The Spanish-English Confessor's Guide Arthur Dunning Spearman, 1942 *Joan Martí de Figuerola: Works (1519-1521)* Elisa Ruiz García, Luis F. Bernabé Pons, 2024-02-26 *Lumbre de fe* is the most extensive and articulate polemic text of polemic against Islam written during the 16th century in Spanish in the Iberian Peninsula The work is the result of the preaching task carried out by Joan Mart de Figuerola for the conversion of the Mudejars of Zaragoza between 1517 and 1518 a task that brought Figuerola into numerous confrontations with the secular authorities for disturbing the coexistence between the two confessions *Lumbre de fe* also stands out for its use of qur'anic texts in Arabic to attack Islam These texts transliterated in Latin characters and translated into Spanish are commented and discussed by Figuerola making use of his vast theological erudition and his experience as a preacher in the crown of Aragon The manuscript in which the work is preserved also contains numerous images representing Islamic beliefs and rites which further reinforces the enormous originality and strength of the work

Between Two Worlds: The autos sacramentales of Sor Juana Inés de la Cruz Amy Fuller, 2015-06-12 The seventeenth century Mexican poet playwright and nun Sor Juana Inés de la Cruz is best known for her secular works most notably her damning indictment of male double standards *Hombres necios Stupid Men* However her autos sacramentales allegorical one act plays on the Eucharist have received little attention and have only been discussed individually and out of sequence By examining them as a collection in their original order their meaning and importance are revealed The autos combine Christian and classical pagan imagery from the Old World with the conquest and conversion of the New World As the plays progress the mystery of Christ's greatest gift to mankind is deciphered and is mirrored in Spain's gift of the True Faith to the indigenous Mexicans Sor Juana's own image is also situated within this baroque landscape presented as a triumph of Spanish imperialism an exotic muse between two worlds

Voices of Conscience Nicole Reinhardt, 2016 *Voices of Conscience* analyzes how the link between politics and conscience was articulated and shaped throughout the seventeenth century by confessors who acted as counsellors to monarchs Against the backdrop of the momentous intellectual theological and political shifts that marked this period the study examines comparatively how the ethical challenges of political action were confronted in Spain and France and how questions of conscience became a major argument in the hegemonic struggle between the two competing Catholic powers As Nicole

Reinhardt demonstrates counsel of conscience was not a peripheral feature of early modern political culture but fundamental for the definition of politics and conscience. Tracing the rise and fall of confessors as counsellors reveals the parallel transformation of both approaching a historical understanding of the modernisation of politics with the idea of an individual conscience at its heart. Placed at the junction of norms and practices, royal confessors directly or in oblique reflection shaped the ways in which the royal conscience was identified and scrutinized. By the same token, the royal confessors' expertise and activities remained a source of anxiety and conflict that triggered wide debate on the relationship between State and Church, religion and politics. The notion of counsel of conscience, of which this book provides the first in-depth analysis, allows the reader to re-examine and challenge fundamental historical paradigms such as the emergence of absolutism, individualisation and the division of public and private. Putting theological concepts and religious dimensions back into political theory and practice sheds new light not only on the importance of counselling for early modern statecraft but also on the reconfiguration of the normative frameworks underlying it.

Dictionary of Theologians Jonathan Hill, 2010-03-25. An exhaustive guide to every significant Christian theologian who lived from the first century to 1308, the year in which John Duns Scotus died. The dictionary encompasses the Catholic, Orthodox, Nestorian and Monophysite traditions, including information not previously available in English. Thoroughly indexed, the dictionary incorporates common variants of names and concepts which will help and direct the reader. The main criterion for inclusion has been contribution to the development of Christian theology. Sub-criteria by which that is measured include, above all, originality and influence on later figures. With over 290 entries, the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up-to-date definitive bibliography listing primary texts, translations and secondary literature in the major western European languages. Useful for all levels of academia, no other text matches the depth of the dictionary's bibliographies. The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers.

A Companion to Jesuit Mysticism Robert Aleksander Maryks, 2017-03-06. In *A Companion to Jesuit Mysticism*, Robert A. Maryks provides thirteen unique essays discussing the Jesuit mystical tradition, a somewhat neglected aspect of Jesuit historiography that stretches as far back as the order's co-founder, Ignatius of Loyola, his spiritual visions at Manresa and ultimately the mystical perspective contained in his *Spiritual Exercises*. The volume's contributions on the most significant representatives of the Jesuit mystical tradition, from Baltasar Alvarez to Louis Lallemant to Hugo Makibi Enomiya Lassalle, aim to fill this lacuna in Jesuit historiography. Although intended primarily as a handbook for scholars seeking to further their own research in this area, the volume will undoubtedly be of interest to scholars and students of Jesuit studies more broadly.

Marginality, Canonicity, Passion Marco Formisano, Christina Shuttleworth Kraus, 2018-06-21 In recent years the discipline of Classics has been experiencing a profound transformation affecting not only its methodologies and hermeneutic practices how classicists read and interpret ancient literature but also and more importantly the objects of classical study themselves One of the most important factors has been the establishment of reception studies examining the ways in which classical literature and culture have been appropriated or responded to in later ages and or non western cultures This temporal and cultural expansion beyond the traditional remit of the field has had many salutary effects but reception studies are not without limitations of particular consequence is a tendency to focus almost exclusively on the most canonical Greek and Latin texts which is partly due to the sheer scale on which they have been received adapted discussed and alluded to since antiquity By definition reception studies are uninterested in texts which have had no success but the result of an implicit adoption of canonicity as an unspoken criterion is the marginalization of other texts which despite their

inherent value have not experienced so significant a Nachleben This volume seeks to move beyond the questions of what is central what is marginal and why to explore instead the range and significance of the classical canon and the processes by which it is shaped and changed by its reception in different academic and cultural environments By examining the academic study of Classics from the interrelated titular perspectives of marginality canonicity and passion it aims to unveil their many subtle implications and reopen a discussion not only about what makes the discipline unique but also about what direction it might take in the future *The Sacrament of Penance and Religious Life in Golden Age Spain* Patrick J.

O'Banion,2015-06-13 *The Sacrament of Penance and Religious Life in Golden Age Spain* explores the practice of sacramental confession in Spain between roughly 1500 and 1700 One of the most significant points of contact between the laity and ecclesiastical hierarchy confession lay at the heart of attempts to bring religious reformation to bear upon the lives of early modern Spaniards Rigid episcopal legislation royal decrees and a barrage of prescriptive literature lead many scholars to construct the sacrament fundamentally as an instrument of social control foisted upon powerless laypeople Drawing upon a wide range of early printed and archival materials this book considers confession as both a top down and a bottom up phenomenon Rather than relying solely upon prescriptive and didactic literature it considers evidence that describes how the people of early modern Spain experienced confession offering a rich portrayal of a critical and remarkably popular component of early modern religiosity **Venice's Hidden Enemies** John Martin,2023-09-01 How could early modern

Multilingualism in the Middle Ages and Early Modern Age Albrecht Classen,2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a

collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms Hours with the mystics: a contribution to the history of religious opinion. . revised by the author Robert Alfred Vaughan, 1880
