English Produced by Japanese L2 Users Toshiko Yamaguchi, 2022-12-06 This book discusses ten grammatical items with main focus on prepositions and plural nouns to illustrate the structure of Japanese English or the English spoken by 32 Japanese nationals who are the L2 users of English Adopting an inductive theory neutral analysis of

empirical data collected from recordings of presentational talks the author demonstrates how standard and nonstandard grammatical forms are distributed and categorizes these based largely on functional factors The book describes grammatical forms as a fundamental aspect of linguistic study and adopts a corpus driven approach to qualify structural features characterizing usage data This formalization of language usage patterns also facilitates the development of locally relevant norms and thus presents alternatives to the normative varieties traditionally adopted It examines the effects of multicompetence and unpacks the grammar of Japanese English The book is of interest to researchers educators and students concerned with issues related to World Englishes English as a lingua franca English language teaching and multilingualism this text is vital to studies in global English language use *Kiplinger's Personal Finance* ,1994-05 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics *The Hand of God* Mike Keating,2000-12-20 The Hand of God is a non fictional compelling account of John Keatings survival and recovery after accidentally contacting 16 000 volt Swedish railroad power line It is an inspiring story of courage determination and the power of love The story traces his journey from the accident scene in the Swedish mountains through his lengthy hospitalization and rehabilitation in Sweden to the familys return to the United States The near death experience affected many and the life saving amputations challenged their emotional resources The book includes many of the powerful letters he received These inspirational letters which empowered John and his family are as powerful today as they were when received The humor and the heartbreak the joys and the disappointments and the hopes and the frustrations are blended into an emotional and unforgettable story *Job Hunting - The Right Way!* Richard Smith,2004-12 This book is devoted to a task which few of us undertake with relish yet must do at least once in our lifetimes finding the right career position Like it or not we are all compelled by one force or another to work earn wages and be productive Some persons are fortunate in that they do not have to rely entirely on their vocation for financial support Others are not compensated well enough to live without some sort of governmental or charitable assistance even though they work at a full time job For the sake of simplicity the focus of this book will be on the majority of Americans who fall into neither of the categories listed above but rather the middle class and middle income wage earner Make no mistake there is no foolproof method which one can employ in the effort of locating an appropriate job And there is indeed a wide range of books available on the subjectsome factual and cold others fanciful and taking a Zen like approach to the matter at hand Yet there has seldom been a common sense guide to the art of job hunting if it can indeed be called that it could more appropriately be called a craft since it is a talent which must be developed and cultivated and not an inherent gift Hopefully this book will change that sad circumstance ***The Cambridge Handbook of Undergraduate Research*** Harald A.
