John Muir Wilderness Protector:

John Muir, Wilderness Protector Ginger Wadsworth, 1992 A biography of the naturalist and explorer who helped found the Sierra Club and was influential in the development of our national park system **Nevada Wilderness Protection Act of 1989** United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands, National Parks, and Forests, 1989 **Protecting the Third Pole** Simon Marsden, 2019 This highly topical book considers the important question of how best to protect the environment of the Third Pole the area comprising the Hindu Kush Himalayas and Tibetan Plateau using the tool of international law Following detailed analysis of the weaknesses in the current legal protections according to comparative legal theory Simon Marsden recommends three potential options for implementation by policy and lawmakers *California Desert Protection Act* United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on National Parks and Public Lands, 1991 *California Desert Protection Act of 1987* United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands, National Parks, and Forests, 1987 *Ansel Adams, John Muir, Dinkey Lakes and Monarch Wildernesses, Proposed New Management Direction, Amending the Land and Resource Management Plans for the Inyo National Forest (N.F.), Sierra National Forest (N.F.) and Sequoia National Forest (N.F.)*, 2001 *General Technical Report RM.*, 1990 Tongass National Forest United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands, National Parks, and Forests, 1989 Coming Home to Earth Mark S. Bocker, 2016-09-13 As a young Norwegian Lutheran teenager in rural Wisconsin Bocker lay awake one night worrying whether he believed in Jesus enough to get to heaven This getting to heaven anxiety reflected an excessive focus on individual salvation and a loss of concern for the well being of the Earth community A faith journey that leaves Earth behind is misguided Ever since those early teen years Bocker has been on a journey to come home to Earth Coming Home to Earth makes the case that there is no salvation apart from Earth and that Earth care is at the core of our identity and mission as followers of Jesus The ecological consequences of a loss of concern for the well being of Earth have been devastating Bocker is especially concerned to determine what will motivate followers of Jesus to make radical changes in our way of life so that we can participate in the healing of wounded Earth and all of its inhabitants both human and nonhuman We are far more likely to make needed sacrifices for our fellow creatures if we share God's delight in and affection for them and cherish Earth as our home Strategies for Protection and Management of Floodplain Wetlands and Other Riparian Ecosystems Raymond Roy Johnson, United States. Forest Service, 1979 Out of the Shadow Rinda West, 2007 In western culture the separation of humans from nature has contributed to a schism between the conscious reason and the unconscious dreaming psyche or internal human nature Our increasing lack of intimacy with the land has led to a decreased capacity to access parts of the psyche not normally valued in a capitalist culture In *Out of the Shadow Ecopsychology Story and Encounters with the Land* Rinda West uses Jung's idea of

the shadow to explore how this divorce results in alienation projection and often breakdown Bringing together ideas from analytical psychology environmental thought and literary studies West explores a variety of literary texts including several by contemporary American Indian writers to show through a sort of geography of the psyche how alienation from nature reflects a parallel separation from the nature that constitutes the unconscious Through her analysis of narratives that offer images of people confronting shadow reconnecting with nature and growing psychologically and ethically West reveals that when characters enter into relationship with the natural world they are better able to confront and reclaim shadow By writing from the shadows West argues that contemporary writers are exploring ways of being human that have the potential for creating more just and honorable relationships with nature and more sustainable communities For ecocritics conservation activists scholars and students of environmental studies and American Indian studies and ecopsychologists *Out of the Shadow* offers hope for humans wishing to reconcile with themselves with nature and with community
