Limited,2008-10      From Squaw Tit to Whorehouse Meadow Mark Monmonier,2008-09-15 Brassiere Hills Alaska Mollys Nipple Utah Outhouse Draw Nevada In the early twentieth century it was common for towns and geographical features to have salacious bawdy and even derogatory names In the age before political correctness mapmakers readily accepted any local preference for place names prizing accurate representation over standards of decorum Thus summits such as Squaw Tit which towered above valleys in Arizona New Mexico Nevada and California found their way into the cartographic annals Later when sanctions prohibited local use of racially ethnically and scatologically offensive toponyms town names like Jap Valley California were erased from the national and cultural map forever From Squaw Tit to Whorehouse Meadow probes this little known chapter in American cartographic history by considering the intersecting efforts to computerize mapmaking standardize geographic names and respond to public concern over ethnically offensive appellations Interweaving cartographic history with tales of politics and power celebrated geographer Mark Monmonier locates his story within the past and present struggles of mapmakers to create an orderly process for naming that avoids confusion preserves history and serves different political aims Anchored by a diverse selection of naming controversies in the United States Canada Cyprus

Israel Palestine and Antarctica on the ocean floor and the surface of the moon and in other parts of our solar system From Squaw Tit to Whorehouse Meadow richly reveals the map's role as a mediated portrait of the cultural landscape And unlike other books that consider place names this is the first to reflect on both the real cartographic and political imbroglios they engender From Squaw Tit to Whorehouse Meadow is Mark Monmonier at his finest a learned analysis of a timely and controversial subject rendered accessible and even entertaining to the general reader *The Publishers Weekly*, 2003

National Geographic Treasures, *The Routledge Atlas of the First World War* Martin Gilbert, 2002 From its origins to its terrible legacy the tortuous and bloody course of the Great War is vividly set out in a series of 164 fascinating maps From its origins to its terrible legacy the tortuous and bloody course of the Great War is vividly set out in a series of 164 fascinating maps Together the maps form a comprehensive and compelling picture of the war that shattered Europe and illustrate its military social political and economic aspects Beginning with the tensions that already existed the atlas covers the early months of the war from the fall of Belgium to the fierce fighting at Ypres and Tannenberg the developing war in Europe from Gallipoli to the horrors of the Somme and Verdun life at the front from living underground the trench system and the mud of Passchendaele to the war graves war in the air and at sea from the Zeppelin raids to the battles in the North Sea shipping losses and the Atlantic convoys technology and the new horrors from phosgene gas attacks to submarines tanks and mines the home fronts from German food riots to the air defence of Britain the Russian Revolution and the collapse of Austria Hungary the Aftermath from war debts and war deaths to the new map of Europe *PC Mag*, 1996-06-25 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology

*Middlebury Atlas of Globalization* Guntram H. Herb Ph.D, Sujata Moorti Ph.D, Kemi Fuentes-George Ph.D, 2024-12-06 There is a reason that the story of globalization presented in this atlas starts in Middlebury It is in this small Vermont town home of Middlebury College where the concept for this atlas was conceived and developed where most of the maps were designed and drafted and where the analytical texts were discussed and crafted As critical scholars and professors at this liberal arts college we are keenly aware of the need for fact based analysis and of the dearth of reliable maps about global processes and flows We joined together to create an illustrated text that could cast light on the complex nature of globalization We developed a comprehensive outline of topics and a list of about 100 maps We were fortunate to have drafts of about half of the maps from the Perthes World Atlas that Guntram had edited previously but it was clear that we needed to make substantial revisions develop at least 50 maps on our own and design a companion website for data updates and additional imagery We decided to draw on the skills and insight of our students to master this challenge not just to help us conduct research and design maps but also to bounce off ideas for the text and maps and to develop an atlas that was most effective for classroom use We recruited 15 Middlebury College student research assistants with profound international

experience and training in data management and visualizations such as QGIS Adobe Illustrator and coding As a team we researched options for data collection discussed strategies for the best representation of data classes and conferred about design choices We faced many difficult choices such as how to represent data for regions in the world that are occupied by foreign countries how to draw international boundaries that are contested what to use as the most reliable indicator for social phenomena or where to source photos for the website In the end the strength of the education of IMPRINT our Middlebury students our own scholarly work the experience in the classroom and Middlebury's international links helped us address these challenges Middlebury was instrumental in making this atlas a reality It offered generous support for our research students and the production of the atlas and website Its deep commitment to global education served as an inspiration Middlebury College attracts students from all over the world who come here to pursue an undergraduate degree in liberal arts Every summer the campus houses its renowned language school where students learn 13 world languages including Abenaki which is spoken by the Indigenous inhabitants who call this place home Just up the road in the Green Mountains the annual Bread Loaf School of English and Writers Conference draws teachers and writers from all over the globe Middlebury's presence extends far beyond the east coast On the other side of the American continent is the Middlebury Institute of International Studies its Graduate School in Monterey California and Middlebury is in places as far flung as China Russia India France Morocco Cameroon Brazil there are a total of 32 Middlebury C V Starr Schools Abroad in 16 different countries It is from these diverse places that the photos on our website are sourced To discover more about Middlebury's vision its schools and its research centers click on the QR code below The webpage features a map of Middlebury's global community of learning that shows the location of its schools and the home countries of students faculty and alumni Guntram H Herb Sujata Moorti Kemi Fuentes George
