Howard Yu, 2018-06-12 Every business faces the existential threat of competitors producing cheaper copies. Even patent filings, market dominance and financial resources can't shield them from copycats. So what can we do and what can we learn from companies that have endured and even prospered for centuries despite copycat competition? In today's competitive environment where latecomers can replicate almost any product or service for less and where intuition and market intelligence have been overtaken by machine algorithms, companies can no longer just be very good at what they do. The need to leap to new knowledge disciplines. The best leap repeatedly. And it's the combination of two skills: mastery of the old and new that empowers them with the best competitive advantage. To discover how some companies not only survive but thrive for centuries, strategy expert Howard Yu identifies key trends from business history skillfully extracting timeless lessons and

applying them to today He illustrates how managers can look to leverage technological shifts increasingly ubiquitous connectivity smart machines and managerial creativity in order to leap forward Ultimately Leap is a playbook for the future that shows how pioneering players can thrive by rethinking their business their relationships with customers and the very reasons they exist *Cut-over Lands* ,1919 Devoted to the conversion of cut over timber lands to their most productive use for farming stock raising fruit growing kindred purposes *Farm Implement News* ,1906 *Facts about Sugar* ,1917
