks, Mortar and Capacity Building Inge Brinkman, 2010-09-01 The history of development cooperation has attracted very little research to date This volume offers an innovative interpretation by considering the history of SNV Netherlands Development Organisation which has been in existence for over forty years now Through SNV s history an analysis emerges of the role of the Netherlands in development cooperation and the attitudes of Dutch society towards it over the last fifty years as well as the changing ideas practices and policies in development work more generally The views and expectations of former SNV staff and those of local participants who were ultimately to benefit from the development activities were the focus of this historical research This has resulted in a socio cultural history from below rather than a dry description of the organisation s administrative changes and formal bureaucratic structures

Diplomacy and War at NATO Ryan C. Hendrickson, 2006 NATO is an alliance transformed Originally created to confront Soviet aggression the North Atlantic Treaty Organization evolved in the 1990s as a military alliance with a broader agenda Whether conducting combat operations in the Balkans or defending Turkey from an Iraqi threat in 2003 NATO continues to face new security challenges on several fronts Although a number of studies have addressed NATO s historic evolution conceptual changes and military activities none has considered the role in this transformation of the secretary general who is most often seen as a minor player operating under severe political constraints In Diplomacy and War at NATO Ryan C. Hendrickson examines the first four post Cold War secretaries general and establishes their roles in moving the alliance toward military action Drawing on interviews with former NATO ambassadors alliance military leaders and senior NATO officials Hendrickson shows that these leaders played critical roles when military force was used and were often instrumental in promoting transatlantic consensus Hendrickson offers a focus on actual diplomacy within NATO unmatched by any other study providing previously unreported accounts of closed sessions of the North Atlantic Council to show how these four leaders differed in their impacts on the alliance but were all critical players in explaining how and when NATO used force He examines Manfred W rner s role in moving the alliance toward military action in the Balkans Willy Claes s influence in shaping alliance policies regarding NATO s 1995 bombing campaign on the Bosnian Serbs Javier Solana s part in shaping political and military agendas in the Yugoslavian war and George Robertson s efforts to promote consensus on the Iraqi issue which culminated in NATO s decision to provide Turkey with military defensive measures Through each case Hendrickson demonstrates that the secretary general is often the central diplomat in generating cooperation within NATO As the alliance

has expanded its membership and undertaken new peacekeeping missions it now confronts new threats in international security Diplomacy and War at NATO offers readers a more complete understanding of the alliance s post Cold War transformation as well as policy recommendations for the improvement of transatlantic tensions     *Soviet Active Measures*
