The Nietzsche Legacy in Germany Steven E. Aschheim, 1994-02-25

Conservatism, Consumer Choice, and the Food and Drug

Administration during the Reagan Era Lucas Richert, 2014-05-16 In the last quarter of the 20th century politicians in Washington as well as interest groups regulatory policy makers and drug industry leaders were forced to confront the hot button issue of pharmaceutical regulation. The struggle always centered on product innovation consumer protection and choice in the free market. As the American economy stuttered in the late 1970s the stakes were extremely high for the powerful drug industry and the American public. At the center of this drama was the Food and Drug Administration which was censured from both the left and right of the political spectrum for being too strict and too lenient in the application of its regulatory powers. Lucas Richert explores the FDA drugs and politics in the context of the watershed Reagan era a period when the rhetoric of limited government reduced regulation and enhanced cooperation between businesses and U.S. regulatory agencies was on the ascent. As he investigates the controversies surrounding Laetrile Reye's Syndrome Oraflex patient package inserts diet pills and HIV AIDS drugs Richert argues that the practical application of conservative economic principles to the American drug industry was a Prescription for Scandal. *Lombard Legacy* John Mitchell, 2018-12-31 Using the great south Italian monastery of San Vincenzo al Volturno one of the best preserved monasteries of the earliest Middle Ages as a case study and heuristic paradigm John Mitchell has engaged in a wide ranging examination of the ways in which visual culture was developed and deployed by ambitious states and institutions in early medieval Europe. The present volume includes studies on the cultural dynamics of Italy and its contribution to the visual complexion of Europe in the period as well as essays on many aspects of the artistic culture of San Vincenzo including a series of papers on the display of script in the physical fabric of the monastery and the prominent role it played in its self image. **Rehabilitation Interventions**
