The Dialectic of the Holy Robert E. Meditz, 2016-09-12 This is the first published book length treatment on Paul Tillich and Judaism which is a neglected aspect of Tillich s thought It has three compelling features First pivotal biographical details show the importance of Judaism for Tillich and that he ardently opposed anti Semitism before WWII and after the Holocaust Second Tillich s theological method is examined in key primary sources to show how he maintains continuity between Judaism and Christianity The primary source analysis includes his 1910 and 1912 dissertations on Schelling the 1933 The Socialist Decision the 1952 Berlin lectures on the Jewish Question and his final public lecture on the importance of the history of religion for systematic theology Particular attention is paid to his dialectical and theological history of religion Third Tillich s positive theology of Judaism contrasts sharply with the many complex negative ways in which Judaism is portrayed in Western thought This contributes significantly to our understanding the evolving history of Christian anti Judaism

Wildman, 1998-01-01 Virtually all human endeavors can be analyzed and modeled and understood through computer aided study and that is very much at the core of operations research game theory and decision science Understanding the potential impact of any action is critical to the success of that action and in ESTIMATING IMPACT Alexander Kott and Gary Citrenbaum with a stellar group of contributors demonstrate how military or humanitarian interventions or the decision not to intervene can be rigorously analyzed beforehand and their likely impacts and ramifications predicted at levels appropriate to their scope A wide range of modeling programs are available that support plan assessment and impact forecast and they allow accurate prediction within an interdependent set of political military economic social information and infrastructure systems and experts involved in the use and development of these tools demonstrate how when and why they should be used

Christianity and Anti-Semitism Samuel Marlowe, 2016

God and Humanity in Auschwitz Donald J. Dietrich, 2009-08-01 God and Humanity in Auschwitz synthesizes the findings of research developed over the last thirty years on the rise of anti Semitism in our civilization Donald J Dietrich sees the Holocaust as a case study of how prejudice has been theologically enculturated He suggests how it may be controlled by reducing aggressive energy before it becomes overwhelming Dietrich studies the recent responses of Christian theologians to the Holocaust and the Jewish theological response to questions concerning God s covenant with Israel which were provoked by Auschwitz Social science has dealt with the psychosocial dynamics that have supported genocide and helps explain how

ordinary persons can produce extraordinary evil Dietrich shows how this research combined with theological analyses can help reconfigure theology itself Such an approach may serve to help dissolve anti-Semitism to aid in constructing such positive values as respect for human dignity and to point the way to restricting future outbreaks of genocide God and Humanity in Auschwitz surveys which religious factors created a climate that permitted the Holocaust It also illuminates what social science has to tell us about developing a strategy that when institutionally implemented can channel our energies away from sanctioned murder toward a more compassionate society The book has proven to be an essential resource for theologians sociologists historians and political theorists Reluctant Witnesses Stephen R. Haynes, 1995-01-01 Stephen Haynes takes a hard look at contemporary Christian theology as he explores the pervasive Christian witness people myth that dominates much Christian thinking about the Jews in both Christian and Jewish minds This myth an ancient theological construct that has put Jews in the role of living symbols of God's dealings with the world has for centuries according to Haynes created an ambivalence toward the Jews in the Christian mind with often disastrous results Tracing the witness people myth from its origins to its manifestations in the modern world Haynes finds the myth expressed in many unexpected places the writings of Karl Barth the novels and essays of Walker Percy the prophetic writings of Hal Lindsey as well as in the work of some North American Holocaust theologians such as Alice L and A Roy Eckardt Paul van Buren and Franklin Littell

Christianity and Social Systems Rosemary Radford Ruether, 2008-09-26 From the earliest interactions of Christians with the Roman Empire to today's debates about the separation of church and state the Christian churches have been in complex relationships with various economic and political systems for centuries Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy racism slavery and environmentalism while looking critically at how the church shapes these systems today With a focus on the United States Christianity and Social Systems provides an introductory analysis of the interactions between the churches and major systems that have shaped western Christian and post Christian society Ruether discusses ideologies such as liberalism and socialism and includes three country case studies Nicaragua South Africa and North and South Korea to further illustrate the profound influences Christianity and social systems have with each other This book is neither an attack on the relationship between Christianity and these systems nor an apology but rather a nuanced examination of the interactions between them By understanding how these interactions have shaped history we can more fully understand how to make ethical decisions about the role of Christianity in some of today's most pressing social issues from economic and class disparities to the environmental crisis

Strange and Gaudy Fruit Jeff Nicoll, 2023-05-09 The history of Christianity includes many doctrines adopted and actions taken to meet immediate problems but which had unintended consequences they are bad fruit Matt 7:15-20 The oldest is antisemitism which arose from the competition of the early church with early Judaism It was built into the New Testament and was developed by the church fathers Having learned to dehumanize it was easy to apply the same techniques to other groups the church became complicit with enslavement misogyny and other forms of oppression One response to the bad fruit is to reject religion in the manner of Christopher Hitchens However the dogmas are part of our culture even if in secular form If the roots of marginalization are not understood they cannot be eliminated This work uses a range of critics and defenders of traditional Western Christianity to identify poisonous fruits and detoxify them The critical voices do not create a consensus Nevertheless a core can be perceived what Erasmus called the few truths Grounded in the religious tradition they can be shared with secular people as a basis for an ethical merciful and respectful society Although the history of Christianity is bloody there are ways to go forward

Christian Antisemitism William Nicholls, 1995 In *Christian Antisemitism: A History of*

Hate Professor William Nicholls a former minister in the Anglican Church and the founder of the Department of Religious Studies at the University of British Columbia presents his stunning research stating that Christian teaching is primarily responsible for antisemitism As Nicholls states these conclusions can now be fully justified by the most up to date scholarship Christian as well as Jewish Nicholls writes Many Jewish writers have said quite simply that the Nazis chose the Jews as the target of their hate because two thousand years of Christian teaching had accustomed the world to do so Few Christian historians and theologians have been sufficiently open to the painful truth to accept this explanation without considerable qualification Nevertheless it is correct Christian Antisemitism traces over two millennia the growing domination of Western culture by the Christian myth as Nicholls calls it about the Jews and shows how it still exerts a major influence even on the secularized post Christian world Nicholls shows through scrupulous research and documentation that the myth of the Jews as Christ killers has powered anti Judaism and antisemitism throughout the centuries Nicholls clearly illustrates that this myth is present in the New Testament and that it has not yet died under the impact of modern critical history Also included in this remarkable volume is Nicholls research regarding the Jewishness of Jesus He writes Historical scholarship now permits us to affirm with confidence that Jesus of Nazareth was a faithful and observant Jew who lived by the Torah and taught nothing against his own people and their faith the Romans not the Jews were the Christ killers In Part I Before the Myth Nicholls explores the life of Jesus and his teachings as found in the New Testament Was Jesus the founder of Christianity Did he offer teachings against his people Did he believe himself

Raymond Brown, 'The Jews,' and the Gospel of John Sonya Shetty Cronin, 2015-02-26 Until the mid 1960s most commentators of the Gospel of John were aware of a polemic against the Jews yet they did not consider it with reference to contemporary ethical discussion A shift in focus in Johannine scholarship is noticeable from the mid 1960s and 1970s to the present where commentators began to connect the Gospel s polemic against the Jews with potential anti Judaism in the text As yet very little work has been done to answer the question of how this change in sensitivity came about This book is a historiography of one scholar s growing awareness of potential anti Judaism in the Gospel of John with the intention of using this individual history to explain the larger trend in biblical studies Sonya Cronin examines the published work of Raymond Brown a prominent Catholic New Testament scholar between the years 1960 1998 The book contextualizes Brown s work by evaluating the impact of ecclesiastical statements and the influence of earlier and contemporary Johannine scholarship on Brown s biblical interpretation and then posits theories as to why change occurs at specific times

Contending for the Faith Ralph C. Wood, 2003 In this book Ralph Wood calls for churches to offer a sustained an unapologetically Christian witness to a postmodern world Wood carefully chronicles how the church is watching the complete destruction of post Christian institutions and practices that once shaped human character toward fulfillment in goods larger than humanity s own self interest the chief of these being the worship and service of God Wood contends that Christian existence can never be taken for granted and so the church itself must seek to create a Christian
