John Muir, Terry Gifford

John Muir:

The Wilderness World of John Muir John Muir, 2001 John Muir's extraordinary vision of America comes to life in these fascinating selections from his personal journals. As a conservationist, John Muir traveled through most of the American wilderness alone and on foot without a gun or a sleeping bag. In 1903 while on a three-day camping trip with President Theodore Roosevelt, he convinced the president of the importance of a national conservation program, and he is widely recognized for saving the Grand Canyon and Arizona's Petrified Forest. Muir's writing, based on journals he kept throughout his life, gives a view of the American landscape before it was largely settled by farms and towns. In *The Wilderness World of John Muir*, Edwin Way Teale has selected the best of Muir's writing from all of his major works, including *My First Summer in the Sierra* and *Travels in Alaska*, to provide a singular collection that provides to be magnificent, thrilling, exciting, breathtaking, and awe-inspiring. [A Passion for Nature](#) Donald Worster, 2008-10-21 I am hopelessly and forever a mountaineer. John Muir wrote, "Civilization and fever and all the morbidity that has been hooted at me has not dimmed my glacial eye and I care to live only to entice people to look at Nature's loveliness. My own special self is nothing." In Donald Worster's magisterial biography, John Muir's special self is fully explored, as is his extraordinary ability then and now to get others to see the sacred beauty of the natural world. *A Passion for Nature* is the most complete account of the great conservationist and founder of the Sierra Club ever written. It is the first to be based on Muir's full private correspondence and to meet modern scholarly standards. Yet it is also full of rich detail and personal anecdote, uncovering the complex inner life behind the legend of the solitary mountain man. It traces Muir from his boyhood in Scotland and frontier Wisconsin to his adult life in California right after the Civil War up to his death on the eve of World War I. It explores his marriage and family life, his relationship with his abusive father, his many friendships with the humble and famous, including Theodore Roosevelt and Ralph Waldo Emerson, and his role in founding the modern American conservation movement. Inspired by Muir's passion for the wilderness, Americans created a long and stunning list of national parks and wilderness areas. Yosemite, most prominent among them. Yet the book also describes a Muir who was a successful fruit grower, a talented scientist, and world traveler, a doting father and husband, a self-made man of wealth and political influence. A man for whom mountaineering was a pathway to revelation and worship. For anyone wishing to more fully understand America's first great environmentalist and the enormous influence he still exerts today, Donald Worster's biography offers a wealth of insight into the passionate nature of a man whose passion for nature remains unsurpassed.

John of the Mountains John Muir, 1979 John Muir, America's pioneer conservationist and father of the national park system, was a man of considerable literary talent. As he explored the wilderness of the western part of the United States for

decades he carried notebooks with him narrating his wanderings describing what he saw and recording his scientific researches This reprint of his journals edited by Linnie Marsh Wolfe in 1938 and long out of print offers an intimate picture of Muir and his activities during a long and productive period of his life The sixty extant journals and numerous notes in this volume were written from 1867 to 1911 They start seven years after the time covered in *The Story of My Boyhood and Youth* Muir's uncompleted autobiography The earlier journals capture the essence of the Sierra Nevada and Alaska landscapes The changing appearance of the Sierras from Sequoia north and beyond the Yosemite enthralled Muir and the first four years of the journals reveal his dominating concern with glacial action The later notebooks reflect his changes over the years showing a mellowing of spirit and a deep concern for human rights Like all his writings the journals concentrate on his observations in the wilderness His devotion to his family his many warm friendships and his many sided public life are hardly mentioned Very little is said about the quarter century battle for national parks and forest reserves The notebooks record in language fuller and freer than his more formal writings the depth of his love and transcendental feeling for the wilderness The rich heritage of his native Scotland and the unconscious music of the poetry of Burns Milton and the King James Bible permeate the language of his poetic fancy In his later life Muir attempted to sort out these journals and at the request of friends published a few extracts A year after his death in 1914 his literary executor and biographer William Frederick Bad also published episodes from the journals Linnie Marsh Wolfe set out to salvage the best of his writings still left unpublished in 1938 and has thus added to our understanding of the life and thought of a complex and fascinating American figure
