**Killing the Enemy** Adam Leong Kok Wey, 2015-09-28 During World War II the British formed a secret division the SOE or Special Operations Executive in order to support resistance organisations in occupied Europe It also engaged in targeted killing the assassination of enemy political and military leaders The unit is famous for equipping its agents with tools for use behind enemy lines such as folding motorbikes miniature submarines and suicide pills disguised as coat buttons But its activities are now also gaining attention as a forerunner to today's extra legal killings of wartime enemies in foreign territory for example through the use of unmanned drones Adam Leong's work evaluates the effectiveness of political assassination in wartime using four examples Heydrich's assassination in Prague Operation Anthropoid the daring kidnap of Major General Kreipe in Crete by Patrick Leigh Fermor the failed attempt to assassinate Rommel known as Operation Flipper and the American assassination of General Yamamoto **Rogue Heroes** Ben Macintyre, 2016-10-04 NEW YORK TIMES BESTSELLER The incredible untold story of World War II's greatest secret fighting force as told by the modern master of wartime intrigue now a limited series on MGM Reads like a mashup of *The Dirty Dozen* and *The Great Escape* with a

sprinkling of Ocean's 11 thrown in for good measure Michiko Kakutani The New York Times ONE OF NPR'S BEST BOOKS OF THE YEAR Rogue Heroes is a ripping good read Washington Post 10 Best Books of the Year Britain's Special Air Service or SAS was the brainchild of David Stirling a young aristocrat whose aimlessness belied a remarkable strategic mind Where most of his colleagues looked at a World War II battlefield map and saw a protracted struggle Stirling saw an opportunity given a small number of elite men he could parachute behind Nazi lines and sabotage their airplanes and supplies Defying his superiors conventional wisdom Stirling assembled a revolutionary fighting force that would upend not just the balance of the war but the nature of combat itself Bringing his keen eye for detail to a riveting wartime narrative Ben Macintyre uses his unprecedented access to the SAS archives to shine a light on a legendary unit long shrouded in secrecy *SAS in Italy 1943-1945* Malcolm Tudor, 2018-11-10 This is the story of Britain's elite special force in Italy during the Second World War In the summer of 1943 the SAS came out of Africa to carry the fight to the Germans and Fascists in Sicily and the mainland On the Italian Armistice and Surrender in September 1943 the originator of the SAS Scots Guards lieutenant David Stirling was a prisoner at the high security prisoner of war camp five at Gavi in Piedmont north western Italy after being captured in January in Tunisia He eventually ended up as a prisoner at Colditz Castle in Germany but his work continued The idea of small groups of parachute trained soldiers operating behind enemy lines to gain intelligence destroy enemy aircraft and attack their supply and reinforcement routes was realised in the many daring missions carried out in Italy by the men of 2nd SAS Regiment and the Special Raiding Squadron The famous SAS motto of Who dares wins was swiftly translated into the Italian Chi osa vince This book reveals how words were turned into deeds *Special Forces Brothers in Arms* Patric McGonigal, 2022-06-20 The McGonigal brothers Eoin and Ambrose were fiercely independent characters Born and educated in southern Ireland to a catholic family but raised in Belfast they wasted no time in enlisting at the outbreak of War in 1939 Both outstanding sportsmen their leadership potential was quickly recognized Eoin was one of the first two officers selected from an Irish regiment for Commando training in 1940 After leading a troop at the River Litani battle in Syria he became the youngest of the original officers selected for the fledgling SAS and quickly made a name for himself Tragically he was lost after parachuting behind enemy lines in Libya His body was never recovered and many unanswered questions remain today Ambrose having carried out multiple coastal raids with the Commandos and winning two Military Crosses later led operations for the SBS in Yugoslavia and Italy Post war he had a short but notable legal career as a Lord Justice of Appeal in Northern Ireland at the height of the Troubles Light is also shone on the brothers close friend the legendary Blair Mayne and the controversial decision to downgrade the award of his Victoria Cross This is a thought provoking account of lost and fulfilled potential and unswerving loyalty at a time of political and religious turmoil **The Second World War Illustrated: The Third Year** Jack Holroyd, 2022-01-31 A pictorial history of the third year of World War II featuring archive and color photographs This third volume sees Hitler experiencing problems reminiscent of a previous invader of Russia

Napoleon Bonaparte extreme winter conditions that first drenched then froze the vast Nazi war machine immobilizing tanks guns support vehicles and grounding the Luftwaffe Unlike Napoleon Hitler failed to capture Moscow In North Africa the British were sent reeling back towards Egypt when Rommel launched an attack at the end of January Much to the amazement of all and the disappointment of Churchill the Axis troops took Tobruk in a single day Churchill dismissed the commander and appointed Montgomery who made a stand at El Alamein Great Britain's stand alone position ended abruptly on when Tojo launched a surprise attack on Pearl Harbor Both Hitler and Mussolini declared war on the United States and the war became global With the attack on Pearl Harbor the Japanese flooded through the South Pacific the Philippines Dutch East Indies Malaya Burma all fell to the Japanese Once more Great Britain was humiliated when Singapore surrendered and thousands of Allied troops went into captivity An attempt by the Japanese to deliver a knock out blow to the Americans by an attack on Midway failed catastrophically and the Americans scored a momentous victory in the Pacific Air Marshal Sir Arthur Harris became leader of the RAF and the thousand bomber raids and carpet bombing of German cities began The third year of the war ended with the disastrous Dieppe Raid carried out by Canadians in August 1942 Praise for The Second World War Illustrated The Third Year Packed with photographs of machines battles weapons and soldiers The book is nicely split into separate chapters with each concentrating on a specific event or operation that was being carried out during 1942 so you have the fight for North Africa the war in the East Pearl Harbor Burma the Bomber Raids over Germany War in the Pacific and the Commando Raid on St Nazaire etc Having read the previous book of the previous year I would say it was an equal and would happily recommend it to others especially if you're a younger learner or new to the subject UK Historian

**Special Forces Commander** Michael Scott, 2012-02-29 Early in the Second World War Peter Wand Tetley volunteered for special service He saw action first with the newly formed Commandos raiding the North African coast and then in the fierce fighting on Crete Operations with the LRDG in the Western Desert were followed by SAS actions as Rommel retreated to Tunis Remarkably he then transferred to the Special Operations Executive and was parachuted blind into enemy occupied Greece in 1943 His role was to train and equip Andartes guerillas and his contribution and courage were recognized by the award of an immediate MC Following victory in Europe he sailed with the Parachute Regiment to Java where he fought in the counter insurgency war As well as describing his exemplary war record Special Forces Commander covers Wand Tetley's early life he was a superb marksman and his career post war in the turbulent days of the end of Empire Special Operations in World War II Andrew L. Hargreaves, 2013-10-28 British and American commanders first used modern special forces in support of conventional military operations during World War II Since then although special ops have featured prominently in popular culture and media coverage of wars the academic study of irregular warfare has remained as elusive as the practitioners of special operations themselves This book is the first comprehensive study of the development application and value of Anglo American commando and special forces units during the Second World War Special forces are

intensively trained specially selected military units performing unconventional and often high risk missions In this book Andrew L Hargreaves not only describes tactics and operations but also outlines the distinctions between commandos and special forces traces their evolution during the war explains how the Anglo American alliance functioned in the creation and use of these units looks at their command and control arrangements evaluates their impact and assesses their cost effectiveness The first real impetus for the creation of British specialist formations came in the desperate summer of 1940 when having been pushed out of Europe following defeat in France and the Low Countries Britain began to turn to irregular forces in an effort to wrest back the strategic initiative from the enemy The development of special forces by the United States was also a direct consequence of defeat After Pearl Harbor Hargreaves shows the Americans found themselves in much the same position as Britain had been in 1940 shocked outnumbered and conventionally defeated they were unable to come to grips with the enemy on a large scale By the end of the war a variety of these units had overcome a multitude of evolutionary hurdles and made valuable contributions to practically every theater of operation In describing how Britain and the United States worked independently and cooperatively to invent and put into practice a fundamentally new way of waging war this book demonstrates the two nations flexibility adaptability and ability to innovate during World War II

Parameters ,2001      **Malice Aforethought** Ian Jones,2021-06-02 War has always provided a stimulus to technological development and throughout the twentieth century this new technology was harnessed to produce increasingly deadly and malicious types of explosives in the form of booby traps mines delayed action devices and mobile charges Designed constructed or adopted to kill or injure these lethal mechanisms function when a person disturbs or approaches a seemingly harmless object or performs an apparently safe act In other instances they are set off by remote control or automatically after a lapse of time Fully illustrated with diagrams and photographs Malice Aforethought traces the design deployment and effectiveness of these deadly devices throughout both world wars to the Vietnam War Expertly and compellingly written this unique study is a tribute to the brave men who risked their lives daily to neutralise the booby traps laid in the dimly lit dugouts of the Western Front on the beaches of Normandy or in the dark and dangerous tunnels of Chu Chi      **Daggers**

the desert Originals many of whom had never before revealed their role They spoke openly with honesty and humour about life in the SAS the gruelling training that broke all but the toughest the thrill of raiding desert airfields the danger of parachuting into occupied France and the fear of being caught by the Germans knowing that Hitler had ordered the liquidation of captured SAS soldiers This is the SAS at war in their own words      **SAS Heroes** Pete Scholey, 2011-12-20 **SAS Heroes** contains former SAS member Pete Scholey's memories of 20 soldiers who were genuine heroes although many were never recognised as such during their lives or even in death It is a book of stories about soldiers who fought for their country with no desire to be famous feted or rewarded many of whom died in action A few received medals and all earned the respect and admiration of their fellow soldiers their names and faces etched into the true history of the SAS Some of the stories of Pete's heroes have never been told before and certainly none of the tales of combat and life in the regiment have been told in such a touching real and compelling manner
