The Journals of the Lewis and Clark Expedition Meriwether Lewis, William Clark, 2002-09 Since the time of Columbus explorers dreamed of a water passage across the North American continent President Thomas Jefferson shared this dream He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean Meriwether Lewis and William Clark led this expedition of 1804 6 Along the way they filled hundreds of notebook pages with observations of the geography Indian tribes and natural history of the trans Mississippi West This complete set of the celebrated Nebraska edition incorporates the journals along with a wide range of new scholarship dealing with all aspects of the expedition including geography Indian languages plants and animals in order to recreate the expedition within its historical context

A History of the Lewis and Clark Journals Paul Russell Cutright, 2000-05 A History of the Lewis and Clark Journals includes coverage of the diaries and journals of all members of the famous expedition to the Pacific Ocean in 1804 1806 In addition to co leaders William Clark and Meriwether Lewis the chroniclers were Charles Floyd John Ordway Patrick Gass Nathaniel Pryor Joseph Whitehouse and Robert Frazer Paul Cutright is to be especially commended for his exhaustive coverage and thorough documentation This is a fine book and a major contribution to the historiography of the nation s most celebrated explorers Minnesota History This is not a book about the expedition of which there are already perhaps too many but a history of the journals written by the two captains and a number of the enlisted men A work such as this is of great value to anyone interested in the Lewis and Clark expedition An invaluable reference work Western Historical Quarterly

Original Journals of the Lewis and Clark Expedition. Selections; The Journals of Lewis and Clark Meriwether Lewis, *The Journals of the Lewis and Clark Expedition: The journals of Joseph Whitehouse, May 14, 1804-April 2, 1806* Meriwether Lewis, William Clark, Gary E. Moulton, Thomas W. Dunlay, 1983-01-01 The University of Nebraska Press editions of The Journals of the Lewis and Clark Expedition are widely heralded as a lasting achievement In all thirteen volumes are projected which together will provide a complete record of the expedition Volume 11 contains the journals of expedition member Joseph Whitehouse His journals are the only surviving account written by an army private on the expedition and he is one of the least known of the expedition party Following the expedition Whitehouse had a checkered army career and he

disappeared after 1817 His capabilities have been unfairly slighted by previous commentators despite his narrative skill and evidence that he was a man of a lively and curious mind His extensive journal entries contribute to our understanding of the epochal journey and of the unusual group of men who undertook one of the defining events in our history The last part of his journals was not found until 1966 this is the first publication of the complete record of his account JOURNALS OF LEWIS & CLARK Meriwether Lewis,2013-04-10 *The Definitive Journals of Lewis and Clark* Meriwether Lewis,William Clark,Gary E. Moulton,2002-01-01 Lively and curious possessing a keen eye for detail and a knack for skin dressing Private Joseph Whitehouse produced an account that stands as the only surviving record by any army private in the Corps of Discovery expedition In simple and well paced sentences he painted full portraits of the unusual group of men he accompanied on one of the greatest adventures in American history Whitehouse s journal is published here in full for the first time including entries from a second copy of his journal that extend the narrative for five months beyond previous editions Although Whitehouse s career after the expedition was checkered and he disappeared after 1817 his vivid eyewitness account will long be remembered Whitehouse s journal joins the celebrated Nebraska edition of the complete journals of the Lewis and Clark expedition which feature a wide range of new scholarship dealing with all aspects of the expedition from geography to Indian cultures and languages to plants and animals **August 25, 1804 - April 6, 1805** William Clark,Meriwether Lewis,Gary E. Moulton,1983 **The Definitive Journals of Lewis and Clark** Meriwether Lewis,William Clark,Gary E. Moulton,2004-01-01 In twelve remarkable volumes Gary E Moulton has edited the journals of the Lewis and Clark expedition of 1804-6 thus making clear and accessible to all readers the plethora of maps and words with which Meriwether Lewis and William Clark documented one of the greatest ventures of discovery in American history With the Comprehensive Index the thirteenth volume Moulton completes his work and offers everyone who consults the Journals a complete and detailed means of locating specific passages references and particular people or places within the larger work Throughout the edition his guiding principles have been clarity and ease of use Consequently the notes are indexed more thoroughly here than in most works and include modern place names modern denominations for Indian nations and current popular and scientific names for various cited species This volume also contains a list of corrections for earlier volumes *The Journals of the Lewis and Clark Expedition: August 30, 1803-August 24, 1804* Meriwether Lewis,1983-01-01 The journey of the Corps of Discovery under the command of Captains Meriwether Lewis and William Clark across the American West to the Pacific Ocean and back in the years 1804-1806 seems to me to have been our first really American adventure one that also produced our only really American epic The Journals of the Lewis and Clark Expedition now at last available in a superbly edited easily read edition in twelve volumes of an eventual thirteen almost two centuries after the Corps of Discovery set out This important text has not been fully appreciated for what it is because of two centuries of incomplete and inadequate editing All three editions previous to this excellent one from the University of Nebraska were flawed by significant omission Thus my gratitude

to the present editor Gary Moulton and his assistant editor Thomas Dunlay for bringing what I believe to be a national epic into plain view at last For almost two hundred years their Lewis and Clark s strong words waited there but not there printed but not read our silent epic But words can wait now the captains writings have at last spilled out and fully in this regal edition When the Atlas of the Lewis and Clark Expedition appeared in 1983 critics hailed it as a publishing landmark This eagerly awaited second volume of the new Journals of the Lewis and Clark Expedition begins the actual journals of those explorers whose epic expedition still enthralles Americans Instructed by President Jefferson to keep meticulous records bearing on the geography ethnology and natural history of the trans Mississippi West Meriwether Lewis and William Clark and four of their men filled hundreds of notebook pages with observations during their expedition of 1804 6 The result was in is a national treasure a complete look at the Great Plains the Rockies and the Pacific Northwest reported by men who were intelligent and well prepared at a time when almost nothing was known about those regions so newly acquired in the Louisiana Purchase Volume 2 includes Lewis s and Clark s journals for the period from August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River to August 1804 when the Corps of Discovery camped near the Vermillion River in present South Dakota The general introduction by Gary E Moulton discusses the history of the expedition the journal keeping methods of Lewis and Clark and the editing and publishing history of the journals from the time of Lewis and Clark s return Superseding the last edition published early in this century the current edition brings together new materials discovered since then It greatly expands and updates the annotation to take account of the most recent scholarship on the many subjects touched on by the journals
