Literacy And Libraries Learning From Case Studies:

Literacy and Libraries GraceAnne DeCandido, 2001-06 Literacy programs at libraries across the country have literally changed people's lives. Hear the real life stories of library directors, program administrators, teachers, tutors, librarians, and adult learners who have experienced the transformation firsthand. Introduction to Public Librarianship Kathleen de la Peña McCook, Jenny S. Bossaller, 2017-12-04 Put simply, there is no text about public librarianship more rigorous or comprehensive than McCook's survey. Now the REFORMA Lifetime Achievement Award winning author has teamed up with noted public library scholar and advocate Bossaller to update and expand her work to incorporate the field's renewed emphasis on outcomes and transformation. This essential tool, Library Journal remains the definitive handbook on this branch of the profession. It covers every aspect of the public library from its earliest history through its current incarnation on the cutting edge of the information environment, including statistics, standards, planning, evaluations, and results, legal issues, funding, and politics, organization, administration, and staffing, all aspects of library technology from structure and infrastructure to websites and makerspaces, adult services, youth services, and children's services, associations, state library agencies, and other professional organizations, global perspectives on public libraries, and advocacy, outreach, and human rights. Exhaustively researched and expansive in its scope, this benchmark text continues to serve both LIS students and working professionals. Literacy and Reading Programmes for Children and Young People: Case Studies from Around the Globe Patrick Lo, Stephanie H. S. Wu, Andrew J. Stark, Bradley Allard, 2022-01-26 Literacy and Reading Programmes for Children and Young People: Case Studies from Around the Globe presents interviews with over 40 librarians from around the world who tell of their library programs. The volumes are arranged geographically, with Volume 1 offering interviews from library professionals from the USA and Europe, and with Volume 2 sharing programs from Asia, Africa, Australia, and the Middle East. The volumes highlight the diversity of the types of programs catering to the varying needs of children and young adults throughout the world. Case studies featured in this book outline the details of programs, events, and activities provided by over 40 organizations in the context of social capital and social inclusion. Each interview chapter discusses the contributions made to literacy development and community building of children and teens. With the many variations and examples of best practice, librarians and educators can glean new ideas for their own programs. The interviews reveal the challenges and issues faced and the work being achieved in vastly different environments in many geographic areas and in diverse economic, social, and cultural contexts. The programs include those of national and state libraries, public libraries, and mobile libraries carried out by public libraries, NGOs, and commercial organizations in both developed and developing countries. They also feature programs of multicultural libraries, libraries for indigenous people, and libraries for refugees. This publication complements the range of initiatives and activities carried out by IFLA's Libraries for Children and Young Adults Section that supports library services and reading promotion initiatives catering to children and young adults around the

world These volumes are rich in variety and will provide much food for thought for creating unique and successful library programs
