## John McPhee:

*The John McPhee Reader* John McPhee, 2011-04-01 The John McPhee Reader first published in 1976 is comprised of selections from the author's first twelve books. In 1965 John McPhee published his first book *A Sense of Where You Are*; a decade later he had published eleven others. His fertility, his precision and grace as a stylist, his wit and uncanny brilliance in choosing subject matter, his crack storytelling skills have made him into one of our best writers, a journalist whom L. E. Sissman ranked with Liebling and Mencken who Geoffrey Wolff said is bringing his work to levels that have no measurable limit who has been called a master craftsman so many times that it is pointless to number them. *The Second John McPhee Reader* John McPhee, 1996-02-28 This second volume of *The John McPhee Reader* includes material from his eleven books published since 1975 including *Coming into the Country*, *Looking for a Ship*, *The Control of Nature* and the four books on geology that comprise *Annals of the Former World*. *Irons in the Fire* John McPhee, 2011-04-01 In this collection John McPhee once again proves himself as a master observer of all arenas of life as well as a powerful and important writer.

*Draft No. 4* John McPhee, 2017-09-05 The long-awaited guide to writing long form nonfiction by the legendary author and teacher *Draft No. 4* is a master class on the writer's craft. In a series of playful, expertly wrought essays, John McPhee shares insights he has gathered over his career and has refined while teaching at Princeton University where he has nurtured some of the most esteemed writers of recent decades. McPhee offers definitive guidance in the decisions regarding arrangement, diction, and tone that shape nonfiction pieces, and he presents extracts from his work, subjecting them to wry scrutiny. In one essay he considers the delicate art of getting sources to tell you what they might not otherwise reveal. In another he discusses how to use flashback to place a bear encounter in a travel narrative while observing that readers are not supposed to notice the structure. It is meant to be about as visible as someone's bones. The result is a vivid depiction of the writing process from reporting to drafting to revising and revising and revising. *Draft No. 4* is enriched by multiple diagrams and by personal anecdotes and charming reflections on the life of a writer. McPhee describes his enduring relationships with *The New Yorker* and Farrar Straus and Giroux and recalls his early years at *Time* magazine. Throughout *Draft No. 4* is enlivened by his keen sense of writing as a way of being in the world. *A Roomful of Hovings and Other Profiles* John McPhee, 1979-05-01 In this unique book John McPhee takes us into the world of several fascinating people. His inimitable style reveals the intricate details of his characters' lives: 1. Thomas P. F. Hoving, 2. Euell Gibbons, 3. M. I. T. Fellows in Africa, 4. Robert Twynam of Wimbledon, 5. Temple Fielding. *Silk Parachute* John McPhee, 2011-03-01 A WONDERFUL NEW BOOK OF MCPHEE'S PROSE PIECES IN MANY ASPECTS HIS MOST PERSONAL IN FOUR DECADES. The brief, brilliant essay *Silk Parachute*, which first appeared in *The New Yorker* a decade ago, has become John McPhee's most anthologized piece of writing. In the nine other pieces here, highly varied in length and theme, McPhee ranges with his characteristic humor and intensity through lacrosse, long exposure, view camera photography, the weird foods he has sometimes been served in the course of his reportorial travels, a U.S. Open

golf championship and a season in Europe on the chalk from the downs and sea cliffs of England to the Maas valley in the Netherlands and the champagne country of northern France Some of the pieces are wholly personal In luminous recollections of his early years for example he goes on outings with his mother deliberately overturns canoes in a learning process at a summer camp and germinates a future book while riding on a jump seat to away games as a basketball player But each piece on whatever theme contains somewhere a personal aspect in which McPhee suggests why he was attracted to write about the subject and each opens like a silk parachute lofted skyward and suddenly blossoming with color and form

*Giving Good Weight* John McPhee, 2011-04-01 You people come into the market the Greenmarket in the open air under the down pouring sun and you slit the tomatoes with your fingernails With your thumbs you excavate the cheese You choose your stringbeans one at a time You pulp the nectarines and rape the sweet corn You are something wonderful you are people of the city and we who are almost without exception strangers here are as absorbed with you as you seem to be with the numbers on our hanging scales So opens the title piece in this collection of John McPhee's classic essays grouped here with four others including *Brigade de Cuisine* a profile of an artistic and extraordinary chef *The Keel of Lake Dickey* in which a journey down the whitewater of a wild river ends in the shadow of a huge projected dam a report on plans for the construction of nuclear power plants that would float in the ocean and a pinball shoot out between two prizewinning journalists

*The Patch* John McPhee, 2018-11-13 *The Patch* is the seventh collection of essays by the nonfiction master all published by Farrar Straus and Giroux It is divided into two parts Part 1 *The Sporting Scene* consists of pieces on fishing football golf and lacrosse from fly casting for chain pickerel in fall in New Hampshire to walking the linksland of St Andrews at an Open Championship Part 2 called *An Album Quilt* is a montage of fragments of varying length from pieces done across the years that have never appeared in book form occasional pieces memorial pieces reflections reminiscences and short items in various magazines including *The New Yorker* They range from a visit to the Hershey chocolate factory to encounters with Oscar Hammerstein Joan Baez and Mount Denali Emphatically the author's purpose was not merely to preserve things but to choose passages that might entertain contemporary readers Starting with 250 000 words he gradually threw out 75 percent of them and randomly assembled the remaining fragments into an album quilt Among other things *The Patch* is a covert memoir

*The Control of Nature* John McPhee, 1989-08-16 While John McPhee was working on his previous book *Rising from the Plains* he happened to walk by the engineering building at the University of Wyoming where words etched in limestone said Strive on the control of Nature is won not given In the morning sunlight that central phrase the control of nature seemed to sparkle with unintended ambiguity Bilateral symmetrical it could with equal speed travel in opposite directions For some years he had been planning a book about places in the world where people have been engaged in all out battles with nature about in the words of the book itself any struggle against natural forces heroic or venal rash or well advised when human beings conscript themselves to fight against the earth to take what is not given to rout the destroying

enemy to surround the base of Mt Olympus demanding and expecting the surrender of the gods His interest had first been sparked when he went into the Atchafalaya the largest river swamp in North America and had learned that virtually all of its waters were metered and rationed by a U S Army Corps of Engineers project called Old River Control In the natural cycles of the Mississippi s deltaic plain the time had come for the Mississippi to change course to shift its mouth more than a hundred miles and go down the Atchafalaya one of its distributary branches The United States could not afford that for New Orleans Baton Rouge and all the industries that lie between would be cut off from river commerce with the rest of the nation At a place called Old River the Corps therefore had built a great fortress part dam part valve to restrain the flow of the Atchafalaya and compel the Mississippi to stay where it is In Iceland in 1973 an island split open without warning and huge volumes of lava began moving in the direction of a harbor scarcely half a mile away It was not only Iceland s premier fishing port accounting for a large percentage of Iceland s export economy but it was also the only harbor along the nation s southern coast As the lava threatened to fill the harbor and wipe it out a physicist named Thorbjorn Sigurgeirsson suggested a way to fight against the flowing red rock initiating an all out endeavor unique in human history On the big island of Hawaii one of the world s two must eruptive hot spots people are not unmindful of the Icelandic example McPhee went to Hawaii to talk with them and to walk beside the edges of a molten lake and incandescent rivers Some of the more expensive real estate in Los Angeles is up against mountains that are rising and disintegrating as rapidly as any in the world After a complex coincidence of natural events boulders will flow out of these mountains like fish eggs mixed with mud sand and smaller rocks in a cascading mass known as debris flow Plucking up trees and cars bursting through doors and windows filling up houses to their eaves debris flows threaten the lives of people living in and near Los Angeles famous canyons At extraordinary expense the city has built a hundred and fifty stadium like basins in a daring effort to catch the debris Taking us deep into these contested territories McPhee details the strategies and tactics through which people attempt to control nature Most striking in his vivid depiction of the main contestants nature in complex and awesome guises and those who would attempt to wrest control from her stubborn often ingenious and always arresting characters **John McPhee** ,1997 Pieces of the Frame John McPhee,1975-06-23 Pieces of the Frame is a gathering of memorable writings by one of the greatest journalists and storytellers of our time They take the reader from the backwoods roads of Georgia to the high altitude of Ruidoso Downs in New Mexico from the social decay of Atlantic City to Scotland where a pilgrimage for art s sake leads to a surprising encounter with history on a hilltop with a view of a fifth of the entire country McPhee s writing is more than informative these are stories artful and full of character that make compelling reading They play with and against one another so that Pieces of the Frame is distinguished as much by its unity as by its variety Subjects familiar to McPhee s readers sports Scotland conservation are treated here with intimacy and a sense of the writer at work **The John McPhee Reader** John McPhee,1978 Oranges John McPhee,2011-04-01 A classic of reportage Oranges was first conceived as a short magazine

article about oranges and orange juice but the author kept encountering so much irresistible information that he eventually found that he had in fact written a book It contains sketches of orange growers orange botanists orange pickers orange packers early settlers on Florida s Indian River the first orange barons modern concentrate makers and a fascinating profile of Ben Hill Griffin of Frostproof Florida who may be the last of the individual orange barons McPhee s astonishing book has an almost narrative progression is immensely readable and is frequently amusing Louis XIV hung tapestries of oranges in the halls of Versailles because oranges and orange trees were the symbols of his nature and his reign This book in a sense is a tapestry of oranges too with elements in it that range from the great orangeries of European monarchs to a custom of people in the modern Caribbean who split oranges and clean floors with them one half in each hand *The John McPhee Reader* John A. McPhee,1978 Encounters with the Archdruid John McPhee,1971-08-06 The narratives in this book are of journeys made in three wildernesses on a coastal island in a Western mountain range and on the Colorado River in the Grand Canyon The four men portrayed here have different relationships to their environment and they encounter each other on mountain trails in forests and rapids sometimes with reserve sometimes with friendliness sometimes fighting hard across a philosophical divide *Basin and Range* John McPhee,1981-04 The first of John McPhee s works in his series on geology and geologists Basin and Range is a book of journeys through ancient terrains always in juxtaposition with travels in the modern world a history of vanished landscapes enhanced by the histories of people who bring them to light The title refers to the physiographic province of the United States that reaches from eastern Utah to eastern California a silent world of austere beauty of hundreds of discrete high mountain ranges that are green with junipers and often white with snow The terrain becomes the setting for a lyrical evocation of the science of geology with important digressions into the plate tectonics revolution and the history of the geologic time scale **Heirs of General Practice** John McPhee,1986-04 Tells the stories of recently graduated doctors who are following the new medical specialty of family practice and describes their interactions with their patients *Coming Into McPhee Country* Oliver Alan Weltzien,Susan Naramore Maher,2003 This volume examines the work of one of the most distinguished practitioners of literary nonfiction **Table of Contents** John McPhee,2011-04-01 First published in book form 1985 Table of Contents is a collection of eight pieces written by John McPhee between 1981 and 1984 Geographically and thematically they range from Alaska to New Jersey describing for example the arrival of telephones in a small village near the Arctic Circle and the arrival of wild bears in considerable numbers in New Jersey swarming in from the Poconos in search of a better life The essays in this collection which The New York Times called pretty close to flawless offer an excellent introduction to the work of one of our finest writers *Coming Into the Country* John McPhee,1977 Literary account of Alaska and Alaskans
