Raising the Living Dead Alberto Ortiz Díaz, 2023-03-08 An eye opening look at how incarcerated people health professionals and others behind and beyond bars came together to problem solve incarceration Raising the Living Dead is a history of Puerto Rico's carceral rehabilitation system that brings to life the interactions of incarcerated people their wider social networks and health care professionals Alberto Ortiz Díaz describes the ways that multiple communities of care came together both inside and outside of prisons to imagine and enact solution oriented cultures of rehabilitation from the 1930s to the 1960s Scientific and humanistic approaches to well being were deliberately fused to raise the living dead an expression that reemerged in the modern Caribbean to refer to prisoners These reform groups sought to raise incarcerated people physically mentally socially spiritually and civically The book is based on deep original archival research into the Oso Blanco White Bear penitentiary in Puerto Rico yet it situates its study within Puerto Rico's broader carceral archipelago and other Caribbean prisons The agents of this history include not only physical health professionals but also psychologists and psychiatrists social workers spiritual and religious practitioners and of course the prisoners and their families By following all these groups and emphasizing the interpersonal exercise of power Ortiz Díaz tells a story that goes beyond debates about structural and social control The book addresses key issues in the history of prisons and the histories of medicine and belief including how prisoners different racial class and cultural identities shaped their incarceration and how professionals living

in a colonial society dealt with the challenge of rehabilitating prisoners for citizenship Raising the Living Dead is not just about convicts their immediate interlocutors and their contexts however but about how together these open a window into the history of social uplift projects within the neo colonial societies of the Caribbean There is no book like this in Caribbean historiography few examine these themes in the larger literature on the history of prisons Obstinate Star Rafael Bernabe,2024-09-23 Obstinate Star is a history of Puerto Rico s independence struggle against Spanish and U S colonialism From the time of the Napoleonic Wars it traces the movement s currents within and beyond the island linking them to ongoing social conflicts and international trends and conjunctures Beginning with the radical democratic fight against Spanish control it moves on to the early reactions to U S rule the role of Nationalism Communism and New Deal currents during the Great Depression and the Second World War the rise of new forces in the wake of the Cuban revolution and recent struggles in the epoch of capitalist globalisation **Contemporary Caribbean Cultures and Societies in a Global**

practices that have indelibly shaped Puerto Rico and its culture *Smoker beyond the Sea* The Story of Puerto Rican Tobacco is a work of recovery that examines tobacco's transitions from medicinal use to rolls fit for chewing and pipe smoking followed by the appropriation of the Cuban paradigm for cigars and cigarettes and finally to the US models after the 1898 invasion This pioneering volume also offers the only history of the US tobacco monopoly in local agriculture and manufacture from its beginning in 1899 to the bankruptcy of its last successor company forty years later Baldrich's extensive research documents the organization of the cigar and cigarette manufacturing sectors and the resulting development of trade unions and socialist ideals This multidisciplinary investigation gives due attention to the modifications that farmers made to tobacco planting and harvesting techniques in fine tuning plants to the expected aromas and tastes of the manufactured commodities In addition Baldrich pays considerable attention to gender relations in the labor process not only in the manufacturing sector but also in tobacco agriculture The book also provides the only narrative of the rise and maturity of the *Hermanos Cheos* a powerful apocalyptic movement that began and spread in the tobacco growing regions Ultimately this encompassing volume fills a major gap in the histories of tobacco producing islands in the Caribbean
