Neo-Confucian Self-Cultivation Barry C. Keenan, 2011-05-02 Approximately fifteen hundred years after Confucius his ideas reasserted themselves in the formulation of a sophisticated program of personal self cultivation Neo Confucians argued that humans are endowed with empathy and goodness at birth an assumption now confirmed by evolutionary biologists By following the Great Learning eight steps in the process of personal development Neo Confucians showed how this innate endowment could provide the foundation for living morally Neo Confucian students did not follow a single manual elaborating each step of the Great Learning instead they were exposed to age appropriate texts commentaries and anthologies of Neo Confucian thinkers which gradually made clear the sequential process of personal development and its connection to social order Neo Confucian Self Cultivation opens up in accessible prose the content of the eight step process for today s reader as it examines the source of mainstream Neo Confucian self cultivation and its major crosscurrents from 1000 to 1900 Images of Women in Chinese Thought and Culture Robin Wang, 2003-01-01 This rich collection of writings many translated especially for this volume and some available in English for the first time provides a journey through the history of Chinese culture tracing the Chinese understanding of women as elucidated in writings spanning more than two

thousand years From the earliest oracle bone inscriptions of the Pre Qin period through the poems and stories of the Song Dynasty these works shed light on Chinese images of women and their roles in society in terms of such topics as human nature cosmology gender and virtue

The Politics of Peace Te-Li Lau,2009-12-07 Although scholarship has noted the thematic importance of peace in Ephesians few have examined its political character in a sustained manner throughout the entire letter This book addresses this lacuna comparing Ephesians with Colossians Greek political texts Dio Chrysostom s Orations and the Confucian Four Books in order to ascertain the rhetorical and political nature of its topos of peace Through comparison with analogous documents both within and without its cultural milieu this study shows that Ephesians can be read as a politico religious letter concerning peace within the church Its vision of peace contains common political elements such as moral education household management communal stability a universal humanity and war that are subsumed under the controlling rubric of the unity and cosmic summing up of all things in Christ

Confucian Perspectives on Learning and Self-Transformation Roland Reichenbach,Duck-Joo Kwak,2020-05-18 This book bridges the regions of East Asia and the West by offering a detailed and critical inquiry of educational concepts of the East Asian tradition It provides educational thinkers and practitioners with alternative resources and perspectives for their educational thinking to enrich their educational languages and to promote the recognition of educational thoughts from different cultures and traditions across a global world The key notions of Confucian and Neo Confucian philosophy directly concern the ideals processes and challenges of learning education and self transformation which can be seen as the western equivalences of liberal education including the German concept of Bildung All the topics in the book are of fundamental interest across diverse cultures giving a voice to a set of long lasting and yet differentiated cultural traditions of learning and education and thereby creating a common space for critical philosophical reflection of one s own educational tradition and practice The book is especially timely given that the vocabularies in educational discourse today have been dominantly West centred for a long time even while the whole world has become more and more diverse across races religions and cultures It offers a great opportunity to philosophers of education for their cross cultural understanding and self understanding of educational ideas and practices on both personal and institutional levels

Concerning Creativity John H. Berthrong,1998-10-01 A cross cultural comparison of creativity that introduces Neo Confucian discourse as a sophisticated dialogue partner with modern western speculative philosophy and theology

Fifty Eastern Thinkers Diane Collinson,Kathryn Plant,Robert Wilkinson,2013-04-03 Close analysis of the work of fifty major thinkers in the field of Eastern philosophy make this an excellent introduction to a fascinating area of study The authors have drawn together thinkers from all the major Eastern philosophical traditions from the earliest times to the present day The philosophers covered range from founder figures such as Zoroaster and Confucius to modern thinkers such as Fung Youlan and the present Dalai Lama Introductions to major traditions and a glossary of key philosophical terms make this a comprehensive and accessible reference resource

Journal of Chinese Religions, 2016 *The Confucian Concept of Learning* Duck-Joo Kwak, Morimichi Kato, Ruyi Hung, 2019-12-18 What does the Confucian heritage mean to modern East Asian education today Is it invalid and outdated or an irreplaceable cultural resource for an alternative approach to education And to what extent can we recover the humanistic elements of the Confucian tradition of education for use in world education Written from a comparative perspective this book attempts to collectively explore these pivotal questions in search of future directions in education In East Asian countries like China Japan Korea and Taiwan Confucianism as a philosophy of learning is still deeply embedded in the ways people think of and practice education in their everyday life even if their official language puts on the Western scientific mode It discusses how Confucian concepts including rote learning and conformity to authority can be differently understood for the post liberal and post metaphysical culture of education today The contributors seek to make sense of East Asian experiences of modern education and to find a way to make Confucian philosophy of education compatible with the Western idea of liberal education This book was originally published as a special issue of Educational Philosophy and Theory Re-Reading Pareto on Elite Power and Societal Bipolarisation Alasdair J. Marshall, 2025-08-22 Assessing Vilfredo Pareto's sociological reworkings of Machiavelli's Fox and Lion animal spirits as friend enemy codings this book offers a unique insight into the growing division today between relatively liberal elites and relatively conservative non elites Re Reading Pareto on Elite Power and Societal Bipolarisation utilises key ideas common to Pareto's elite theory general sociology and theory of

demagogic plutocracy and fleshes out a unique perspective for making sense of contemporary societal bipolarisation in terms of friend enemy codings The first part of the book explores what Pareto s core ideas are and outlines why they matter today The second part considers how we might elaborate and apply Pareto s concept of open elites to reverse contemporary societal bipolarisation and build safer and more mature democracies The third part explains how we can apply Pareto to predict further deterioration towards fundamental social conflict such that Pareto s sociological imagination becomes risk imagination we desperately need today For academics and students across the domains of sociology political science and social science in general the book warns of widespread elite institutional bias in their research and points to Pareto s neutral and balanced approach as a corrective offering a uniquely Paretian view of minimal criteria for democracy as well as a uniquely balanced analytical perspective for making sense of our culture war **Dialogue and Universalism** ,1998 Toward synergy of civilizations The Word of God for the People of God ,2010-01-04 This book fills a real need for pastors and students Though there is currently a large body of material on the theological interpretation of Scripture most of it is highly specific and extremely technical J Todd Billings here provides a straightforward entryway for students and pastors to understand why theological interpretation matters and how it can be done A solid constructive theological work The Word of God for the People of God presents a distinctive Trinitarian participatory approach toward reading Scripture as the church Billings s accessible yet substantial argument for a theological hermeneutic is rooted in a historic vision of the practice of scriptural interpretation even as it engages a wide range of contemporary issues and includes several exegetical examples that apply to concrete Christian ministry situations **Censorship** Derek Jones,2001-12-01 First published in 2002 Routledge is an imprint of Taylor Francis an informa company *Reading Habermas* Michael Hofmann,2022-12-13 Reading Habermas Structural Transformation of the Public Sphere dissolves Habermas s monolithic stylization to precisely access his seminal distinction between the purely political polis of antiquity which excludes the private economy from the res publica and the modern public sphere with its rational critical discourse about commodity exchange and social labor in the political economy Deconstructing the uniform mold of Structural Transformation s narrative about a rise and fall of the bourgeois public sphere in modernity also allows to identify and understand the ideology critical methodologies of Habermas s theory reconstruction of Kant s ideal of the liberal public in the context of the French Revolution Readers of this guide realize that Habermas s interpretation of a sociological and political category with the norms of constitutional theory and intellectual history causes the collapsing of norm and description he acknowledged in 1989 and thus frequent misunderstandings about the historical validity of Structural Transformation s ideal type derived from Condorcet s absolute rationalism and Kant s unofficial philosophy of history Specifically the guide explains that Habermas s key construct of a morally pretentious rationality of the bourgeois public sphere entirely depends on the claim about natural laws harmoniously regulating the economy While neoliberalism still maintains this claim Hegel decisively destroyed it already in 1821
