Jackson,2007-08-15 Every spring summer and fall it descends on us bringing rounds of sneezing headaches and stuffed noses
It attacks through foods animals plants and innumerable chemical combinations It is among the most common and potentially
lethal afflictions known It has a unique history as both a medical condition and a cultural phenomenon It is the allergy the
subject of Mark Jackson s fascinating chronicle Only a century ago allergies as we know them didn t exist Ailments such as
hay fever asthma and food intolerance were considered rare and non fatal diseases that affected only the upper classes of
Western society Yet as Jackson reveals here what began in the early 1900s as a scorned subfield of immunology research in
Europe and America exploded into great medical cultural and political significance by the end of that century Allergy traces
how the allergy became the archetypal disease of civilization a fringe malady of the wealthy that became a disorder that
bridged all socioeconomic boundaries and fueled anxieties over modernization Jackson also examines the social impact of the
allergy as it required new therapeutic treatments and diagnostic procedures and brought in vast economic rewards Whether
cats crabgrass or cheese is the source of your daily misery Jackson s engaging and in depth historical narrative is an
invaluable addition to the history of medicine as well as to the history of culture In *Allergy* sneezing readers can discover
themselves at the center of deep cultural currents *Index Catalogue of the Pollokshields District Library* Pollokshields
District Library,1909 Music, Art and Performance from Liszt to Riot Grrrl Diane V. Silverthorne,2018-10-18 Opening with
an account of print portraiture facilitating Franz Liszt s celebrity status and concluding with Riot Grrrl s noisy politics of
feminism and performance this interdisciplinary anthology charts the relationship between music and the visual arts from
late Romanticism and the birth of modernism to postmodernism while crossing from Western art to the Middle East Focused
on music as a central experience of art and life these essays scrutinize the musicalisation of art focusing on the visual and
performing arts and detailing significant instances of intra art relations between c 1840 and the present day Essays reflect on
the aesthetic relationships of music to painting performance and installation sound and silence time and space The insistent
influence of Wagner is considered as well as the work and ideas of Manet Satie and Cage Thomas Wilfred La Monte Young
and Eliasson What distinguishes these studies are the convictions that music is never alone and that a full understanding of

the isms of the last two hundred years is best achieved when music's influential presence in the visual arts is acknowledged and interrogated *Standard Catalog for High School Libraries* ,1928 The 1st ed accompanied by a list of Library of Congress card numbers for books except fiction pamphlets etc which are included in the 1st ed and its supplement 1926-29
