**Predatory Priests, Silenced Victims** Mary Gail Frawley-O'Dea, Virginia Goldner,2016-05-06 The sexual abuse scandal in the Catholic Church captured headlines and mobilized public outrage in January 2002 But much of the commentary that immediately followed was reductionistic focusing on single causes of clerical abuse such as mandatory celibacy homosexuality sexual repressiveness or sexual permissiveness anti Catholicism and a decadent secular culture **Predatory Priests Silenced Victims** The Sexual Abuse Crisis and the Catholic Church a collection of groundbreaking articles edited by Mary Gail Frawley O Dea and Virginia Goldner eschews such one size fits all theorizing In its place the abuse situation is explored in all its troubling complexity as contributors take into account the experiences respectively of the victim survivor the abuser perpetrator and the bystander whether family member professional clergy or the community at large Setting polemics to the side **Predatory Priests Silenced Victims** provides a sober and sobering analysis of the interlacing historical doctrinal and psychological issues that came together in the sexual abuse scandal It is mandatory reading for all who seek thoughtful informed commentary on a crisis long in the making and yet to be resolved      **The Suffering Stranger** Donna M. Orange,2011-05-09 Winner of the 2012 Grady Award Utilizing the hermeneutics of Hans Georg Gadamer and the ethics of Emmanuel Levinas **The Suffering Stranger** invigorates the conversation between psychoanalysis and philosophy demonstrating how each is informed by the other and how both are strengthened in unison Orange turns her critical and clinical eye toward five major psychoanalytic thinkers Sándor Ferenczi Frieda Fromm-Reichmann D W Winnicott Heinz Kohut and Bernard Brandchaft investigating the hermeneutic approach of each and engaging these innovative thinkers precisely as interpreters as those who have seen the face and heard the voice of the other in an ethical manner In doing so she provides the practicing clinician with insight into the methodology of interpretation that underpins the day to day activity of analysis and broadens the scope of possibility for philosophical extensions of psychoanalytic theory      **Psychoanalysis and the family in twentieth-century France** Richard Bates,2022-02-08 In the last quarter of the twentieth century if French people had a parenting problem or dilemma there was one person they consulted above all Françoise Dolto 1908-88 But who was Dolto How did she achieve a position of such influence What ideas did she communicate to the French public This book connects the story of Dolto's rise to two broader histories the dramatic growth of psychoanalysis in postwar France and the long running debate over the family and the proper role of women in society It shows that Dolto's continued reputation in France as a liberal and enlightened educational thinker is at best only partially deserved and that conservative and anti feminist ideas often underpinned her prominent public interventions While Dolto retains the status of a national treasure her

career has had far reaching and sometimes harmful repercussions for French society particularly in the treatment of autism

*A Rumor of Empathy* Lou Agosta, 2015-06-05 Empathy is an essential component of the psychoanalyst's ability to listen and treat their patients. It is key to the achievement of therapeutic understanding and change. *A Rumor of Empathy* explores the psychodynamic resistances to empathy from the analyst themselves, the patient, from wider culture, and seeks to explore those factors which represent resistance to empathic engagement and to show how these can be overcome in the psychoanalytic context. Lou Agosta shows that classic interventions can themselves represent resistances to empathy such as the unexamined life, over medication, and the application of devaluing diagnostic labels to expressions of suffering. Drawing on Freud, Kohut, Spence, and other major thinkers, Agosta explores how empathy is distinguished as a unified multidimensional clinical engagement encompassing receptivity, understanding, interpretation, and narrative. In this way, he sets out a new way of understanding and using empathy in psychoanalytic theory and clinical practice. When all the resistances have been engaged, defences analyzed, diagnostic categories applied, prescriptions written, and interpretive circles spun out in empathy, one is quite simply in the presence of another human being. Agosta depicts the unconscious forms of resistance and raises our understanding of the fears of merger that lead a therapist to take a step back from the experience of their patients, using ideas such as altruistic surrender and compassion fatigue, which are highlighted in a number of clinical vignettes. Empathy itself is not self-contained. It is embedded in social and cultural values, and Agosta highlights the mental health culture and its expectations of professional organizations. This outstanding text will be relevant to psychoanalysts, psychotherapists who wish to make a contribution to reducing the suffering and emotional distress of their clients, and also to trainees who are more vulnerable to the professional demands on their capacity for empathic listening. Lou Agosta, Ph.D., teaches empathy in systems and the history of psychology at the Illinois School of Professional Psychology at Argosy University. He is the author of numerous articles on empathy in human relations, aesthetics, altruism, and film. He is a psychotherapist in private practice in Chicago, USA.
