**Domestic and Regional Uncertainties in the New Turkey** Alessio Chiriatti, Ozgur Tufekci, 2017-06-20 Turkey has faced in the last two decades a number of critical events like wars conflicts and frictions in the Balkans the Caucasus and the Middle East that have represented a huge challenge for its foreign policy and civil and economic interventions Turkish multi directionality and multidimensionality have been tested by these occurrences demonstrating that what some scholars and experts had defined as a model contained failures as well as success This book examines these dynamics through case studies of the humanitarian cultural economic and political dimensions of Turkey s role in a diffuse neighbourhood in which the country has tried to exert its power in recent decades Starting from the questions that the Cold War and the arrival of the AKP in government have opened for Ankara the volume illustrates two of the most important sides of the Turkish strategic repositioning in the international system The first part is focused on the main humanitarian and political struggles in contemporary Turkish society while the second explores the main fault lines in

Turkey's regional policy and the development of the country's foreign policy. As such, the book represents a valuable resource for both graduate and undergraduate students, academics, and researchers in the areas of Turkish studies, foreign policy, regional politics, Middle Eastern studies, security, political economy, and European studies, as well as for the general public.

Sociology of Religion Susanne C. Monahan, William Andrew Mirola, Michael O. Emerson, 2001. This collection of articles explores the relationship between the structure and culture of religion and various aspects of social life in the United States. Based on both classic and contemporary research in the sociology of religion, it highlights a variety of research methods and theoretical approaches in exploring the ways in which religious values, beliefs, and practices shape the world outside of church, synagogue, or mosque walls while simultaneously being shaped by the non-religious forces operating in that world. Many readings are drawn from popular sources, e.g., newspapers and magazines, and although many of the readings are about religion in the Christian tradition, there are also readings about religion outside the American context, e.g., Poland, England, El Salvador, Nicaragua, and beyond the Christian tradition, e.g., Judaism, alternative religions, Hindu traditions. Classic Sociological Definitions Of Religion, Belief And Ritual, Religious Experience, Race, Ethnicity And Religion, Gender And Religion, Social Class And Religion, Sexual Identity And Religion, The Secularization Debate, Religious Organizations, Institutions And Authority, Alternative Religions, Media And Religion, Politics And Religion, Science And Religion, Social Movements And Religion. For anyone interested in the sociology of religion or religious perspectives on social issues.
