John Cc Mayo Cumberland Capitalist:

John C.C. Mayo, Cumberland Capitalist Carolyn Clay Turner, Carolyn Hay Traum, 1983 The Kentucky Encyclopedia John E. Kleber, 2014-10-17 The Kentucky Encyclopedia's 2 000 plus entries are the work of more than five hundred writers. Their subjects reflect all areas of the commonwealth and span the time from prehistoric settlement to today's headlines recording Kentuckians' achievements in art, architecture, business, education, politics, religion, science, and sports. Biographical sketches portray all of Kentucky's governors and U S senators as well as note congressmen and state and local politicians. Kentucky's impact on the national scene is registered in the lives of such figures as Carry Nation, Henry Clay, Louis Brandeis, and Alben Barkley. The commonwealth's high range from writers Harriette Arnow and Jesse Stuart, reformers Laura Clay and Mary Breckinridge, and civil rights leaders Whitney Young Jr and Georgia Powers to sports figures Muhammad Ali and Adolph Rupp and entertainers Loretta Lynn, Merle Travis, and the Everly Brothers. Entries describe each county and county seat and each community with a population above 2 500. Broad overview articles examine such topics as agriculture, segregation, transportation, literature, and folklife. Frequently misunderstood aspects of Kentucky's history and culture are clarified and popular misconceptions corrected. The facts on such subjects as mint juleps, Fort Knox, Boone's coonskin cap, the Kentucky hot brown, and Morgan's Raiders will settle many an argument. For both the researcher and the more casual reader, this collection of facts and fancies about Kentucky and Kentuckians will be an invaluable resource.

Work and Faith in the Kentucky Coal Fields Richard J. Callahan, 2008-11-20 Exploring themes of work and labor in everyday life, Richard J. Callahan Jr offers a history of how coal miners and their families lived their religion in eastern Kentucky's coal fields during the early 20th century. Callahan follows coal miners and their families from subsistence farming to industrial coal mining as they draw upon religious idioms to negotiate changing patterns of life and work. He traces innovation and continuity in religious expression that emerged from the specific experiences of coal mining, including the spaces and social structures of coal towns, the working bodies of miners, the anxieties of their families, and the struggle toward organized labor. Building on oral histories, folklore, folksongs, and vernacular forms of spirituality, this rich and engaging narrative recovers a social history of ordinary working people through religion.

Grasping at Independence Robert S. Weise, 2001 By closely studying the strategic blend of land ownership, subsistence agriculture, and commerce, Weise reveals how white male farmers in Floyd County attempted to achieve and preserve patriarchal authority and independence and how this household localism laid the foundation for the region's development during the industrial era. By shifting attention from the actions of industrialists to those of local residents, he reconciles contradictory views of antebellum Appalachia and offers a new understanding of the region's history and its people. Jacket.

A Guide to Historic Coal Towns of the Big Sandy River Valley George D. Torok, 2004 A guide to the historical coal towns of the Big Sandy River Valley that provides brief histories of each town, descriptions of the buildings and structures that remain, and insight into the town's residents.

Sharfstein, 2011-02-17 The Invisible Line shines light on one of the most important but too often hidden aspects of American history and culture Sharfstein's narrative of three families negotiating America's punishing racial terrain is a must read for all who are interested in the construction of race in the United States Annette Gordon Reed Pulitzer Prize winning author of *The Hemingways of Monticello* In America race is a riddle The stories we tell about our past have calcified into the fiction that we are neatly divided into black or white It is only with the widespread availability of DNA testing and the boom in genealogical research that the frequency with which individuals and entire families crossed the color line has become clear In this sweeping history Daniel J Sharfstein unravels the stories of three families who represent the complexity of race in America and force us to rethink our basic assumptions about who we are The Gibsons were wealthy landowners in the South Carolina backcountry who became white in the 1760s ascending to the heights of the Southern elite and ultimately to the U S Senate The Spencers were hardscrabble farmers in the hills of Eastern Kentucky joining an isolated Appalachian community in the 1840s and for the better part of a century hovering on the line between white and black The Walls were fixtures of the rising black middle class in post Civil War Washington D C only to give up everything they had fought for to become white at the dawn of the twentieth century Together their interwoven and intersecting stories uncover a forgotten America in which the rules of race were something to be believed but not necessarily obeyed Defining their identities first as people of color and later as whites these families provide a lens for
