Re-Mapping Centre and Periphery Tessa Hauswedell,Axel Körner,Ulrich Tiedau,2019-03-25 Historians often assume a one directional transmission of knowledge and ideas leading to the establishment of spatial hierarchies defined as centres

and peripheries In recent decades transnational and global history have contributed to a more inclusive understanding of intellectual and cultural exchanges that profoundly challenged the ways in which we draw our mental maps Covering the early modern and modern periods *Re Mapping Centre and Periphery* investigates the asymmetrical and multi directional structure of such encounters within Europe as well as in a global context Exploring subjects from the shores of the Russian Empire to nation making in Latin America the international team of contributors demonstrates how as products of human agency centre and periphery are conditioned by mutual dependencies rather than representing absolute categories of analysis they are subjective constructions determined by a constantly changing discursive context Through its analysis the volume develops and implements a conceptual framework for remapping centres and peripheries based on conceptual history and discourse history As such it will appeal to a wide variety of historians including transnational cultural and intellectual and historians of early modern and modern periods **The Graphic** ,1910 **1946 Extension of the Emergency Price**
