Street,2007-07-19 Anti black racism is a stark presence in Chicago a fact illustrated by significant racial inequality in and around contemporary global city Drawing his work as a civil rights advocate and investigator in Chicago Street explains this neo liberal apartheid and its resulting disparity in terms of persistently and deeply racist societal and institutional practices and policies Racial Oppression in the Black Metropolis uses the highly relevant historical and sociological laboratory that is Chicago in order to explain the racist societal and institutional practices and policies which still typify the United States _ Street challenges dominant neoconservative explanations of the black urban crisis that emphasize personal irresponsibility and cultural failure Looking to the other side of the ideological isle he criticizes liberal and social democratic approaches that elevate class over race and challenges many observers sharp distinction between present and so called past racism In questioning the supposedly inevitable reign of urban neoliberalism Street also investigates the real racial politics of the United States and finds that parties and ideologies matter little on matters of race This innovative work in urban history and cultural criticism will inform contemporary social science and policy debates for years to come

Equality and Efficiency REV Arthur M. Okun, 2015-04-30 Originally published in 1975 Equality and Efficiency The Big Tradeoff is a very personal work from one of the most important macroeconomists of the last hundred years And this new edition includes Further Thoughts on Equality and Efficiency a paper published by the author two years later In classrooms Arthur M Okun may be best remembered for Okun's Law but his lasting legacy is the respect and admiration he earned from economists practitioners and policymakers Equality and Efficiency is the perfect embodiment of that legacy valued both by professional economists and those readers with a keen interest in social policy To his fellow economists Okun presents messages in the form of additional comments and select citations in his footnotes To all readers Okun presents an engaging dual theme the market needs a place and the market needs to be kept in its place As Okun puts it Institutions in a capitalist democracy prod us to get ahead of our neighbors economically after telling us to stay in line socially This double standard professes and pursues an egalitarian political and social system while simultaneously generating gaping disparities in economic well being Today Okun's dual theme feels incredibly prescient as we grapple with the hot button topic of income inequality In his foreword Lawrence H Summers declares On what one might think of as questions of economic philosophy I doubt that Okun has been improved on in the subsequent interval His discussion of how societies rely on rights as well as markets should be required reading for all young economists who are enamored with market solutions to all problems With a new foreword by Lawrence H Summers *Hearings on H.R. 4000, the Civil Rights Act of 1990* United States.
