John Bird Burnham--Klondiker, Adirondacker, and Eminent Conservationist John Bird Burnham, Maitland C. De **Pioneering Conservation in Alaska** Ken Ross, 2017-10-01 A companion volume to Environmental Conflict Sormo, 1978 in Alaska Pioneering Conservation in Alaska chronicles the central land and wildlife issues and the growth of environmental conservation in Alaska during its Russian and territorial eras The Alaskan frontier tempted fur traders whalers salmon fishers gold miners hunters and oilmen to take what they could without regard for long term consequences Wildlife species ecosystems and Native cultures suffered sometimes irreparably Damage to wildlife and lands drew the attention of environmentalists including John Muir who applied their influence to enact wildlife protection laws and set aside lands for conservation Alaska served as a testing ground for emergent national resource policy in the United States as environmental values of species and ecosystem sustainability replaced the unrestrained exploitation of Alaska's early frontier days Efforts of conservation leaders and the territory s isolation small human population and late development prevented widespread destruction and gave Americans a unique opportunity to protect some of the world's most pristine wilderness Enhanced by more than 100 photographs Pioneering Conservation in Alaska illustrates the historical precedents for current natural resource disputes in Alaska and will fascinate readers interested in wildlife and conservation **Conservation Diplomacy** Kurkpatrick Dorsey, 2009-11-17 In the first decades of the twentieth century fish in the Great Lakes and Puget Sound seals in the North Pacific and birds across North America faced a common threat over harvesting that threatened extinction for many species Progressive era conservationists saw a need for government intervention to protect threatened animals And because so many species migrated across international political boundaries their protectors saw the necessity of international conservation agreements In The Dawn of Conservation Diplomacy Kurkpatrick Dorsey examines the first three comprehensive wildlife conservation treaties in history all between the United States and Canada the Inland Fisheries Treaty of 1908 the North Pacific Fur Seal Convention of 1911 and the Migratory Bird Treaty of 1916 In his highly readable text Dorsey argues that successful conservation treaties came only after conservationists learned to marshal scientific evidence public sentiment and economic incentives in their campaigns for protective legislation. The first treaty intended to rescue the overfished boundary waters failed to gain the necessary support and never became law Despite scientific evidence of the need for conservation politicians and the general public were unable to counter the vocal opposition of fishermen across the continent A few years later conservationists successfully rallied popular sympathy for fur seals threatened with slaughter and the North Pacific Fur Seal Convention was adopted By the time of the Migratory Bird Treaty of 1916 the importance of aesthetic appeal was clear North American citizens were joining chapters of the Audubon Society in efforts to protect beautiful songbirds Conservationists also presented economic evidence to support their efforts as they argued that threatened bird species provided invaluable service to farmers Dorsey recounts the story of each of these early

treaties examining the scientific research that provided the basis for each effort acknowledging the complexity of the issues and presenting the personalities behind the politics He argues that these decades old treaties both directly affect us today and offer lessons for future conservation efforts **Essex on Lake Champlain** David C. Hislop, 2009 Essex is located on the shoreline of Lake Champlain near the foothills of the Adirondack Mountains The town was important for its role in lake commerce shipping goods down the Champlain Canal to the burgeoning markets of New York City and via the Erie Canal to Rochester Buffalo and points west during America's golden age of expansion The photographic record of Essex contains the mansions of the merchants and the houses of the workers who all lived together in this prototypical American community The town contains a remarkable collection of Greek Revival buildings from 1820 to 1860 its period of national significance that are still intact Today Essex exists with the majority of its historic structures standing and little fringe development and the edges of the hamlet continue to merge seamlessly into the agricultural countryside **Eldorado!** Catherine Holder Spude, Robin O. Mills, Karl Gurcke, 2011-12-01 When gold was discovered in the far northern regions of Alaska and the Yukon in the late nineteenth century thousands of individuals headed north to strike it rich This massive movement required a vast network of supplies and services and brought even more people north to manage and fulfill those needs In this volume archaeologists historians and ethnologists discuss their interlinking studies of the towns trails and mining districts that figured in the northern gold rushes including the first sustained account of the archaeology of twentieth century gold mining sites in Alaska or the Yukon The authors explore various parts of this extensive settlement and supply system coastal towns that funneled goods inland from ships the famous Chilkoot Trail over which tens of thousands of gold seekers trod a host of retail oriented sites that supported prospectors and transferred goods through the system and actual camps on the creeks where gold was extracted from the ground Discussing individual cases in terms of settlement patterns and archaeological assemblages the essays shed light on issues of interest to students of gender transience and site abandonment behavior Further commentary places the archaeology of the Far North within the larger context of early twentieth century industrialized European American society Adirondack Life ,1999 **The Living Wilderness** Robert Sterling Yard,1979
