## **John Heartfield:**

JOHN HEARTFIELD 1891-1968 John Heartfield, 1969      **John Heartfield** John Heartfield, Peter Pachnicke, Klaus Honnef, 1992 German artist John Heartfield Helmut Herzfeld 1891 1968 is known primarily as one of the inventors of photomontage pictures made from fragments of photographs and other visual material This book is a study of the artist's work      **John Heartfield** Douglas Kahn, 1985      *The Proletarian Dream* Sabine Hake, 2017-09-11 The proletariat never existed but it had a profound effect on modern German culture and society As the most radicalized part of the industrial working class the proletariat embodied the critique of capitalism and the promise of socialism But as a collective imaginary the proletariat also inspired the fantasies desires and attachments necessary for transforming the working class into a historical subject and an emotional community This book reconstructs this complicated and contradictory process through the countless treatises essays memoirs novels poems songs plays paintings photographs and films produced in the name of the proletariat The Proletarian Dream reads these forgotten archives as part of an elusive collective imaginary that modeled what it meant and even more important how it felt to claim the name proletarian with pride hope and conviction By emphasizing the formative role of the aesthetic the eighteen case studies offer a new perspective on working class culture as a oppositional culture Such a new perspective is bound to shed new light on the politics of emotion during the main years of working class mobilizations and as part of more recent populist movements and cultures of resentment Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures 2018      **John Heartfield 1891-1968** Arts Council of Great Britain, John Heartfield, 1969      **Identity and Image** Jutta Vinzent, 2006-06-22 This book explores the image and identity of migr painters sculptors and graphic artists from Nazi Germany in Britain between 1933 and 1945 It focuses on a neglected field of Exile Studies that of exiled artists in Britain Methodologies used in this study have been developed by Exile Studies and History of Art but also by Postcolonialism scholars of which usually apply their ideas to the Afro Asian emigration of the second part of the twentieth century Thus this study represents methodologically a new way of looking at the emigration from Nazi Germany Identity and Image is divided into five chapters After an introductory Chapter One historiography of the topic methodology of the study structure of the book Chapter Two establishes socio political patterns of emigration and provides an historical framework for Chapters Three and Four which concentrate on the image and identity of the refugee artist the former based on written sources and the latter on visual material In detail Chapter Three analyses the British image of the refugee artists and their works on the one hand and the migr's self representations on the other the latter exemplified by refugee organisations the Free German League of Culture Freier Deutscher Kulturbund the Austrian Centre the Anglo Sudeten Club and the Czech Institute and institutions founded by migr artists Jack Bilbo's Modern Art Gallery and Arthur Segal's Painting School Chapter Four examines the works produced in internment and those exhibited and produced for the refugee organisations discussed in Chapter Three Chapter Five discusses the results of this study in the

light of three postcolonial concepts diaspora communities the notion of home and the gendered identity of the refugee The appendix lists all painters sculptors and graphic artists from Nazi Germany in Britain with biographical details Apart from visual and written sources discussed for the first time there are two major results of the study First although the artists were united as refugees this unity did not lead to a unity in art refugee art is a construction put forward by the British press and the refugee organisations particularly the Free German League of Culture Second contrary to claims that modern art was international and formed a universal unity that transgressed nationality neither the West Europe nor modernism form unities instead in the 1930s and 1940s cultures in Europe constructed conceptions of other European cultures on the basis of nation state identities

Unmasking Hitler Klaus L. Berghahn, Jost Hermand, 2005 Among the many studies on German National Socialism that have appeared in the last forty to fifty years one aspect has seldom been treated in detail the cultural representations of Adolf Hitler from the late 1920s to the present This book focuses on the image of Hitler in literature photography historiography film philosophy theatre and comic books by major artists and scholars such as Ernst Ottwalt Heinrich Hoffmann Bertolt Brecht John Heartfield Leni Riefenstahl Charles Chaplin Theodor W Adorno Heiner Muller and George Tabori

published book *The Art of Political Photomontage Advice for the Artist* 1983 In an era when satirical photomontage thrives on the Internet and propaganda has reasserted itself in America and Russia alike this study of a once prominent yet internationally undiscovered artist is more than timely **John Heartfield** Museum of Modern Art (N.Y.),1993 The Dialectics of Seeing Susan Buck-Morss,1991-07-01 Walter Benjamin's magnum opus was a book he did not live to write In *The Dialectics of Seeing* Susan Buck Morss offers an inventive reconstruction of the *Passagen Werk* or *Arcades Project* as it might have taken form Working with Benjamin's vast files of citations and commentary which contain a myriad of historical details from the dawn of consumer culture Buck Morss makes visible the conceptual structure that gives these fragments philosophical coherence She uses images throughout the book to demonstrate that Benjamin took the debris of mass culture seriously as the source of philosophical truth The *Paris Arcades* that so fascinated Benjamin as they did the Surrealists whose materialist metaphysics he admired were the prototype the 19th century ur form of the modern shopping mall Benjamin's dialectics of seeing demonstrate how to read these consumer dream houses and so many other material objects of the time from air balloons to women's fashions from Baudelaire's poetry to Grandville's cartoons as anticipations of social utopia and simultaneously as clues for a radical political critique Buck Morss plots Benjamin's intellectual orientation on axes running east and west north and south Moscow Paris Berlin Naples and shows how such thinking in coordinates can explain his understanding of dialectics at a standstill She argues for the continuing relevance of Benjamin's insights but then allows a set of afterimages to have the last word John Heartfield David King,Ernst Volland,2015-10-27 This large format overview of the work of John Heartfield draws on the superlative collections of the *Academie der Kunst Berlin* and the David King collection at Tate Modern **Revolutionary Beauty** Sabine Kriebel,2014-02-21 It is difficult to write brilliantly about humor more difficult to write engagingly about humor and politics and more difficult still to write with precision about humor politics and art *Revolutionary Beauty* is indispensable for understanding the singular genius of John Heartfield the Weimar era avant garde virtuoso whose photomontages created a new visual language for destabilizing and ridiculing Nazism's rise and triumph Anson Rabinbach Professor of History at Princeton University and author of *The Third Reich Sourcebook* Historically precise and theoretically astute this is by far the most wide ranging study of John Heartfield's extraordinary project to date Sabine Kriebel goes beyond a single oeuvre to unearth patiently but provocatively the complex visual imaginary of the Left in the darkest moments of its history Frederic J Schwartz author of *Blind Spots Critical Theory and the History of Art in Twentieth Century Germany* and *The Werkbund Design Theory and Mass Culture Before the First World War* This book by Sabine Kriebel fills a void in an exemplary mode of critical cultural scholarship promising to take a major place in the fields of 20th century photography mass media European cultural studies and modern art I laud the unprecedented depth of analysis in her probing of specific images and their particular relation to ever changing events in this period Attention to this book will radiate centripetally engaging the interest of a new generation of avid and often extra
