Constructing Authorship in the Work of Günter Grass Rebecca Braun, 2008-06-26 A challenging new reading of Grass's literary work and political writings that examines how the author has reacted to sustained public interest in his person from the mid 1960s onwards Braun draws together an eclectic body of literary writing and suggests that questions of authorship lie at the heart of Grass's work

The Oxford Handbook of German Politics Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022-07-18 Few countries have caused or experienced more calamities in the 20th century than Germany The country emerged from the Cold War as a newly united and sovereign state eventually becoming Europe's indispensable partner for all major domestic and foreign policy initiatives This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields This book serves primarily as a reference work on Germany for scholars and an interested public but through this broader lens it also provides a magnifying glass of global developments which are challenging and transforming the modern state The growing importance of Germany as a political actor and economic partner makes this endeavor all the more timely and pertinent from a German European and global perspective

Günter Grass and His Critics Siegfried Mews,2008 A comprehensive narrative overview and analysis of the criticism of the controversial German author s works When the Swedish Academy announced that Günter Grass had been awarded the 1999 Nobel Prize for Literature it singled out his first novel *The Tin Drum* 1959 English translation 1963 as a seminal work that had signaled the postwar rebirth of German letters auguring a new beginning after decades of linguistic and moral destruction Nearly fifty years after its publication the novel s significance has been generally acknowledged it is the uncontested favorite among Grass s works of fiction on the part of reading public and critics alike yet its canonical status tends to obscure the decidedly mixed and even hostile reactions it initially elicited Along with *The Tin Drum* Grass s impressive body of literary work since the 1950s has spawned a cottage industry of Grass criticism making a reliable guide through the thicket of sometimes contradictory readings a definite desideratum Siegfried Mews fills this lacuna in Grass scholarship by way of a detailed but succinct descriptive as well as analytical and evaluative overview of the scholarship from 1959 to 2005 Grass s politically motivated interventions in public discourse have kept him highly visible blurring the boundaries between politics and aesthetics Mews therefore examines not only academic criticism but also the daily and weekly press and other news media providing additional insight into the reception of Grass s works Siegfried Mews is Professor of German at the University of North Carolina at Chapel Hill *The Echo of Die Blechtrommel in Europe* ,2016-07-11 *The Echo of Die Blechtrommel in Europe* presents an overview and analysis of the critical reception of Günter Grass s classic novel throughout Europe Starting from the reviews on its first publication in Germany in 1959 it follows the reception of its translations in Poland Italy the UK The Netherlands Belgium France Finland and Sweden Press reviews for the general public form the main object of research in this volume The articles reveal the different roles played by religious political and ideological matters in the reception of the novel in the respective European countries The articles written by

specialists from the countries under study also reveal national differences and resemblances in the institutions of literary life in Europe

Lektüren für das 21. Jahrhundert Sabine M. Schneider, 2005 German Culture and the Uncomfortable Past Helmut Schmitz, 2017-07-05 Beginning with the question of the role of the past in the shaping of a contemporary identity this volume spans three generations of German and Austrian writers and explores changes and shifts in the aesthetics of Vergangenheitsbewältigung coming to terms with the past The purpose of the book is to assess contemporary German literary representations of National Socialism in a wider context of these current debates The contributors address questions arising from a shift over the last decade triggered by a generation change questions of personal and national identity in Germany and Austria and the aesthetics of memory One of the central questions that emerges in relation to the Hitler youth generation is that of biography as examined through Günter Grass and Martin Walser's conflicting views on the subject of National Socialism Other themes explored here are the conflict between the post war generations and the contributions of that conflict to West German mentality and the growing historical distance and its influence on the aesthetics of representation
