*Mediterranean Modernism* Adam J. Goldwyn,Renée M. *The Making of Heritage* Camila Del Marmol,Marc Morell,Jasper Chalcraft,2014-11-20 This volume explores the process of heritage making and its relation to the production of touristic places examining several case studies around the world Most existing literature on heritage and tourism centers either on its managerial aspects the tourist experience or issues related to inequality and identity politics This volume instead establishes theoretical links between analyses of heritage and the production and reproduction of places in the context of the global tourist trade The approach adopted here is to explore the production of heritage as a complex process shaped by local and global discourses that can have a deep impact on several policies and legislations Heritage itself has now become not

only a global discourse but also a global practice which may eventually lead to the use of heritage as a field for hegemony From these perspectives heritage making may be incorporated in the world economy mainly through the global tourism trade The chapters in this book stress the need for identifying the intrinsic political implications of these processes relocating their study in political economic and social settings Combined with a diversified set of theoretical approaches and research methods guided by a common thematic rationale The Making of Heritage is at the forefront of current debates about heritage
