Barbie, 2020-07-15 At their basic level sporting events are about numbers wins and losses percentages and points shots and saves clocks and countdowns However sports narratives quickly leave the realm of statistics The stories we tell and retell sometimes for decades make sports dramatic and compelling Just like any great drama sports imply conflict not just battles on the field of play but clashes of personalities goals and strategies In telling these stories we create heroes but we also create villains This book is about the latter those players who transgress norms and expectations and who we label the bad boys of sports Using a variety of approaches these 13 new essays examine the cultural social and rhetorical implications of sports villainy Each chapter focuses on a different athlete and sport questioning issues such as how notorious sports figures are defined to be bad within particular sports and within the larger culture the role media play in creating antiheroes fan reactions when players cross boundaries and how those boundaries shift depending on the athlete's gender sexuality and race Grip it and Rip It! Limerick Constitutional Nationalism, 1898-1918 Tadhg Moloney, 2010-02-19 This book analyses local politics in Limerick from 1898 to 1918 reaching back to the Parnellite split and forward to the post independence era It explores at local level the relevance of the commemoration of 1798 the reunification of the Irish Parliamentary Party and the emergence of multiple cultural political movements as well as the demise of Unionism The question posed is twofold whether nationalist constitutional politics changed over this time period on the one hand and whether they were driven by local or national concerns on the other The conclusion is that the spirit of politics was intensely local that political patronage was largely locally controlled and that there were greater continuities than ruptures in the composition and behaviour of political elites In fact long term continuities of personnel social class and political allegiance existed side by side with the ability of existing structures to absorb change and to adapt in the light of wider political developments and internal manoeuvres *Hard Land*

John Pagani, 2021-06-11 *Falling Water* is the second installment in the riveting *Hard Land* adventure and survival series. Set along the rugged North American Pacific Coast in the early nineteenth century, John and Erin Daly live a hardscrabble life, scratching out a subsistence existence while fending off nature's predators and the elements. Their love and faith and the local Native tribe are the bedrock of their survival until challenged by outlaws, a wicked Native witch, and a horrifying demon. The allure of gold weaves through twisting plots and schemes, drawing all participants in this exciting tale to a hidden valley where a final battle of good versus evil erupts. Descriptive panoramas of endless forests, towering mountains, and tumbling waterfalls are the backdrop through all facets of the book. The deep beauty of coastal redwood forests and rugged coastlines provide stunning imagery. The story is colored with early American pioneering customs, skills, and ways of life. Native American symbolism, shamanism, and customs are explored. This captivating tale is one of adventure, excitement, and the supernatural that builds upon itself from one gripping scene to the next, only to reach a thrilling and surprising conclusion.
