Excerpt from **Fancies Versus Fads** There is indeed nothing very extraordinary about these visions except the extraordinary people who have provoked some of them They are only a very sketchy sort of sketches of some of the strange things that may be found in the modern world But however inadequate be the example it is none the less true that this is the sound principle behind much better examples and that in those great things as in these small ones sanity was the condition of satire It is because Gulliver is a man of moderate stature that he can stray into the land of the giants and the land of the pygmies It is Swift and not the professors of Laputa who sees the real romance of getting sunbeams out of cucumbers It would be less than exact to call Swift a sunbeam in the house but if he did not himself get much sunshine out of cucumbers at least he let daylight into professors It was not the mad Swift but the sane Swift who made that story so wild The truth is more self evident in men who were more sane It is the good sense of Rabelais that makes him seem to grin like a gargoye and it is in a sense because Dickens was a Philistine that he saw the land so full of strange gods These idle journalistic jottings have nothing in common with such standards of real literature About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

the more elaborate nonsense of the Gilbertian line or even the far less poetic nonsense of some of the Browningsque rhymes But the true enjoyment of poetry is always in having the simple pleasure as well as the subtle pleasure Indeed it is on this primary point that so many of our artistic and other reforms seem to go wrong What is the matter with the modern world is that it is trying to get simplicity in everything except the soul Where the soul really has simplicity it can be grateful for anything even complexity Many peasants have to be vegetarians and their ordinary life is really a simple life But the peasants do not despise a good dinner when they can get it they wolf it down with enthusiasm because they have not only the simple life but the simple spirit And it is so with the modern modes of art which revert very rightly to what is primitive But their moral mistake is that they try to combine the ruggedness that should belong to simplicity with a superciliousness that should only belong to satiety The last Futurist draughtsmanship for instance evidently has the aim of drawing a tree as it might be drawn by a child of ten I think the new artists would admit it nor do I merely sneer at it I am willing to admit especially for the sake of argument that there is a truth of philosophy and psychology in this attempt to attain the clarity even through the crudity of childhood In this sense I can see what a man is driving at when he draws a tree merely as a stick with smaller sticks standing out of it He may be trying to trace in black and white or grey a primeval and almost prenatal illumination that it is very remarkable that a stick should exist and still more remarkable that a stick should stick up or stick out He may be similarly enchanted with his own stick of charcoal or grey chalk he may be enraptured as a child is with the mere fact that it

makes a mark on the paper a highly poetic fact in itself But the child does not despise the real tree for being different from his drawing of the tree He does not despise Uncle Humphrey because that talented amateur can really draw a tree He does not think less of the real sticks because they are live sticks and can grow and branch and curve in a way uncommon in walking sticks Because he has a single eye he can enjoy a double pleasure This distinction which seems strangely neglected may be traced again in the drama and most other domains of art Reformers insist that the audiences of simpler ages were content with bare boards or rudimentary scenery if they could hear Sophocles or Shakespeare talking a language of the gods They were very properly contented with plain boards But they were not discontented with pageants The people who appreciated Antony's oration as such would have appreciated Aladdin's palace as such They did not think gilding and spangles substitutes for poetry and philosophy because they are not But they did think gilding and spangles great and admirable gifts of God because they are The Islamic Review ,1916 **Fancies Versus Fads** G K Chesterton,2020-05-27 The Romance of Rhyme Hamlet and the Psycho AnalystThe Meaning of Mock TurkeyShakespeare and the Legal LadyOn Being an Old BeanThe Fear of the FilmWings and the HousemaidThe Slavery of Free VerseProhibition and the PressThe Mercy of Mr Arnold BennettA Defence of Dramatic UnitiesThe Boredom of ButterfliesThe Terror of a ToyFalse Theory and the TheatreThe Secret Society of MankindThe Sentimentalism of DivorceStreet Cries and Stretching the LawThe Revolt of the Spoilt ChildThe Innocence of the CriminalThe Prudery of the FeministsHow Mad Laws are MadeThe Pagoda of ProgressThe Myth of the MayflowerMuch Too Modern HistoryThe Evolution of SlavesIs Darwin Dead Turning Inside OutStrikes and the Spirit of WonderA Note on Old NonsenseMilton and Merry England The Listener ,1929 The Haunting of Twenty-First-Century America William J. Birnes,Joel Martin,2013-12-17 In this companion volume to The Haunting of America and The Haunting of Twentieth Century America national bestselling authors William J Birnes and Joel Martin explore today's intellectual and spiritual awakening one that is challenging traditional belief systems Birnes and Martin show that though many governments deny the importance of a spiritual component to national policy even the most conservative governments have based social and financial policy decisions on a profound belief in the existence of the paranormal ghosts and spirits From using psychic spying programs to gather intelligence on enemy nations to investigating the use of mind control to impede the abilities of hostile troops the U S government has continuously developed paranormal weapons and tactics alongside their more mundane counterparts U S Presidents from Franklin Pierce through Ronald Reagan regularly relied on the paranormal using trance mediums channelers and astrologists to help plan agendas and travel schedules The Haunting of Twenty First Century America is unlike any American history you will ever read it posits that not only is the paranormal more normal than most people think but that it is driving current events to a new Fourth Culture of the twenty first century At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied The Keystone ,1926
