Kenneth Burke Rhetoric And Ideology:

Kenneth Burke Stephen Bygrave,2012-09-10 Kenneth Burke Rhetoric and Ideology is a lucid and accessible introduction to a major twentieth century thinker those ideas have influenced fields as diverse as literary theory philosophy linguistics politics and anthropology Stephen Bygrave explores the content of Burke s vast output of work focusing especially on his preoccupation with the relation between language ideology and action By considering Burke as a reader and writer of narratives and systems Bygrave examines the inadequacies of earlier readings of Burke and unfolds his thought within current debates in Anglo American cultural theory This is an excellent re evaluation of Burke s thought and valuable

introduction to the impressive range of his ideas **Kenneth Burke** Robert Wess,1996-03-29 Kenneth Burke arguably the most important American literary theorist of the twentieth century helped define the theoretical terrain for contemporary literary and cultural studies His perspectives were literary and linguistic but his influences ranged across history philosophy and the social sciences In this important study first published in 1996 Robert Wess traces the trajectory of Burke s long career and situates his work in relation to postmodernity His study is both an examination of contemporary theories of rhetoric ideology and the subject and an explanation of why Burke failed to complete his Motives trilogy Burke s own critique of the isolated unique individual led him to question the possibility of unique individuation a strategy which anticipated important elements of postmodern concepts of subjectivity Robert Wess study is a judicious exposition of Burke s massive oeuvre and a crucial intervention in debates on rhetoric and human agency **Kenneth Burke** Josh M. Beach,2002

Kenneth Burke J. M. Beach,2012-02 The American philosopher and literary critic Kenneth Burke was an ideologist although he never called himself this and added to that he spent most of his life avoiding the Marxist term of ideology to describe human systems of ideas Burke instead used the terms orientation rationalization perspective critical perspective way of life critical mind frame Weltanschauung and gestalt to describe basically the main idea behind ideology a system of ideas aiming at social or political action The first definition of ideology that Burke lists in A Rhetoric of Motives his only book to mention the term ideology directly is the study development criticism of ideas which is exactly what Burke did for his entire philosophical life Thus one could argue that the preeminent idea at the center of Burke s thought is the role and function of ideology in terms of human individual and socio cultural development and communication It is my purpose to critically locate and order the many divergent trails of ideology that Burke blazed in his major works in order to present through his many models a tangible theory of ideology Sourcebook on Rhetoric James Jasinski,2001-07-19 Please update SAGE UK and SAGE INDIA addresses on imprint page Rhetoric and Ideology Charles W. Crusius,1999-03-30 This study of Kenneth Burke s writings traces the critic s commitment and contribution to philosophy prior to 1945 The author contends that rather than belonging to the late modernist tradition Burke actually starts from a position closely akin to such postmodern figures as Michel Foucault **Rhetoric and Human Consciousness** Craig R. Smith,2017-04-12 For two decades students and instructors have relied on award winning author Craig Smith s detailed description and analysis of rhetorical theories and the historical contexts for major thinkers who advanced them He employs key themes from important philosophical schools in this well researched chronicle of rhetoric and human consciousness One is that rhetoric is a response to uncertainty The modern philosophers like the naturalists of ancient Greece and the Scholastics who preceded them tried to end uncertainty by combining the discoveries of science and psychology with rationalism Their aim was progress and a consensus among experts as to what truth is However where modernism proved ineffective rhetoric was revived to fill the breach Another significant theme is that different conceptions of human consciousness lead to different theories of rhetoric and for every major school of thought another school of thought forms in reaction Classic and contemporary examples demonstrate the usefulness of rhetorical theory especially its ability to inform and guide By providing probes for rhetorical criticism discussions also demonstrate that rhetorical criticism illustrates verifies and refines rhetorical theory Thus the synergistic relationship between theory and criticism in rhetoric is no different than in other arts Theory informs practice analysis of successful practice refines theory Smith s absorbing study has been expanded to include thorough treatments of rhetoric in the Romantic Era feminist and queer theory and historical context for the creation of rhetorical theory and its use in public address *Sourcebook on Rhetoric , A Rhetoric of Motives* Kenneth Burke,1969-10 The system is a coherent and total vision a self contained and internally consistent way of viewing man the various scenes in which he lives and the drama of human relations enacted upon those scenes W H Rueckert **Kenneth Burke and the Drama of Human Relations** **Ideology and Rhetoric** Bożenna Chylińska,2009-01-14 The discovery of America and its further development into a modern state and a nation are the clear instance of how ideology and rhetoric are entwined and how they can encompass widely disparate viewpoints The essays collected in this book address the topical issues of modern American Studies cultural difference and otherness gender race and ethnicity class and power They

represent new texts and contexts approached through the revision reevaluation and reconfiguration of canons thus accommodating the expectations of the heterodox audience Femininity reconsidered an ideology of passing away in contemporary world of technical development race captured within the framework of identity and gender the rhetoric of blackness approached through racial exploitation American conquest ideology revealed in a mission of Manifest Destiny the 20th century assimilation rhetoric in the relations between Native Americans and the US federal government the conservative ideology and apologetic rhetoric of the Antebellum South the critique of the 21st century American legal system the evolution of the presidential rhetoric which today addresses a large heterogeneous audience all these topics impose a transnational interpretation of American culture which developed as a result of the cross cultural transformation of European culture cultures moulded on American soil to finally become a unique reformulation of the very idea of America itself
