The guide that takes the guesswork out of Fair Housing Act Accessibility Guidelines conformance The Federal government is stepping up its enforcement of the Fair Housing Act Accessibility Guidelines and failure to comply with these guidelines can result in a complaint for discriminatory housing practice A Basic Guide to Fair Housing Accessibility enables building professionals to avoid these charges with clear concise interpretations of the Guidelines and descriptive illustrations of proper conformance Inspired by the author's HUD sponsored review of nearly 400 built projects this compact yet comprehensive guide reviews the guidelines for conformance with the seven basic design and construction requirements of the Fair Housing Amendments Act from accessible building entrances to usable kitchens and points out common conformance errors made by architects builders and developers This practical easy to follow handbook Demystifies accessibility guidelines and reduces the risk of litigation Explains which buildings and units are covered by the law Provides a compliance checklist for multifamily housing design and construction Featuring only the facts and technical guidance needed to help ensure conformance with the Guidelines A Basic Guide to Fair Housing Accessibility is an indispensable resource for architects builders contractors site engineers and developers who need to know that their work is in conformance with Federal guidelines

Fair Housing Act Design Manual U. S. Department of Housing and Urban Development, 2011-08-31

The Department is pleased to present the Fair Housing Act Design Manual The manual was first published in August 1996 and was updated in 1998 This republication of the 1998 manual is intended to provide clear and helpful guidance about ways to design and construct housing that complies with the Fair Housing Act The manual provides comprehensive information about accessibility requirements which must be incorporated into the design and construction of multifamily housing covered by the Act It clarifies out two statutory responsibilities first it provides a clear statement of HUD's interpretation of the accessibility requirements of the Act so that readers may know what actions on their part will provide them with a safe harbor and second it provides guidance in the form of recommendations which meet the Department's obligation to provide technical assistance on alternative accessibility approaches Readers following the revised manual can rely on it They will be in compliance with the Act's accessibility provisions if they carry them out However it should be noted that when the manual uses the terms recommended preferred should could or uses italics or text labeled as recommended the material involved is provided as a suggestion for accessibility and not a requirement under the Act In addition HUD currently recognizes six other safe harbors for compliance with the Fair Housing Act's design and construction requirements The other safe harbors are HUD's March 6 1991 Fair Housing Accessibility Guidelines the Guidelines and the June 28 1994 Supplemental Notice to Fair Housing Accessibility Guidelines Questions and Answers about the Guidelines 2 ANSI A117.1 1996

used in conjunction with the Act and HUD's regulations and the Guidelines 3 CABO ANSI A117.1 1992 used in conjunction with the Act HUD's regulations and the Guidelines 4 ICC ANSI A117.1 1998 used in conjunction with the Act HUD's regulations and the Guidelines 5 Code Requirements for Housing Accessibility 2000 CRHA approved and published by the International Code Council ICC October 2000 6 International Building Code 2000 IBC as amended by the IBC 2001 Supplement to the International Codes It is important to note that the ANSI A117.1 standard contains only technical criteria whereas the Fair Housing Act the regulations and the Guidelines contain both scoping and technical criteria Therefore in using any of the ANSI standards it is necessary to also consult the Act HUD's regulations and the Guidelines for the scoping requirements Providing an environment where persons with disabilities can have the same access to and ability to use housing that persons without disabilities enjoy is both a worthwhile goal and the law The Department is committed to helping those who develop housing to meet the requirements of the law so that we can reach the goal of providing meaningful access for people with disabilities
