

The background of the book cover is a photograph of a vast, arid desert landscape. In the foreground, there are rugged, reddish-brown hills and mountains. The middle ground shows a deep valley with more distant, hazy mountains. The sky is a bright, warm orange, suggesting a sunset or sunrise. The overall tone is dramatic and intense.

*Understanding Walter Mosley* Jennifer Larson, 2016-10-31 A survey of an award-winning author's extensive corpus written across a broad range of genres Walter Mosley is perhaps best known for his first published mystery *Devil in a Blue Dress* which became the basis for the 1995 movie of the same name featuring Denzel Washington Mosley has since written more than forty books across an

impressive expanse of genres including but not limited to nonfiction science fiction drama and even young adult fiction garnering him many honors including an O Henry Award an Anisfield Wolf Book Award a Grammy Award a Pen Center Lifetime Achievement Award and two NAACP Image Awards for Outstanding Literary Work in Fiction In Understanding Walter Mosley Jennifer Larson considers Mosley's corpus as a whole to help readers more fully understand the evolution of his literary agenda All Mosley's texts feature his trademark accessibility as well as his penchant for creating narratives that both entertain and instruct Larson examines how Mosley's writing interrogates complicates and contextualizes recurring moral social and even personal questions She also considers the possible roots of Mosley's enduring popularity with a diverse group of readers Larson then traces key themes and claims throughout the Easy Rawlins series to show how Mosley's beloved hero offers unique perspectives on race class and masculinity in the mid to late twentieth century explores the ways in which Fearless Jones Mosley's second detective both builds on and diverges from his predecessor's character and looks at how the works featuring Leonid McGill Mosley's junior detective center on understanding the complex relationship between present day social dilemmas and the personal as well as the communal past Regarding Mosley's other genres Larson argues that the science fiction works together portray a future in which race class and gender are completely reimaged yet still subject to an oppressive power dynamic while his erotica asks readers to reconsider the dynamics of power and control but in a more personal even intimate context Similarly in Mosley's nongenre fiction stories are revived through a reconnection with the past a reclaiming of cultural heritage and lineage and a rejection of classist visions of power Finally Mosley's nonfiction which persuades his audience to act through writing humanitarian efforts or social uprising offers a mix of lessons aimed at guiding readers through the same questions that inform his fiction writing

*Mikhail Bakhtin* Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or

surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin s own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin s thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive
