[The Moral Imagination](#) John Paul Lederach,2010 John Paul Lederach s work in the field of conciliation and mediation is internationally recognized He has provided consultation training and direct mediation in a range of situations from the Miskito Sandinista conflict in Nicaragua to Somalia Northern Ireland Tajikistan and the Philippines His influential 1997 book *Building Peace* has become a classic in the discipline In this book Lederach poses the question How do we transcend the cycles of violence that bewitch our human community while still living in them Peacebuilding in his view is both a learned skill and an art Finding this art he says requires a worldview shift Conflict professionals must envision their work as a creative act an exercise of what Lederach terms the moral imagination This imagination must however emerge from and speak to the hard realities of human affairs The peacebuilder must have one foot in what is and one foot beyond what exists The book is organized around four guiding stories that point to the moral imagination but are incomplete Lederach seeks to understand what happened in these individual cases and how they are relevant to large scale change His purpose is not to propose a grand new theory Instead he wishes to stay close to the messiness of real processes and change and to recognize the serendipitous nature of the discoveries and insights that emerge along the way overwhelmed the equally important creative process Like most professional peacemakers Lederach sees his work as a religious vocation Lederach meditates on his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation Drawing on his twenty five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art [http://www.loc.gov/catdir/enhancements/fy0616/2004011794\\_d.html](http://www.loc.gov/catdir/enhancements/fy0616/2004011794_d.html)

[The Art of Discovery](#) Maren Elisabeth Schwab,Anthony Grafton,2025-01-28 A panoramic history of the antiquarians whose discoveries transformed Renaissance culture and gave rise to new forms of art and knowledge In the early fifteenth century a casket containing the remains of the Roman historian Livy was unearthed at a Benedictine abbey in Padua The find was greeted with the same enthusiasm as the bones of a Christian saint and established a pattern that antiquarians would follow for centuries to come The *Art of Discovery* tells the stories of the Renaissance antiquarians who turned material remains of the ancient world into sources for scholars and artists inspirations for palaces and churches and objects of pilgrimage and devotion Maren Elisabeth Schwab and Anthony Grafton bring to life some of the

most spectacular finds of the age such as Nero's Golden House and the wooden placard that was supposedly nailed to the True Cross. They take readers into basements, caves and cisterns explaining how digs were undertaken and shedding light on the methods antiquarians and the alchemists and craftspeople they consulted used to interpret them. What emerges is not an origin story for modern archaeology or art history but rather an account of how early modern artisanal skills and technical expertise were used to create new knowledge about the past and inspire new forms of art scholarship and devotion in the present. *The Art of Discovery* challenges the notion that Renaissance antiquarianism was strictly a secular enterprise revealing how the rediscovery of Christian relics and the bones of martyrs helped give rise to highly interdisciplinary ways of examining and authenticating objects of all kinds. **Art and the Material** Samuel Alexander, 1925 **Canadian Books in Print**, 2000 **The Art of Self-Control: Discipline in Eastern and Western Aesthetics** BD Sharma, 2025-05-07 Self control is often the key to unlocking creativity and excellence in any field. *The Art of Self Control* examines how discipline and self regulation impact the creative process both in the East and the West. The book explores Eastern philosophies like Zen Buddhism and Taoism where discipline is seen as a spiritual and philosophical pursuit and contrasts them with Western approaches to mastery such as the pursuit of perfection in classical art. Through engaging discussions and real life examples readers will discover how artists across different cultures have used self control not just to refine their craft but to shape their personal lives. This book is a guide to harnessing self discipline to cultivate a deeper connection with your art and achieve lasting mastery. *The Art of New Creation* Jeremy Begbie, Daniel Train, W. David O. Taylor, 2022-03-29 Creation and the new creation are inextricably bound for the God who created the world is the same God who promises a new heaven and a new earth. Bringing together theologians, biblical scholars and artists this volume based on the DITA10 conference at Duke Divinity School explores how the relation between creation and the new creation is informed by and reflected in the arts. **Art Journal**, 1960
