The Failure of Soviet Economic Planning Robert Wellington Campbell, 1992 *The Collapse of the Soviet Union, 1985-1991* David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesman Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures **The Failure of Soviet Economic Planning** Robert Wellington Campbell, 1992 Although the Soviet Union's centrally planned economic system played a significant role in world economic growth and modernization it ultimately failed to compete with market forms of economic organization Despite unavailing efforts at reform it has now been abandoned as the republics of the former USSR move painfully toward the market Robert W Campbell one of the most respected U S specialists on the economy of the former Soviet Union probes the evolution behavior and fatal weaknesses of the Soviet administrative command economy His essays cover a broad set of perspectives theoretical interpretation of the Soviet type economy and the growth model that went with it concrete analyses of individual sections and functions evaluation of the microeconomics of Soviet decision making and descriptions of attempts at institutional and doctrinal reforms They provide instructive background on some of the biggest problems now facing the Commonwealth of Independent States such as the monetary and fiscal collapse engendered by reform the looming fuel and energy disaster and the seemingly intractable task of transforming the military industrial complex and integrating its resources into the civilian economy Robert W Campbell's outstanding work provides an indispensable resource for understanding what the Soviet economic system was and the problems it faced in the transition to the market model *Lessons from the Failure of the Communist Economic System* Ladislav Rusmich, Stephen M. Sachs, 2004-04-01 Why have the neoliberal economic programs aimed at transforming Eastern Europe to a market economy and democracy since 1989 not only experienced unanticipated difficulties but more importantly failed to achieve their expected progress Dr Ladislav Rusmich and Dr Stephen M Sachs offer a comprehensive and critical study that examines this specific question and concludes that the cultural and institutional conditions created by communism must be overcome in order to critique previous policies and propose a better direction Drawing on the experiences of Dr Rusmich who for many

years was an important participant in the communist economic apparatus and who is also among the leaders attempting to reform it during the Prague Spring of 1968 this work corrects common misconceptions among mainstream economists about the workings of communist economies Lessons from the Failure of the Communist Economic System is a first hand expert account that provides useful economic lessons applicable to the first world concerning such topics as the role of power in the economy monopoly bureaucracy market culture and ethics to name a few The American Bibliography of Slavic and East European Studies Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Reluctant Cold Warriors** Vladimir Kontorovich, 2019 During the Cold War Western economic studies of the USSR neglected the military sector of the Soviet economy Were economic Sovietologists under political pressure and if so in what direction This book has broad relevance for national security uses of social science research today Adapted from dust jacket **The American Bibliography of Slavic and East European Studies for 1994** Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs *After the Berlin Wall* K. Gerstenberger, J. Brazier, 2011-11-21 Twenty years after its fall the wall that divided Berlin and Germany presents a conceptual paradox on one hand Germans have sought to erase it completely on the other it haunts the imagination in complex and often surprising ways **The Future of the Soviet Economic Planning System (Routledge Revivals)** David A. Dyker, 2013-09-27 On its publication in 1985 this book offered a fresh analysis of the problems faced by the Soviet economy by focussing on the key issues in the economic planning system David Dyker considers the available options for reform during the 1980s and the most likely developments Discussing the origins of the Soviet economic planning system and the theories which founded it previous attempts to reform the organisational structure and the particular problem of agriculture Dyker presents a picture of an increasingly bleak future for the Soviet economy This is a comprehensive title written by a renowned expert on the Soviet economy which will be of particular value to students and academics researching the political and economic development and history of the Soviet Union Redeemer Nation Orrin Schwab, 2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer

Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission

Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example
