History And Class Essential Readings In Theory And Interpretation:

History and Class R. S. Neale, 1983-01-01 Class and Space (RLE Social Theory) Nigel Thrift, Peter Williams, 2014-09-04 This book is abut the place of space in the study of class formation It consists of a set of papers that fix on different aspects of the human geography of class formation at different points in the history of Britain and the United States over the course of the last 200 years The book shows that the geography of class formation is a valuable and cross disciplinary tool in the study of modern societies integrating the work of human geographers with that of social historians sociologists social anthropologists and other social scientists in an enterprise which emphasises the essential unity of social The Future of Class in History Geoff Eley, Keith Nield, 2007 In the struggle between social and cultural thinking science the refusal to choose sides can be a radical and vital move *Modern Scottish History: 1707 to the Present Anthony* Cooke, Ian Donnachie, Ann MacSween, Christopher A. Whatley, 2008-01-30 This is the first volume of a distance learning history of Scotland course The 26 major topics are covered in five books designed for self study and written to accompany the course These volumes are two tutorial volumes two volumes of reprinted articles and essays and a volume of documents The first half of the course covers the period 1707 to 1850 Beginning with the Union of 1707 and Jacobitism the course considers topics including industrialization politics religion the environment class demography and culture as well as looking at the differences between Highland and Lowland society and economy The project team for this part of the course includes C G Brown G Carruthers A J Cooke I Donnachie W H Fraser M T G Fry B Harris A I Macinnes I Maver T C Smout N L Tranter C A Whatley I D Whyte and D J Withrington The period 1850 to the present is covered in the second half of the course Again a wide range of topics is studied and some topics such as industrialization demography urbanization religion class education culture and Highland and Lowland society is continued The project team for this second part of the course includes R D Anderson R Anthony C G Brown E A Cameron R J Finlay J O Foster C Harvie W Kenefick R A Lambert I Levitt A J MacIvor R J Morris and P L Payne Flesh in the Age of Reason Roy Porter, 2005-01-27 As an introduction to early modern thinking and the impact of past ideas on present lives this book can find few equals and no superiors Porter is a witty humane writer with an extraordinary vocabulary and a sparkling sense of fun Whether he is quoting from obscure medical texts or analysing scabrous diaries dishing the dirt on long dead bigwigs or evoking sympathy for human suffering his grasp is masterly and his erudition appealing I wish I could read it again for the first time you can Times Educational Supplement Book of the Week In this startlingly brilliant sequel to the prize winning ENLIGHTENMENT Roy Porter completes his lifetime s work offering a magical enthusiastic and charming account of the writings of some of the most attractive figures ever to write English

Coming Out Jewish Jon Stratton,2003-09-02 Like many Jews of our generation Jon Stratton grew up in a family more concerned about assimilation than about preserving Jewish tradition While he could easily pass among non Jews he found himself increasingly torn between his fear of not belonging and a deeply felt commitment to his family s past Coming Out

Jewish examines the unique challenge of constructing an identity amid the clash between ethnicity and conformity For many Jews the idea of full assimilation ended with the Holocaust But the pressure to adapt to the mainstream Stratton eloquently argues remains powerful especially for those with anglicized names assimilationist parents a history of recent immigration or ambivalent experiences of themselves as Jews With reference to the work of Daniel Boyarin Ien Ang and Homi Bhabha among others Stratton offers fresh analysis on a wide range of topics including the Jewish origins of pluralism in the US anti Semitism in Germany the Jewishness of sitcoms like Seinfeld and the Yiddishization of American culture since World War II More than a book about Jews and Jewishness Coming Out Jewish smartly and accurately mines the Jewish experience in the West to give voice to the issues of migration Diaspora assimilation and identity that affect those displaced and othered around the world The Working-class Intellectual in Eighteenth- and Nineteenth-century Britain Aruna Krishnamurthy, 2009 This collection of essays contributes to scholarship on the emergence of the working classes by filtering the formation of working class identity through the rise of the working class intellectual a unique cultural figure at the crossroads of two disparate worlds The essays cover a range of familiar and unfamiliar figures from the 1730s to the 1850s A Concise Companion to the Victorian Novel Francis shedding light on key moments of working class self expression O'Gorman, 2008-04-15 This volume presents fresh approaches to classic Victorian fiction from 1830 1900 Opens up for the reader the cultural world in which the Victorian novel was written and read Crosses traditional disciplinary boundaries Provides fresh perspectives on how Victorian fiction relates to different contexts such as class sexuality empire psychology 'We are a farming class' Peter Woodley, 2025-04-03 Notions of an arcadian farming life permeate settler law and biology Australian understandings of themselves and their nation Qualities of hard work perseverance resourcefulness and a steady devotion to family and community the historian John Hirst's Pioneer Legend are idealised in this nation But the people from whom the legend is derived have rarely been studied in depth They are more the stuff of myth and fond imagining than of concerted examination To what extent is the legend built on lived experience How have farming people thought of themselves and their contribution to a wider national mythos We are a farming class examines the lives of people in the farmlands surrounding Dubbo in the New South Wales central west between the 1870s and the 1950s from free selection and the establishment of agriculture to the dawning of postwar prosperity and change What emerges is a closely documented ethnographically rich portrait of a way of life and culture at once distinctive and surprising recognisable and unknown

Bureaucrats, Planters, and Workers Susan Deans-Smith,2010-07-05 Honorable Mention Bolton Memorial Prize Conference on Latin American History A government monopoly provides an excellent case study of state society relationships This is especially true of the tobacco monopoly in colonial Mexico whose revenues in the later half of the eighteenth century were second only to the silver tithe as the most valuable source of government income This comprehensive study of the tobacco monopoly illuminates many of the most important themes of eighteenth century Mexican social and economic history

from issues of economic growth and the supply of agricultural credit to rural relations labor markets urban protest and urban workers class formation work discipline and late colonial political culture Drawing on exhaustive research of previously unused archival sources Susan Deans Smith examines a wide range of new questions Who were the bureaucrats who managed this colonial state enterprise and what policies did they adopt to develop it How profitable were the tobacco manufactories and how rational was their organization What impact did the reorganization of the tobacco trade have upon those people it affected most the tobacco planters and tobacco workers This research uncovers much that was not previously known about the Bourbon government s management of the tobacco monopoly and the problems and limitations it faced Deans Smith finds that there was as much continuity as change after the monopoly s establishment and that the popular response was characterized by accommodation as well as defiance and resistance She argues that the problems experienced by the monopoly at the beginning of the nineteenth century did not originate from any simmering entrenched opposition Rather an emphasis upon political stability and short term profits prevented any innovative reforms that might have improved the monopoly s long term performance and productivity With detailed quantitative data and rare material on the urban working poor of colonial Mexico Bureaucrats Planters and Workers will be important reading for all students of social economic and labor history especially of Mexico and Latin America Driving toward Modernity Jun Zhang, 2019-10-15 In Driving toward Modernity Jun Zhang ethnographically explores the entanglement between the rise of the automotive regime and emergence of the middle class in South China Focusing on the Pearl River Delta one of the nation s wealthiest regions Zhang shows how private cars have shaped everyday middle class sociality solidarity and subjectivity and how the automotive regime has helped make the new middle classes of the PRC By carefully analyzing how physical and social mobility intertwines Driving toward Modernity paints a nuanced picture of modern Chinese life comprising the continuity and rupture as well as the structure and agency of China's great transformation The Oxford Companion to Family and Local History David Hey, 2010-02-25 The Oxford Companion to Family and Local History is the most authoritative guide available to all things associated with the family and local history of the British Isles It provides practical and contextual information for anyone enquiring into their English Irish Scottish or Welsh origins and for anyone working in genealogical research or the social history of the British Isles This fully revised and updated edition contains over 2 000 entries from adoption to World War records Recommended web links for many entries are accessed and updated via the Family and Local History companion website This edition provides guidance on how to research your family tree using the internet and details the full range of online resources available Newly structured for ease of use thematic articles are followed by the A Z dictionary and detailed appendices which include further reading New articles for this edition are A Guide for Beginners Links between British and American Families Black and Asian Family History and an extended feature on Names With handy research tips a full background to the social history of communities and individuals and an updated appendix listing all national and local

record offices with their contact details this is an essential reference work for anyone wanting advice on how to approach genealogical research as well as a fascinating read for anyone interested in the past America's First Black Town Sundiata Keita Cha-Jua, 2000 Sundiata Keita Cha Jua traces Brooklyn's transformation from a freedom village into a residential commuter satellite that supplied cheap labor to the city and the region The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general Towards a Sociology of Artisans Sokratis M. Koniordos, 2018-02-06 This title was first published in 2001 readers alike A comparative sociological examination of artisans exploring historical examples and theoretical references to the stratum The book also investigates empirical case studies and analyzes the variegated careers of contemporary artisans

Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Community Life Graham Crow, Graham

Allan, 2014-06-06 First published in 1994 The sociology of community is currently undergoing something of a revival and this

book has been written with the aim of contributing to this process in a number of ways First of all it draws attention to the burgeoning literature on sociological aspects of community life Secondly its bring together the various studies considered here into a more coherent whole than they possess as simply a collection of separate pieces of research **The Study of History**,1988 The chief objective of this text is to provide a handy reference guide for teachers students and researchers of modern European economic and social history Since the bibliography covers only works written in the English language it will probably be of less use to the last named group at least insofar as those within it are already seasoned researchers on a particular country or topic However it would have been quite impossible from the point of view of length to have included all the literature in foreign languages while to have done so would have defeated the essential aim of the volume namely that of providing a reasonably convenient guide for those who teach and study the subject but who are not primarily specialists in the field Labour History ,1994 British Economic and Social History R. C. Richardson, William Henry Chaloner, 1996
