John Muir Natures Visionary:

John Muir Gretel Ehrlich, 2000 In this definitive photobiography Ehrlich brings her award winning grace insight to the life of one of our nation s most prized environmental heroes John Muir a founder of the Sierra Club *John Muir* Sally M. Miller, Daryl Morrison, 2005 New information on the life of the famed environmentalist presented in 2001 at the John Muir Institute hosted by the John Muir Center **The Contemplative John Muir** Stephen Hatch, 2012-01-01 John Muir is best known for his work in preserving the great natural areas of America What is not commonly known is that he was also a great contemplative thinker a sort of wilderness mystic one who experienced union with the Divine through contact with the great natural areas of the Western United States Muir s preservation efforts were motivated in large part by his experience of the spiritual dimension of Nature It was Muir s earthy mysticism that motivated him to work so diligently for the preservation of wild places which he viewed as God s First Temples This book is a sort of bible of Muir quotations related to a vibrant and ecstatic spirituality of Nature It includes a new selection of never before published selections from original journals contained in the John Muir Papers as well as passages from his published works Anyone interested in experiencing a deeper communion with Nature will find this book invaluable **Selected Writings of John Muir** John Muir, 2017-04-04 A new collection of the seminal writings of America s first naturalist and the founder of the modern conservation movement AN EVERYMAN S LIBRARY ORIGINAL This volume of John Muir s selected writings chronicles the key turning points in his life and study of the American wilderness The Story of My Boyhood and Youth is Muir s account of his childhood on a Wisconsin farm where his interest in nature was first piqued in The Mountains of California The Yosemite and Travels in Alaska we follow him on long journeys into stunning mountain ranges and valleys where he records native flora and fauna and finds proof of his theories of the effect of glaciers on landscape formation These four full length works along with a selection of important essays helped galvanize American naturalists and led to the founding of the Sierra Club and several national parks In these pages written with meticulous thoroughness and an impassioned lyricism we witness Muir s awakening to the incredible beauty of our planet and the honing of an eye turned as acutely toward the scientific as the spiritual **John Muir Nature and Conservation** Sebastian Hale, Muir s writings and advocacy led to the creation of national parks in the U S He made wilderness preservation a spiritual and civic calling **A Passion for Nature** Donald Worster, 2008 Donald Worster s A Passion for Nature is the most complete account of the great conservationist and founder of the Sierra Club ever written It is the first to be based on Muir s full private correspondence and to meet modern scholarly standards yet it is also full of rich detail and personal anecdote uncovering the complex inner life behind the legend of the solitary mountain man It traces Muir from his boyhood in Scotland and frontier Wisconsin to his adult life in California right after the Civil War up to his death on the eve of World War I It explores his marriage and family life his relationship with his abusive father his many friendships with the humble and famous including Theodore Roosevelt and Ralph Waldo Emerson and his role in founding the

modern American conservation movement Inspired by Muir s passion for the wilderness Americans created a long and stunning list of national parks and wilderness areas Yosemite most prominent among them Yet the book also describes a Muir who was a successful fruit grower a talented scientist and world traveler a doting father and husband and a self made man of wealth and political influence The winner of numerous book awards A Passion for Nature was also named a Best Book of 2008 by Washington Post Book World It is the first comprehensive biography of Muir to appear in six decades **John**

Muir's Last Journey John Muir, 2013-04-10 I am now writing up some notes but when they will be ready for publication I do not know It will be a long time before anything is arranged in book form These words of John Muir written in June 1912 to a friend proved prophetic The journals and notes to which the great naturalist and environmental figure was referring have languished unpublished and virtually untouched for nearly a century Until now Here edited and published for the first time John Muir s travel journals from 1911 12 along with his associated correspondence finally allow us to read in his own words the remarkable story of John Muir s last great journey Leaving from Brooklyn New York in August 1911 John Muir at the age of seventy three and traveling alone embarked on an eight month 40 000 mile voyage to South America and Africa The 1911 12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon into the jungles of southern Brazil to snowline in the Andes through southern and central Africa to the headwaters of the Nile and across six oceans and seas in order to reach the rare forests he had so long wished to study Although this epic journey has received almost no attention from the many commentators on Muir s work Muir himself considered it among the most important of his life and the fulfillment of a decades long dream John Muir s Last Journey provides a rare glimpse of a Muir whose interests as a naturalist traveler and conservationist extended well beyond the mountains of California It also helps us to see John Muir as a different kind of hero one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged and as a private person and family man with genuine affections ambitions and fears not just an iconic representative of American wilderness With an introduction that sets Muir s trip in the context of his life and work along with chapter introductions and a wealth of explanatory notes the book adds important dimensions to our appreciation of one of America s greatest environmentalists John Muir s Last Journey is a must reading for students and scholars of environmental history American literature natural history and related fields as well as for naturalists and armchair travelers everywhere John

Muir Wrestles a Waterfall Julie Danneberg, 2015-03-10 TUMBLING RUMBLING TWISTING MISTING FOAMING THUNDERING waterfall Conservationist and naturalist John Muir steps outside his cabin in California s Yosemite Valley on a moonlit April night in 1871 Admiring the beauty of the nearby upper Yosemite Falls he moves closer and closer to the waterfall until he reaches Fern Ledge A gust of wind lifts the water away from the rock and John scoots behind the fall with the rumbling of the powerful water pounding in his chest Suddenly the wind stops and John finds himself pinned against the mountain How will he escape the pounding thundering hold that the water has on him Jamie Hogan s beautiful pastel pencil

illustrations capture the tranquility and majesty of John Muir's surroundings in Yosemite Valley Secondary text provides more detail on Muir's life Information about Muir and the Yosemite Valley a list for further reading a bibliography and an archival photo of Muir are included as backmatter **John Muir and the Ice That Started a Fire** Kim Heacox, 2014-04-01 A dual biography of two of the most compelling elements in the narrative of wild America John Muir and Alaska John Muir was a fascinating man who was many things inventor scientist revolutionary druid a modern day Celtic priest husband son father and friend and a shining son of the Scottish Enlightenment both in temperament and intellect Kim Heacox author of *The Only Kayak* bring us a story that evolves as Muir's life did from one of outdoor adventure into one of ecological guardianship Muir went from impassioned author to leading activist The book is not just an engaging and dramatic profile of Muir but an expose on glaciers and their importance in the world today Muir shows us how one person changed America helped it embrace its wilderness and in turn gave us a better world December 2014 will mark the 100th anniversary of Muir's death Muir died of a broken heart some say when Congress voted to approve the building of Hetch Hetchy Dam in Yosemite National Park Perhaps in the greatest piece of environmental symbolism in the U.S. in a long time on the California ballot this November is a measure to dismantle the Hetch Hetchy Dam Muir's legacy is that he reordered our priorities and contributed to a new scientific revolution that was picked up a generation later by Aldo Leopold and Rachel Carson and is championed today by influential writers like E.O. Wilson and Jared Diamond Heacox will take us into how Muir changed our world advanced the science of glaciology and popularized geology How he got people out there How he gave America a new vision of Alaska and of itself *Ecological Restoration and the U.S. Nature and Environmental Writing Tradition* Laura Smith, 2022-01-12 This book presents a critical history of the intersections between American environmental literature and ecological restoration policy and practice Through a storying restorying restoring framework this book explores how entanglements between writers and places have produced literary interventions in restoration politics The book considers the ways literary landscapes are politicized by writers themselves and by conservationists activists policymakers and others in defense of U.S. public lands and the idea of wilderness The book profiles five environmental writers and examines how their writings on nature wilderness wilderness conservation preservation and restoration have variously inspired and been translated into ecological restoration programs and campaigns by environmental organizations The featured authors are Henry David Thoreau 1817-1862 at Walden Pond John Muir 1838-1914 in Yosemite National Park Aldo Leopold 1887-1948 at his family's Wisconsin sand farm Marjory Stoneman Douglas 1890-1998 in the Everglades and Edward Abbey 1927-1989 in Glen Canyon This book combines environmental history literature biography philosophy and politics in a commentary on considering and developing environmental literature's place in conversations on restoration ecology ecological restoration and rewilding John Muir John Muir, 2013 John Muir 1848-1914 was a Scottish born American naturalist whose writings contributed to the preservation of Yosemite and other natural parks and helped spark the modern environmental movement

He is the founder of the Sierra Club which numbers hundreds of thousands of members This volume draws on his letters journals and other writings to explore the deep spiritual dimension of his affinity with nature an aspect of his work that is seldom explored

competitive exclusion taxa niches and succession It then goes on to describe the major biomes and communities that characterize the rich biota of the continent starting with the Tundra and continuing with Boreal Forest Deciduous Forest Grasslands Deserts Montane Forests and Temperate Rain Forest among others Coastal environments including the Laguna Madre seagrasses Chesapeake Bay and barrier islands appear in a new chapter Additionally the book covers many unique features such as pitcher plant bogs muskeg the polar ice cap the cloud forests of Mexico and the LaBrea tar pits Infoboxes have been added these include biographies of historical figures who provided significant contributions to the development of ecology unique circumstances such as frogs and insects that survive freezing and conservation issues such as those concerning puffins and island foxes Throughout the text ecological concepts are worked into the text these include biogeography competitive exclusion succession soil formation and the mechanics of natural selection Ecology of North America 2e is an ideal first text for students interested in natural resources environmental science and biology and it is a useful and attractive addition to the library of anyone interested in understanding and protecting the natural environment

The Wilderness World of John Muir John Muir, 2001 John Muir's extraordinary vision of America comes to life in these fascinating selections from his personal journals As a conservationist John Muir traveled through most of the American wilderness alone and on foot without a gun or a sleeping bag In 1903 while on a three day camping trip with President Theodore Roosevelt he convinced the president of the importance of a national conservation program and he is widely recognized for saving the Grand Canyon and Arizona's Petrified Forest Muir's writing based on journals he kept throughout his life gives a view of the American landscape before it was largely settled by farms and towns In The Wilderness World of John Muir Edwin Way Teale has selected the best of Muir's writing from all of his major works including My First Summer in the Sierra and Travels in Alaska to provide a singular collection that provides to be magnificent thrilling exciting breathtaking and awe inspiring Kirkus Reviews **The Gilded Age & Progressive Era** Elisabeth Israels Perry, Karen Manners Smith, 2006-10-30 More than 250 entries provide information on a wide range of topics related to the Gilded Age and Progressive Era covering the economic political and cultural changes and expansions that took place from 1877 to 1920

Introduction to Recreation and Leisure Tyler Tapps, Mary Sara Wells, 2025 Introduction to Recreation and Leisure Fourth Edition presents a comprehensive view of the multifaceted field of recreation and leisure It delves into foundational concepts delivery systems and programming services Over 40 leading experts from around the globe offer their diverse perspectives **The Only Kayak** Kim Heacox, 2020-05-01 Winner of the 2020 National Outdoor Book Award for Outdoor Classic In this coming of middle age memoir Kim Heacox writing in the tradition of Abbey McPhee and Thoreau discovers an Alaska reborn from beneath a massive glacier where flowers emerge from boulders moose swim fjords and bears cross crevasses with Homeric resolve In such a place Heacox finds that people are reborn too and their lives begin anew with incredible journeys epiphanies and successes All in an America free of crass commercialism and overdevelopment Braided

through the larger story are tales of gold prospectors and the cabin they built sixty years ago John Muir and his intrepid terrier Stickeen and a dynamic geology professor who teaches earth science as if every day were a geological epoch Nearly two million people come to Alaska every summer some on large cruise ships some in single kayaks all in search of the last great wilderness the Africa of America It is exactly the America Heacox finds in this story of paradox love and loss A *Religion of Nature* Donald A. Crosby, 2012-02-01 The beauty sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature's ultimate explanation and meaning In a radical departure Donald A Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God gods or animating spirits of any kind and argues that nature is metaphysically ultimate He explores the concept of nature the place of humans in nature the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence awe love and devotion formerly reserved for God Crosby also shares his personal journey from theistic faith to a religion of nature
